Setup

Follow these steps to prepare your XPOWER A-2 Electric Air Duster for use:

1. **Unpack:** Carefully remove the air duster unit and all accessories from the packaging.
2. **Select Nozzle:** Choose the appropriate nozzle attachment for your specific task. Refer to the 'Package Contents' section for a list of available nozzles.
3. **Attach Nozzle:** Securely attach the selected nozzle to the air outlet on the front of the main unit. Ensure it is firmly in place to prevent it from detaching during operation.
4. **Connect Power:** Plug the power cord into a standard electrical outlet.

Operating Instructions

The XPOWER A-2 features two speed levels to accommodate various cleaning and inflation needs.

1. **Power On:** Press the power button located on the handle to turn on the device. It will typically start at the lower speed setting.
2. **Adjust Speed:** Press the power button again to switch to the higher speed setting for increased airflow and power.
3. **Dusting and Cleaning:**
    - For delicate electronics like keyboards, computer interiors, or camera lenses, use the lower speed setting with a brush or narrow nozzle.
    - For larger areas or stubborn debris, such as car interiors, air conditioner filters, or workshop surfaces, use the higher speed setting with a wider nozzle.
    - Maintain a safe distance from the surface to avoid potential damage.
4. **Drying Surfaces:** Utilize the powerful airflow to quickly dry wet surfaces after cleaning or washing.
5. **Inflating Items:** Attach the appropriate air pump adapter to inflate air mattresses, small inflatable toys, or other items requiring air.
6. **Power Off:** Press the power button until the device completely shuts off. Unplug the unit from the power outlet after use.

Maintenance

Proper maintenance ensures the longevity and optimal performance of your XPOWER A-2 Electric Air Duster.

1. **Cleaning the Unit:** Ensure the device is unplugged. Wipe the exterior of the unit with a soft, dry, or slightly damp cloth. Do not use harsh chemicals, abrasive cleaners, or immerse the unit in water.
2. **Cleaning Nozzles:** Detach the nozzles from the unit. They can be cleaned with water and mild soap if necessary. Ensure all nozzles are completely dry before reattaching them or storing.
3. **Storage:** Store the air duster in a cool, dry place, away from direct sunlight and extreme temperatures. Coil the power cord neatly to prevent damage.

Troubleshooting

If you encounter any issues with your XPOWER A-2, refer to the table below for common problems and solutions.

Problem	Possible Cause	Solution
Device does not turn on	Not plugged in; Power outlet issue; Damaged power cord	Check if the power cord is securely plugged into a working outlet; Try a different outlet; Inspect the power cord for any visible damage. If damaged, do not use.
Weak airflow	Nozzle blockage; Low speed setting selected	Remove and clean the nozzle to clear any obstructions; Switch to the higher speed setting.
Unusual noise or vibration	Internal obstruction; Loose internal component	Discontinue use immediately. Unplug the device and contact customer support for assistance. Do not attempt to open or repair the unit yourself.
