

TYMO HC503

TYMO CURLPRO Automatic Rotating Curling Iron User Manual

Model: HC503

Brand: TYMO

1. SAFETY INFORMATION

Please read all instructions carefully before using the TYMO CURLPRO Automatic Rotating Curling Iron. Keep this manual for future reference.

- **Keep out of reach of children.**
- Do not use this appliance near bathtubs, showers, basins, or other vessels containing water.
- Always unplug the appliance immediately after use and before cleaning.
- Do not place or store the appliance where it can fall or be pulled into a tub or sink.
- Keep away from flammable materials.
- Do not touch hot surfaces. Use handles or knobs.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent, or similarly qualified persons in order to avoid a hazard.

2. PRODUCT OVERVIEW

The TYMO CURLPRO is an innovative automatic rotating curling iron designed for effortless and long-lasting curls. Its advanced features ensure safety and professional results.

Key Features

- **One-Click Auto-Rotation:** Effortless curling with consistent results.
- **Anti-Scald Design:** 360° cool-to-the-touch design for safe handling.

- **Intelligent Anti-Tangle Mechanism:** Detects and reverses tangles to prevent hair snags.
- **T-GLOSS Tourmaline Ceramic Coating:** Provides smooth, shiny, and long-lasting curls.
- **500 Million Negative Ions:** Reduces moisture loss, boosts shine, and minimizes frizz.
- **Dual Voltage:** Ideal for travel.
- **Lightweight and Compact:** Easy to handle and store.
- **Styling Timer:** Ensures consistent curl results and prevents overheating damage.
- **10-Minute Auto-Off:** For added safety and energy saving.

Product Components

Familiarize yourself with the main parts of your TYMO CURLPRO:

- Curling Chamber with Rotating Barrel
- Power Button
- Temperature Setting Indicator Lights
- Rotation Direction Switch
- Rotate Button
- Swivel Cord

3. SETUP

Powering On and Temperature Selection

1. Plug the curling iron into a suitable power outlet. The device supports dual voltage for international travel.
2. Press and hold the **Power Button** for 2 seconds to turn on the appliance. The indicator lights will illuminate.
3. Briefly press the **Power Button** to cycle through the temperature settings. Select the appropriate temperature for your hair type:

Temperature	Hair Type
410°F / 210°C	Thick and Coarse Hair
365°F / 185°C	Slightly Fine to Normal Hair
320°F / 160°C	Bleached, Damaged, or Fine Hair

HAIR NEVER GETS STUCK

Intelligently detects tangles to prevent hair snags

4. OPERATING INSTRUCTIONS

Basic Curling Technique

Achieve perfect curls with these simple steps:

1. **Insert:** Comb a 1-inch section of hair. Hold the curler with the slot facing your head, then insert the hair section into the 0.3-inch slot.
2. **Rotate:** Press the **Rotate Button** to start the automatic rotation. The curler will draw the hair into the barrel. Hold the ends of the hair until it is close to the barrel.
3. **Hold:** Once the rotation stops, wait for 8 seconds until you hear a beep. This ensures the curl is set.
4. **Release:** Gently pull the curling iron away from your head to release the hair. Allow the curl to cool completely before combing or styling.

CURL, EVERY TIME

No gap between hair and barrel.

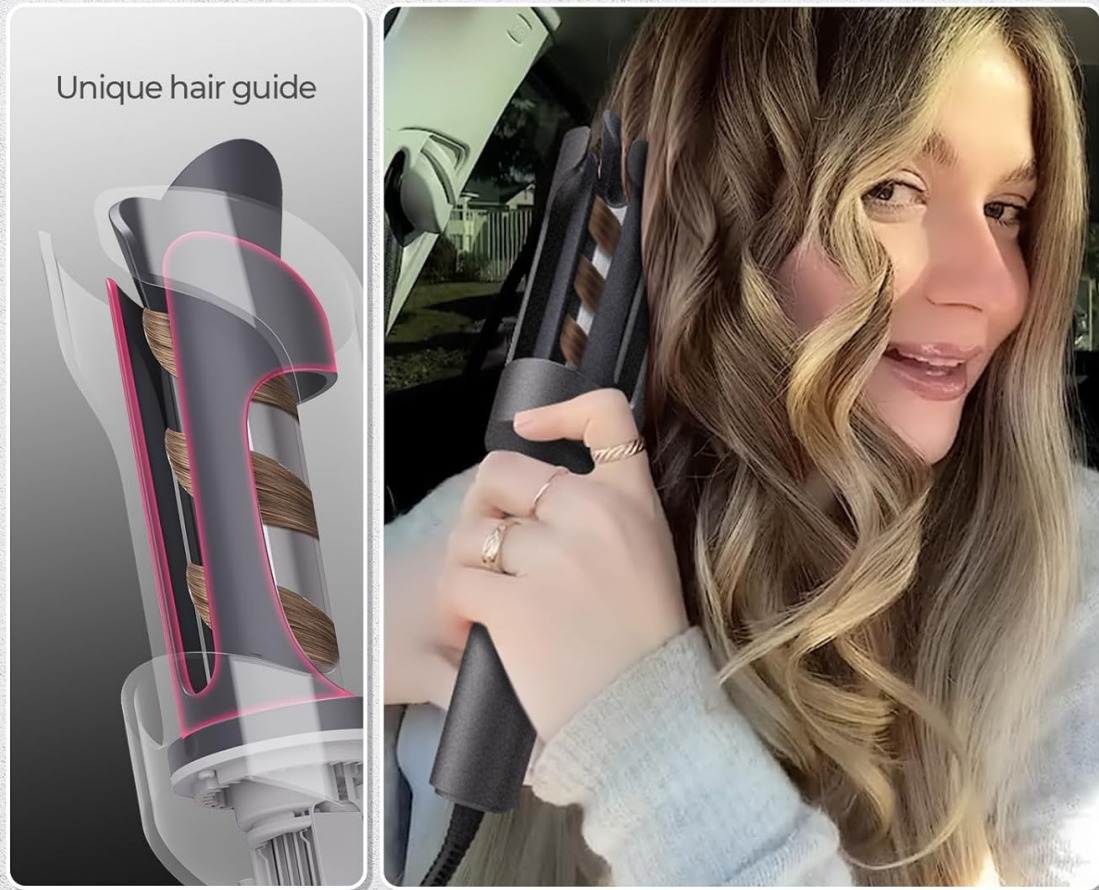

Figure 4.1: Step-by-step guide for using the automatic curling iron.

Anti-Tangle Mechanism

The TYMO CURLPRO features an intelligent anti-tangle mechanism. If hair gets tangled during the curling process, the device will automatically detect it and promptly reverse the rotation to release the hair, ensuring a smooth and safe styling experience.

5. MAINTENANCE AND CARE

Cleaning

- Ensure the appliance is unplugged and completely cool before cleaning.
- Wipe the exterior surfaces with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- Gently remove any hair strands or debris from the curling chamber using a small brush or soft cloth.
- Do not immerse the appliance in water or any other liquid.

Storage

- Store the appliance in a cool, dry place, away from direct sunlight and moisture.
- Do not wrap the power cord around the appliance, as this may damage the cord.

6. TROUBLESHOOTING

If you encounter any issues with your TYMO CURLPRO, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Appliance does not turn on.	Not properly plugged in; Power outlet issue.	Ensure the power cord is securely plugged into a working outlet. Try a different outlet.
Hair gets tangled in the barrel.	Hair section too large; Hair not properly inserted.	Use smaller 1-inch sections of hair. Ensure hair is inserted straight into the slot. The anti-tangle mechanism should automatically reverse.
Curls are not holding.	Incorrect temperature setting; Not holding long enough; Hair not cooled.	Increase temperature setting if hair is thick. Ensure you hold for the full 8 seconds until the beep. Allow curls to cool completely before touching.
Device automatically shuts off.	10-minute auto-off feature activated.	This is a safety feature. Simply turn the appliance back on to continue styling.

7. SPECIFICATIONS

Attribute	Detail
Product Dimensions	10.71 x 2.36 x 2.36 inches
Item Weight	14.67 ounces
Model Number	HC503

Attribute	Detail
Manufacturer	TYMO
Material	Ceramic
