7. TROUBLESHOOTING

7.1. Connectivity Issues

- Ensure Bluetooth is enabled on your phone and the watch.
- Make sure the watch is within the Bluetooth range (8-10 meters) of your phone.
- Restart both your phone and the smart watch.
- If the issue persists, try unpairing and re-pairing the device through the Da Fit app.

7.2. Inaccurate Health Readings

- Ensure the watch is worn snugly on your wrist, but not too tight.
- Clean the sensors on the back of the watch regularly.
- Note that smart watch health data is for reference only and should not be used for medical diagnosis or treatment. Consult a medical professional for accurate health information.

7.3. General Issues

If you encounter any other issues, please refer to the detailed user manual included in the box or contact Fitoncloud customer service through Amazon for assistance. They are available to help year-round.
