5. Maintenance

5.1. Cleaning

To clean your Chromebook, use a soft, lint-free cloth. For the screen, use a screen-specific cleaner. Avoid harsh chemicals or abrasive materials.

5.2. Software Updates

Chrome OS automatically updates to ensure you have the latest features and security patches. The Auto Update Expiration (AUE) date for this device is June 2032, providing long-term software support.

5.3. Battery Care

To maximize battery lifespan, avoid fully discharging the battery frequently. Store the device in a cool, dry place when not in use for extended periods.

6. Troubleshooting

If you encounter issues with your Chromebook, try the following steps:

- **Restart the device:** A simple restart can resolve many temporary issues.
- **Check Wi-Fi connection:** Ensure you are connected to a stable network.
- **Update Chrome OS:** Verify that your device has the latest software updates.
- **Clear browser cache:** This can improve browser performance.
- **Perform a factory reset (Powerwash):** As a last resort, this will erase all local data and restore the device to its factory settings. Back up important data before proceeding.
