BOB AND BRAD Q2 Plus Mini Massage Gun with Heat User Manual

Model: Q2 Plus Mini

INTRODUCTION

This manual provides instructions for the safe and effective use of your BOB AND BRAD Q2 Plus Mini Massage Gun with Heat. Please read this manual thoroughly before operation and retain it for future reference.

SAFETY INFORMATION

To ensure safe operation, observe the following precautions:

- Charge the device fully before initial use.
- Attach the desired massage head securely before turning on the device.
- Refer to the user manual for detailed instructions and safety precautions specific to each massage head and body area.
- Do not use the device on open wounds, sensitive skin areas, or over bony prominences.
- Consult a healthcare professional before use if you have any medical conditions, are pregnant, or have a pacemaker.
- To maintain optimal battery health, charge the device regularly, even when not in use. If the battery is completely drained for an extended period, it may become difficult to recharge. Charge the device every few weeks to prevent this.

SETUP

Initial Charging:

Before first use, fully charge the massage gun. Connect the USB Type-C charging cable to the device and a compatible 15W PD fast charger (not included) or power bank. The charging indicator will show progress. A full

charge typically takes 1.5 to 2 hours.

Attaching Massage Heads:

1. Ensure the device is powered off.
2. Select the desired massage head.
3. Align the stem of the massage head with the opening on the front of the massage gun.
4. Push firmly until the head is securely seated. Do not twist.
5. To remove, pull the head straight out.

OPERATING INSTRUCTIONS

Power On/Off:

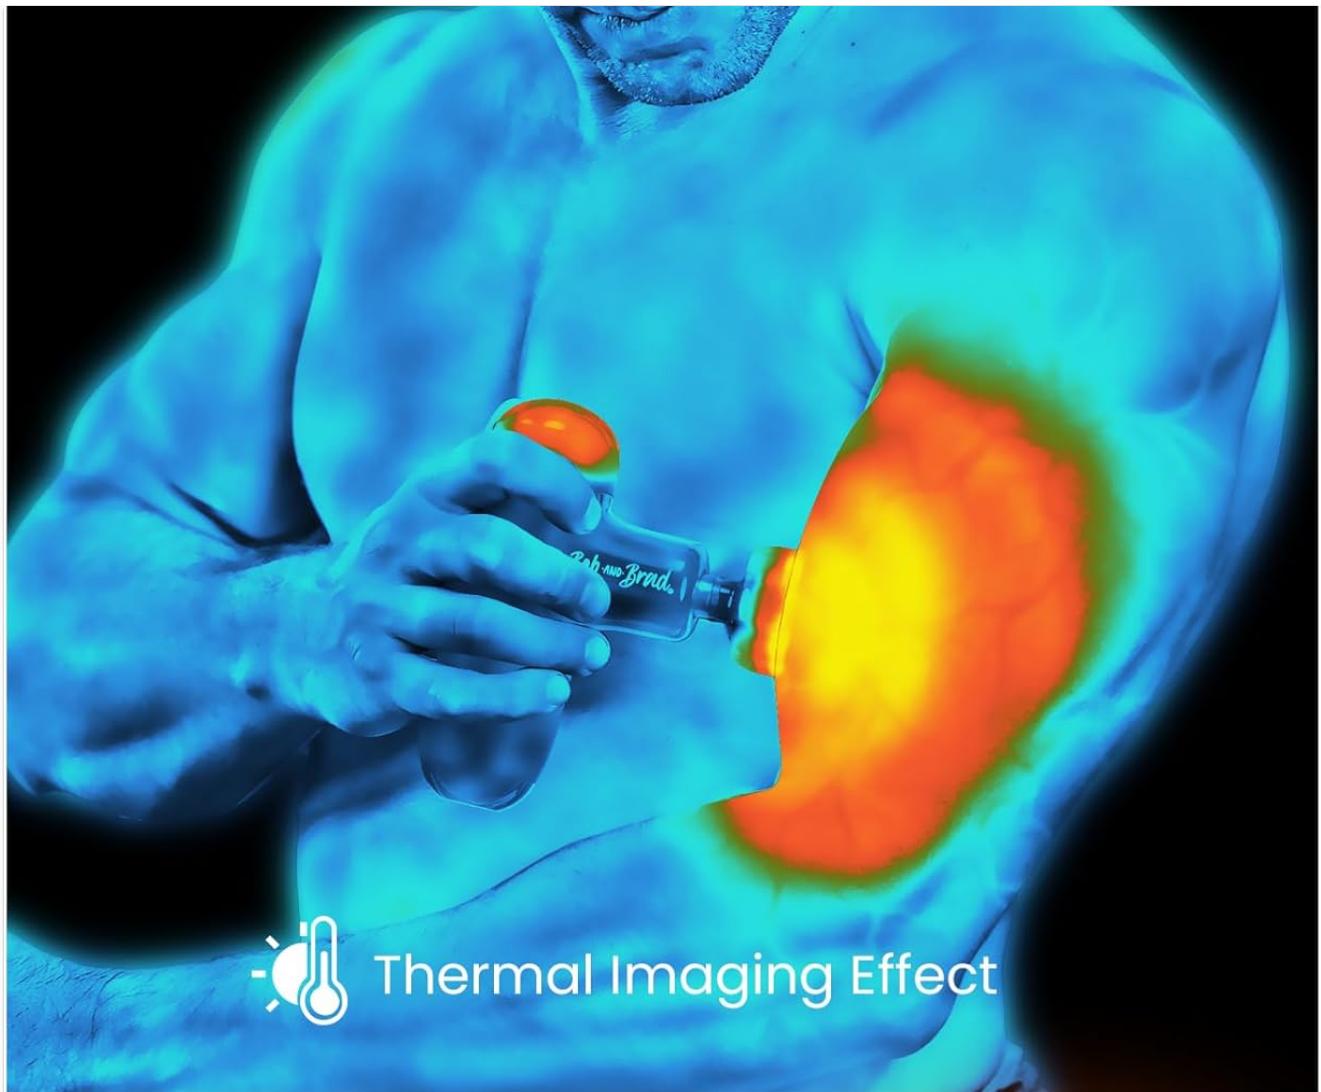

- Press and hold the power button for 2 seconds to turn the device on or off.
- The device will automatically power off after 10 minutes of continuous use to prevent overheating and conserve battery. You can restart it by pressing the power button again.

Adjusting Speed:

- Once powered on, press the power button repeatedly to cycle through the 5 speed settings (1800, 2100, 2400, 2700, and 3000 RPM).
- Start with the lowest speed and gradually increase as desired.

Using the Heat Function:

- Ensure the Heat Head attachment is installed.
- Activate the heat function (specific button or combination of buttons, refer to device markings if available, otherwise assume integrated with power button for simplicity).
- Allow a few moments for the head to warm up.
- Apply the heated head to the desired muscle area. The heat therapy enhances blood circulation and aids in deeper relaxation.
