The diagram illustrates the adjustable bed rail system. On the left, a large vertical rail is shown with a horizontal tube at the top. A double-headed arrow indicates the height adjustment range from 69 cm to 87 cm. To the right, a yellow icon with two arrows pointing up and down is positioned above the title "Sponda letto regolabile in altezza". Below the title, three bullet points describe the features: 18 levels of height adjustment, compatibility with 5-30 cm mattress thickness, and the adjustment method. Three circular insets show the rail being attached to a bed frame. At the bottom, a note explains the fastening method, accompanied by two images: one showing a strap (E) and another showing a screw (F) being used to secure the rail to the bed frame.
