

DNYN Twin over Twin Bunk Bed

DNYN Twin Over Twin Bunk Bed with Slide Instruction Manual

Model: Twin over Twin Bunk Bed

1. INTRODUCTION

Thank you for choosing the DNYN Twin Over Twin Bunk Bed with Slide. This manual provides essential information for the safe assembly, operation, and maintenance of your new bunk bed. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

2. IMPORTANT SAFETY INFORMATION

WARNING: Failure to follow these warnings and instructions could result in serious injury or death.

- Always supervise children when using the ladder and slide.
- Do not exceed the upper bed weight capacity of 250 pounds.
- Follow assembly instructions carefully to prevent instability or collapse.
- The top bunk is not suitable for children under six years of age.
- Ensure all connections are tight before use. Periodically check and tighten as necessary.
- Use only mattresses that are 6 inches thick for the upper bed and 8-10 inches thick for the lower bed.
- Do not allow jumping on the bed.
- The slide and ladder are non-interchangeable and must be installed as shown in the assembly instructions.

3. PACKAGE CONTENTS

Before assembly, verify that all parts listed below are present and undamaged. If any parts are missing or

damaged, do not proceed with assembly. Contact DNYN customer support for assistance.

- Bunk bed frame components (metal tubing)
- Ladder
- Slide
- Guardrails
- Support slats
- Assembly instructions
- Necessary hardware components (screws, bolts, nuts, Allen wrench)

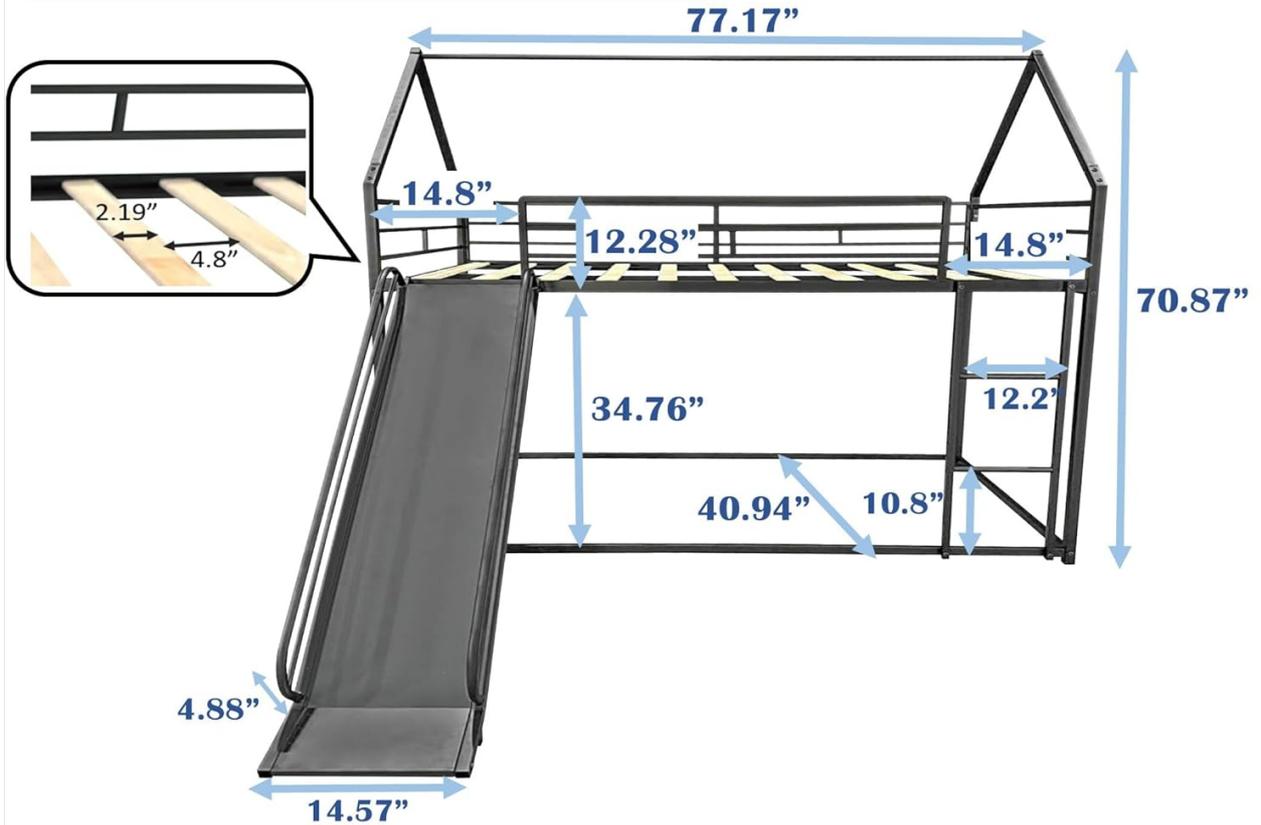

4. SETUP AND ASSEMBLY

Assembly of the DNYN Twin Over Twin Bunk Bed is designed to be straightforward. It is recommended that two adults perform the assembly. All necessary tools and hardware are included in the package.

1. Unpack all components and lay them out on a clean, soft surface (e.g., a carpet or blanket) to prevent scratching.
2. Identify each part using the provided assembly diagram.
3. Follow the step-by-step instructions in the included assembly manual. Pay close attention to the orientation of each piece.
4. Attach the main frame components, ensuring all bolts are finger-tight initially.
5. Install the support slats for both the upper and lower beds.
6. Attach the guardrails to the upper bunk.
7. Securely attach the ladder and slide. Note that the slide and ladder are fixed and cannot be interchanged to the opposite side.
8. Once all components are in place, fully tighten all bolts and screws using the provided Allen wrench. Do not overtighten.
9. Perform a final check to ensure all connections are secure and the bed is stable before use.

5. OPERATING INSTRUCTIONS

The DNYN Twin Over Twin Bunk Bed is designed for comfortable and safe use by children. Adhere to the following guidelines for optimal operation:

- **Using the Ladder:** Always use the integrated ladder to access the upper bunk. Ensure hands and feet are dry to prevent slipping.
- **Using the Slide:** The slide is intended for supervised descent from the upper bunk. Ensure the landing area is clear before sliding. Only one child should use the slide at a time.
- **Mattress Placement:** Place the recommended mattress sizes on both bunks. Ensure the upper mattress does not exceed the height of the guardrails for safety.
- **General Use:** Do not hang items from the bed frame or guardrails. Avoid rough play on or around the bed.

6. MAINTENANCE

Regular maintenance will help prolong the life and ensure the safety of your DNYN bunk bed.

- **Cleaning:** Wipe down the metal frame with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, which can damage the finish.
- **Hardware Check:** Periodically (e.g., every 3-6 months) inspect all bolts, screws, and connections. Tighten any that have become loose. Do not overtighten.
- **Structural Integrity:** Check the bed frame for any signs of bending, cracks, or damage. If any damage is found, discontinue use immediately and contact customer support.
- **Mattress Care:** Rotate and flip mattresses regularly according to mattress manufacturer guidelines to ensure even wear.

7. TROUBLESHOOTING

If you encounter any issues with your DNYN bunk bed, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Bed feels wobbly or unstable	Loose hardware connections.	Check and tighten all bolts and screws. Ensure all parts are correctly aligned.
Squeaking noises	Loose connections or friction between metal parts.	Tighten all hardware. Apply a small amount of silicone lubricant to connection points if necessary.
Slide or ladder seems loose	Mounting bolts are not fully tightened.	Ensure the bolts securing the slide and ladder to the frame are fully tightened.

If the problem persists or if you encounter an issue not listed here, please contact DNYN customer support.
