2. IMPORTANT SAFETY GUIDELINES

To ensure the safe use of your wardrobe and prevent potential hazards, please adhere to the following safety instructions:

- **Anti-Tip Device:** Always secure the anti-tip device to the wall as instructed during assembly. This crucial step prevents the wardrobe from tipping over, especially important in households with children or pets.
- **Secure Fastening:** Ensure all screws, bolts, and fasteners are tightly secured during assembly and periodically check them for tightness. Loose connections can compromise the stability of the unit.
- **Weight Distribution:** Distribute weight evenly within the wardrobe. Avoid placing excessively heavy items on upper shelves or concentrating heavy items on one side, which could affect stability.
- **Proper Placement:** Place the wardrobe on a flat, level surface to prevent wobbling and ensure stability.
