Eueiriup HKWH003-1500W

Eueiriup Plug-in Electric Wall Heater LED-1500W User Manual

Model: HKWH003-1500W

PRODUCT OVERVIEW

This Eueiriup Plug-in Electric Wall Heater, model LED-1500W, is a portable convection panel heater designed for efficient indoor heating. It features 1500W of heating power, two adjustable heat levels, and a fan-less operation for quiet and energy-efficient warmth. Its sleek aluminum body and freestanding design allow for versatile placement, either freestanding with wheels or wall-mounted. The heater includes an LED display for precise control of temperature and modes, a 24-hour timer, and safety features like child lock, anti-tip, and overheat protection.

SAFETY INFORMATION

Please read all safety instructions carefully before operating the heater. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Ensure the heater is placed on a stable, level surface or securely mounted to a wall.
- Do not cover the heater or block its air vents.
- Keep flammable materials at least 3 feet (0.9 meters) away from the heater.
- This heater is equipped with **anti-tip protection**, which automatically shuts off the unit if it is accidentally knocked over.
- It also features **overheat protection**, which turns off the heater if it reaches an unsafe temperature.
- The heater has an **IPX4 waterproof rating**, making it suitable for use in bathrooms, but avoid direct water spray.
- Constructed with **V0 flame retardant material** for enhanced safety.

- Activate the **Child Lock** feature to prevent accidental changes to settings.

FEATURES

- **Energy Efficient:** Designed to reduce heating costs by supplementing or replacing main heating systems. Rapid heating in less than 60 seconds.

- **Dual Mounting Options:** Can be wall-mounted or used freestanding with included wheels for portability. Concealed handles and mounting accessories are provided.

- **Advanced LED Control Panel:** Features a program LED display for precise temperature control (45-86°F) and mode selection.

- **Three Heating Modes:**
  - **Comfort Mode (Sun icon):** Standard heating.

- **Economic Mode (Moon icon):** Energy-saving mode. Note: The economic mode setting temperature cannot be higher than the heating mode.
- **Low Mode (Snowflake icon):** Minimal heating.

- **24-Hour Timer:** Allows for scheduled operation, enhancing energy saving and convenience.
- **Quiet Operation:** Fan-less, oil-less, and gas-less design ensures silent heating, preventing dry air and creating a healthier environment.
- **Convection Heating:** Heats the bottom of the panel quickly, transferring heat to the aluminum frame and circulating warm air throughout the room.
- **All Aluminum Construction:** Unlike some other heaters, this model is made entirely of aluminum, is non-liquid, and does not contain a fan for air blowing.

Image: A comparison chart highlighting that the Eueiriup heater is all aluminum, non-liquid, and non-air blower, unlike some other heaters.

SETUP

Option 1: Freestanding with Wheels

1. Carefully unpack the heater and all accessories.

2. Attach the universal wheels to the designated slots at the bottom of the heater. Ensure they are securely fastened.

3. Place the heater on a flat, stable surface, ensuring adequate clearance from walls and furniture.

4. The hidden handle allows for easy movement of the heater.

Option 2: Wall Mounting

1. Identify a suitable wall location, ensuring it is a sturdy surface and away from flammable materials.

2. Use the provided mounting accessories (screws, anchors) to secure the heater to the wall. Follow the detailed instructions in the separate mounting guide for precise measurements and installation steps.

3. Ensure the heater is level and securely attached before plugging it in.

OPERATING INSTRUCTIONS

The Eueiriup LED-1500W heater features an intuitive LED display and touch controls for easy operation.

Control Panel Overview

45-86°F TEMPERATURE REGULATION

Image: Detailed view of the LED display and touch control buttons, including Decrease, OK, Increase, Heat Indicator, Mute Switch, Timer Setting, Turn On/Off, Menu Button, Child Lock, and Temperature Conversion.

- **Power On/Off:** Press the **Turn On/Off** button to activate or deactivate the heater.

- **Temperature Adjustment:** Use the **Decrease Button** and **Increase Button** to set the desired temperature between 45°F and 86°F. The LED display will show the current and target temperature.

- **Mode Selection:** Press the **Menu Button** to cycle through the three heating modes:
    - **Comfort Mode (Sun icon):** Standard heating.
    - **Economic Mode (Moon icon):** Energy-saving mode. Note: The economic mode setting temperature cannot be higher than the heating mode.
    - **Low Mode (Snowflake icon):** Minimal heating.

- **24-Hour Timer:** Press the **Timer Setting** button to set a countdown for automatic shut-off. The display will show the remaining time.

- **Child Lock:** Press and hold the **Child Lock** button to activate or deactivate the child lock, preventing accidental changes to settings.

- **Mute Switch:** Use the **Mute Switch** to turn off beeping sounds for noiseless operation.
- **Temperature Conversion:** Press the **Temperature Conversion** button to switch between Fahrenheit and Celsius.
- **Automatic Operation:** The heater will continuously run until the set temperature is reached, then resume heating when the room temperature falls two degrees below the setting.

MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your heater.

- **Cleaning:** Before cleaning, always unplug the heater and allow it to cool completely. Wipe the exterior with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Storage:** If storing the heater for an extended period, ensure it is clean and dry. Store it in a cool, dry place, preferably in its original packaging.
- **Inspection:** Periodically check the power cord and plug for any signs of damage. If damaged, do not use the heater and contact customer support.

TROUBLESHOOTING

If you encounter issues with your heater, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Heater does not turn on.	Not plugged in; power outlet malfunction; power switch off; overheat protection activated.	Ensure the heater is securely plugged into a working outlet. Check the power switch. Allow the heater to cool down if overheat protection was triggered.
Heater turns off unexpectedly.	Overheat protection activated; tip-over protection activated; timer setting reached.	Check for obstructions around the heater. Ensure the heater is upright and on a stable surface. Verify timer settings.
Heater is not heating effectively.	Temperature setting too low; room size too large for heater capacity; drafts.	Increase the temperature setting. Ensure the heater is appropriate for the room size. Close windows and doors to minimize drafts.
LED display is not working.	Power issue; internal malfunction.	Check power connection. If the issue persists, contact customer support.

If the problem persists after attempting these solutions, please contact customer support.

SPECIFICATIONS

Feature	Detail
Brand	Eueiriup
Model Number	HKWH003-1500W
Power	1500W

Feature	Detail
Voltage	120 Volts (AC)
Product Dimensions	3"D x 25"W x 22.24"H
Item Weight	32.8 pounds
Color	White
Indoor/Outdoor Usage	Indoor
Mounting Type	Freestanding / Wall Heater
Special Features	Portable, Fast Heating, Wheels, LED Display, Touch Controlled, Energy Efficient, Child Lock, Anti-tip, Overheat Protection, IPX4 Waterproof, V0 Flame Retardant Material
