Aurzen D1 PRO

Aurzen EAZZE D1 Pro Smart Projector
USER INSTRUCTION MANUAL
Model: D1 PRO

1. INTRODUCTION

Welcome to the world of immersive entertainment with your new Aurzen EAZZE D1 Pro Smart Projector. This manual provides essential information for setting up, operating, and maintaining your projector to ensure optimal performance and a seamless user experience. The D1 Pro combines advanced projection technology with smart features, delivering stunning visuals and rich audio for your home theater, gaming, or outdoor movie nights.

The Aurzen EAZZE D1 Pro Smart Projector, designed for versatile entertainment.

2. WHAT'S IN THE BOX

- 1 × Aurzen Smart Projector
- 1 × Power Adapter
- 1 × Bluetooth & Infrared Remote Control (2*AAA Batteries Required)
- 1 × HDMI Cable
- User Manual (this document)

Note: For optimal 4K video playback, connect 4K devices (e.g., TV stick) via HDMI. Videos labeled as 4K will be displayed at a native resolution of 1080P, often termed "4K supported."

3. KEY FEATURES

3.1. Superior Audio Performance

The EAZZE D1 Pro redefines sound with its integration of Dolby Audio and dbx-tv Total Sonics. Equipped with built-in 20W speakers, it delivers crystal-clear sound, deep bass, and an immersive audio experience without distortion. dbx-tv Total Sonics enhances soundbars and TVs by independently controlling the subwoofer with dedicated bass processing, providing fuller sound and deeper bass even for bass-heavy content.

Experience rich, powerful sound with Dolby Audio and dbx-tv Total Sonics.

3.2. Certified Streaming Content

Enjoy a vast library of entertainment with officially certified Netflix, Prime Video, and YouTube apps pre-installed. Simply log in to your subscription accounts directly on the projector for unlimited access to movies and shows. For other apps, connect a TV Stick or PC as direct installation is not supported.

Access your favorite streaming services directly from the projector.

3.3. Full Auto Assistance

The D1 Pro features a 4-in-1 smart automation system for effortless setup. Real-time AI auto-focus and auto-keystone functions eliminate manual adjustments, providing a perfectly clear image in seconds. It also includes auto-obstacle avoidance and auto-screen alignment (can be enabled in settings) to automatically adjust the image if an obstacle is detected or for perfect screen fit.

Automated features ensure a perfect image without manual adjustments.

3.4. Exceptional Clarity and Image Quality

Experience stunning visuals with native 1080p resolution, HDR10 support, and 4K compatibility. HDR10 enhances contrast and color accuracy, delivering deeper blacks and more vibrant colors. The projector offers 350 ANSI lumens brightness, providing clear visuals even in ambient light conditions.

Native 1080P with HDR10 support for stunning visual clarity.
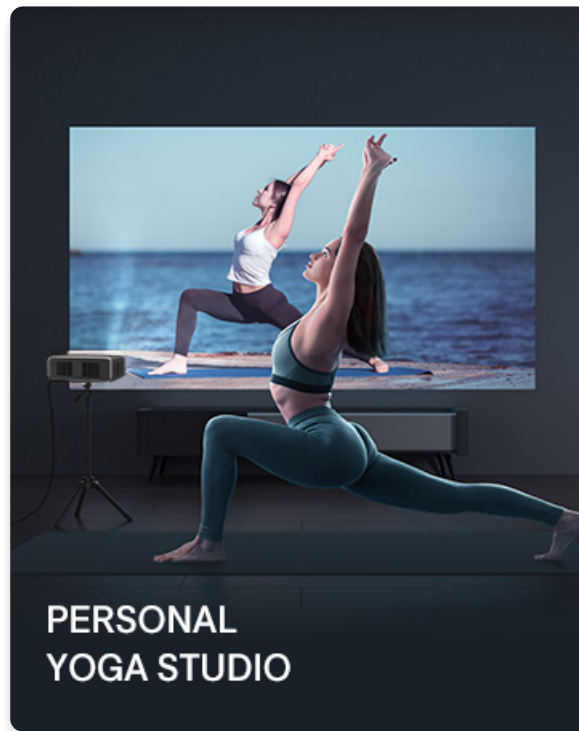

3.5. Versatile Connectivity

The D1 Pro features 5G/2.4G dual-band WiFi for faster streaming and reduced interference. Two-way Bluetooth 5.2 allows connection to mobile devices as a standalone stereo speaker or pairing with external Bluetooth speakers/headphones for enhanced audio. Multiple ports including HDMI and USB are available for connecting various devices.

Seamless two-way Bluetooth connectivity for audio flexibility.

PERSONAL
YOGA STUDIO

Connect gaming consoles, USB drives, laptops, and more with ease.

3.6. Convenient Control

The dual-mode remote control supports both Bluetooth and infrared functionality, allowing you to manage the projector from any position without direct aim. Illuminated touch buttons on the projector provide an alternative control method.

Total freedom of control from any angle with the dual-mode remote.

4. SETUP GUIDE

4.1. Placement

For best results, project from about 7.9 feet (2.4 meters) for an 80-inch image in a dark environment. Keep the projection angle ≤20° for optimal image correction. The projector can be placed on a table, floor stand, or ceiling mounted.

Flexible placement options for any setting.

4.2. Power Connection

Connect the power adapter to the projector's DC IN port and plug it into a power outlet (100-240V~, 50/60Hz).

4.3. Initial Power On & Auto-Adjustment

Once powered on, the projector will automatically perform auto-focus and auto-keystone correction to provide a clear and properly shaped image. If necessary, use the remote control for fine-tuning the focus.

5. OPERATING INSTRUCTIONS

5.1. Navigation and Interface

Navigate the projector's smart TV OS using the included remote control or the illuminated touch buttons on the projector's top panel. The interface is designed for intuitive access to pre-installed apps and settings.

Easily adjust the projector with illuminated touch buttons.

5.2. Connecting Devices

- **HDMI:** Connect external devices like TV sticks, gaming consoles, or laptops via the HDMI port.
- **USB:** Use the USB ports for media playback from USB drives.

- **WiFi:** Connect to your home network using 5G or 2.4G dual-band WiFi for online streaming and wireless mirroring.
- **Bluetooth:** Pair with mobile devices or external Bluetooth speakers/headphones.

5.3. Using Bluetooth Speaker Mode

The projector can function as a standalone Bluetooth speaker. To activate this mode:

1. Go to the homepage.
2. Navigate to 'My Apps'.
3. Select 'BT Speaker'.
4. Activate Bluetooth on your mobile phone and search for 'EAZZE_D1P' in the available device list to make Bluetooth pairing.

Demonstration on how to switch the projector to speaker mode and connect via Bluetooth.

5.4. Wireless Mirroring

The projector supports dual-band WiFi streaming for mirroring content from your Android, Apple, or Windows devices. Note that copyrighted content from services like Hulu, Netflix, and others cannot be mirrored or cast due to copyright restrictions. For such content, use a TV stick or PC connected to the projector.

Dual-band WiFi streaming for lightning-fast wireless mirroring.

6. MAINTENANCE

To ensure the longevity and optimal performance of your Aurzen EAZZE D1 Pro projector, follow these maintenance guidelines:

- **Cleaning the Lens:** Use a soft, lint-free cloth specifically designed for optical lenses to gently wipe the projector lens. Avoid using abrasive materials or harsh chemicals.
- **Cleaning the Exterior:** Wipe the exterior of the projector with a soft, dry cloth. Do not use liquid cleaners or sprays directly on the device.
- **Dust-Resistant Design:** The projector features a dust-resistant design to minimize internal dust accumulation. However, regular cleaning of external vents can help maintain airflow.
- **Storage:** When not in use for extended periods, store the projector in a cool, dry place, ideally in its original packaging or a protective case, to prevent dust and damage.

CRISP CLARITY WITH ADVANCED OPTICS

Deliver Sharpness and Detail
with Our High-Performance Lens System.

The dust-resistant design helps keep your projector running smoothly.

7. TROUBLESHOOTING

Q: Can I wirelessly cast Hulu, Netflix, or Disney+ from my phone?

A: No, copyrighted content from Hulu, Netflix, Disney+, etc., cannot be mirrored or cast due to copyright restrictions. Please play these videos by inserting a TV stick or Roku stick into the projector.

Q: How to activate Auto Focus & Keystone Correction?

A: This projector automatically adjusts focus and image shape. You can also use the focus button on the remote control for best clarity and manually correct the image shape with four-point keystone correction if needed. (Optimal angle of projection: ≤20°)

Q: How to avoid audio lag when using Bluetooth?

A: To get rid of the lag, we suggest you mirror your device to the projector via a wired connection. Additionally, please move your Bluetooth device closer to the projector to minimize interference in the environment.

Q: Can I play Disney or Hulu?

A: Disney and Hulu are only available via the internet browser and would not load directly as pre-installed apps.

Q: Can I sideload Android Apps onto the projector?

A: Sorry, you cannot sideload Android apps onto the projector at this time. However, future models may support this functionality.

Q: How to play 4K videos?

A: Please make sure to connect 4K devices, such as a TV stick, through HDMI for playing videos. It's crucial to note that videos labeled as 4K will be displayed at a native resolution of 1080P, often termed "4K supported."

Q: What are the recommended projection size and distance for the best performance with the D1 Pro projector?

A: To optimize the performance of the projector, the recommended projection size is between 60 inches and 100 inches, with the corresponding distance ranging from 5.93 feet to 9.88 feet.
