General Wood Furniture Care:

- **Cleaning:** Dust regularly with a soft, dry cloth. For deeper cleaning, use a damp cloth with a mild wood cleaner, then wipe dry immediately. Avoid abrasive cleaners or harsh chemicals.
- **Protection:** Protect the wood surface from direct sunlight, extreme temperatures, and humidity changes, which can cause fading, cracking, or warping.
- **Spills:** Wipe up spills immediately to prevent staining or damage to the finish.
- **Moving:** When moving the bed, always lift it rather than dragging it to prevent stress on joints and potential damage to the frame or floor.

Troubleshooting

If you encounter any issues with your Pemberly Row Platform Storage Bed, please consult the following common troubleshooting tips:

- **Squeaking Noises:** Check all bolts and screws to ensure they are tightened securely. Over time, fasteners can loosen, causing movement and noise.
- **Drawers Sticking:** Ensure drawers are not overloaded. Check drawer slides for any obstructions or debris. Lubricate slides with a silicone-based lubricant if necessary.

- **Wobbly Frame:** Verify that all assembly hardware is fully tightened. Ensure the bed is placed on a level surface.
- **Damaged Parts:** If any part is damaged or missing, do not attempt to force assembly. Contact customer support for replacement parts.
