# HAPPYGRILL 7 FT Pre-Lit Flocked Christmas Tree Instruction Manual

Model: CL-30V320-2

## 1. INTRODUCTION

Thank you for choosing the HAPPYGRILL 7 FT Pre-Lit Flocked Christmas Tree. This artificial Christmas tree is designed to bring festive cheer to your home, office, or shop with its realistic appearance and warm white LED lights. Please read this manual carefully before assembly and use to ensure proper setup and enjoyment.

## 2. SAFETY INFORMATION

---

- Ensure all electrical connections are secure before plugging in the tree.
- Do not overload electrical outlets.
- Keep the tree away from open flames or heat sources.
- This tree is for indoor use only.
- The materials (PVC and PE) are fireproof, non-allergic, and smell-free.
- The power adapter is UL-certified for safety.

## 3. PACKAGE CONTENTS

---

Please verify that all components are present before beginning assembly:

- 1 x Christmas Tree (in 3 sections)
- 1 x Folding Metal Stand

- 1 x Pair of Gloves
- 1 x User Guide (this document)

Image: An illustration detailing the included components: the 7-foot tree, its metal stand, a UL-certified adapter, and a pair of gloves, along with key dimensions.

## 4. SETUP INSTRUCTIONS

Assembly is designed to be straightforward with the hinged branch structure. It is recommended to wear the included gloves during assembly to protect your hands and manage the flocked branches.

1. **Assemble the Stand:** Unfold the metal stand and ensure it is stable. Tighten the eye bolt to secure the tree trunk.
2. **Insert Bottom Section:** Carefully insert the bottom section of the tree into the stand.
3. **Fluff Bottom Branches:** The branches are hinged and will fall into place. Gently pull and spread out each branch tip, working from the inside out and bottom to top, to create a full appearance.
4. **Insert Middle Section:** Place the middle section of the tree onto the bottom section. Ensure the electrical connectors

for the lights are properly aligned and connected.

5. **Fluff Middle Branches:** Repeat the fluffing process for the middle section's branches.
6. **Insert Top Section:** Place the top section onto the middle section, connecting the electrical wires.
7. **Fluff Top Branches:** Fluff the branches of the top section, paying attention to the tree's peak.
8. **Connect Power:** Once all sections are assembled and fluffed, connect the UL-certified adapter to the tree's power cord and then plug it into a standard electrical outlet.

Image: Visual guide illustrating the easy assembly of the tree, from setting up the folding metal stand to attaching the hinged tree sections.

**Important Tip:** Artificial trees may appear compressed when first removed from the package. Refer to the product images and manually adjust the branches to achieve a natural, full shape. This process is known as "fluffing" and is crucial for the tree's aesthetic.

## 5. OPERATING INSTRUCTIONS

This HAPPYGRILL Christmas tree comes pre-lit with 320 warm white LED lights.

- **Turning On/Off:** Once the tree is fully assembled and plugged into a power outlet, the lights should illuminate automatically. To turn off the lights, simply unplug the adapter from the wall outlet.
- **Light Functionality:** The warm white LED lights provide a consistent, cozy glow. There are no additional modes or settings for the lights on this model.

Image: A detailed view of the tree's branches and embedded warm white LED lights, emphasizing the soft, inviting glow they produce.

## 6. MAINTENANCE

- **Cleaning:** To clean the tree, gently dust the branches with a soft, dry cloth. Do not use liquid cleaners or abrasive materials, as this may damage the flocking or electrical components.
- **Storage:** When the holiday season is over, unplug the tree and carefully disassemble it in reverse order of setup. Compress the branches as much as possible without damaging them. Store the tree sections and stand in their original packaging or a suitable storage bag in a cool, dry place, away from direct sunlight.
- **Material Durability:** The tree is constructed from user-friendly PVC and PE materials, which are designed to be

fireproof, non-allergic, smell-free, and anti-fading, ensuring its longevity and vibrant appearance season after season.

**USER-FRIENDLY PVC  
& PE MATERIALS**

Fireproof    Non-Allergic    Smell-Free    Anti-Fading    743 Branch Tips

**LONG PINE  
NEEDLES**

**SWAYING  
WILLOW  
LEAVES**

Image: A detailed view of the tree's branch tips, featuring both long pine needles and willow leaves, and highlighting the durable, safe, and non-fading PVC and PE materials used in its construction.

## 7. TROUBLESHOOTING

**Lights are not working:**

- Ensure the power adapter is securely plugged into both the tree and a working wall outlet.
- Check all internal electrical connections between the tree sections.
- Verify that the wall outlet is functional by plugging in another device.

**Tree does not look full:**

- The tree requires thorough "fluffing" after removal from packaging. Spend time gently spreading out each branch tip to achieve the desired fullness. Refer to the setup instructions and product images for guidance.

Flocking is shedding:

- Some initial shedding of flocking is normal during setup. This will decrease once the tree is fully assembled and fluffed.

8. SPECIFICATIONS

Brand	HAPPYGRILL
Model Number	CL-30V320-2
Tree Height	7 ft / 219 cm
Tree Width	4.1 ft / 125 cm
Diameter of Stand	20 inches / 50 cm
Number of Branch Tips	743
Number of LED Lights	320
