CENGCEN WF230

CENGCEN WF230 Replacement Filters User Manual

Introduction

This manual provides essential instructions for the proper use and maintenance of your CENGCEN WF230 Replacement Filters. These filters are designed to ensure your pet's water fountain provides clean, fresh water. Please read this manual carefully before use.

Compatibility

These replacement filters are specifically designed for CENGCEN Cordless Cat Water Fountain WF230 models (WF230A, WF230B, WF230C, WF230D).

Setup and Installation

Follow these steps to properly prepare and install your new replacement filter:

1. **Preparation:** Before installing a new filter, soak it in clean water for approximately 10 minutes. This helps activate the filter material and removes any loose carbon particles.

2. **Installation:** After soaking, rinse the filter thoroughly under running water. Then, place the filter into the designated slot within your CENGCEN WF230 cat water fountain. Ensure it is seated correctly.

Important: Do not use soap or any other detergents to clean the filters. Detergent residue can be harmful to your pet's health.

Operating Principle (Filtration)

The CENGCEN WF230 replacement filter utilizes a multi-layer filtration system to provide clean and fresh water for your pets. This advanced design ensures superior water quality.

5-Layer Filtration System:

- **Needle-Punched Cotton:** Filters out larger particles like hair and dust.
- **HD Pre-Filter Sponge:** Provides additional mechanical filtration.
- **Ion Exchange Resin:** Helps soften water and remove heavy metal ions.
- **Activated Carbon:** Made from refined coconut shell, it absorbs impurities, odors, and chlorine.
- **Antibacterial Mineral:** Further purifies water and inhibits bacterial growth.

Maintenance

Regular filter replacement is crucial for maintaining water quality and the health of your pets.

Filter Replacement Frequency:

- Replace the filter every **2 to 4 weeks** under normal usage conditions.
- For households with multiple pets or if the water fountain is used frequently, consider replacing the filter more often, typically every **4 to 5 weeks**.
- Always monitor water quality and adjust replacement frequency as needed to ensure optimal freshness.

Troubleshooting

This section addresses common issues related to the replacement filters. If you encounter problems not listed here, please contact customer support.

Common Issues:

- **Reduced Water Flow:** This often indicates a clogged filter. Replace the filter as per the maintenance schedule. Ensure the filter is properly soaked and rinsed before installation.
- **Unpleasant Odor/Taste:** If the water develops an odor or unusual taste, the filter may be saturated with impurities. Replace the filter immediately.
- **Visible Particles in Water:** Ensure the filter is correctly seated in the fountain. If particles persist, replace the filter.

Specifications

Feature	Detail
Model Number	WF230-F6-202401
Package Quantity	6 Pack
Material	Acrylonitrile Butadiene Styrene (ABS), Resin, Coconut Shell Activated Carbon, Ion Exchange Resin, Antibacterial Mineral
