## WUXIYANG WX-DYLED

# WUXIYANG 360 LED String Lights (Model: WX-DYLED) Instruction Manual

Your guide to setting up and enjoying your multicolor LED globe string lights.

## 1. PRODUCT OVERVIEW

---

The WUXIYANG 360 LED String Lights are designed to provide vibrant and versatile illumination for various indoor and outdoor settings. Featuring 360 LED globe bulbs across a 132ft length with an additional 10ft lead wire, these lights offer multiple lighting modes, a built-in timer, and a memory function for convenience.

The frosted globe design creates a soft, eye-friendly glow, making them suitable for bedrooms, classrooms, patios, gardens, and festive occasions like weddings and Christmas. Constructed with safety in mind, they are ETL certified, operate on a 29V low voltage, and are IP44 waterproof for outdoor use (ensure the plug is protected).

## 2. WHAT'S IN THE BOX

---

Upon opening your package, please verify that all components are present and undamaged:

- 1 x LED Globe String Light (132ft with 360 LED bulbs)
- 1 x Power Plug
- 1 x Instruction Manual

## 3. SETUP INSTRUCTIONS

---

1. **Unpack and Inspect:** Carefully remove the string lights and all accessories from the packaging. Uncoil the string lights gently to prevent tangling. Inspect the entire length of the string, bulbs, and plug for any signs of damage. Do not use if any damage is observed.
2. **Choose Placement:** Determine your desired location for the lights. These lights are suitable for both indoor and outdoor use. For outdoor installations, ensure the power plug is protected from direct exposure to water

and harsh weather conditions.

- 3. Install Lights:** Secure the string lights in place using appropriate fasteners (not included) such as clips, ties, or hooks. Ensure the lights are not excessively strained or pulled.
- 4. Connect to Power:** Plug the power adapter into a standard electrical outlet. The lights are designed for 29V low voltage operation.

## 4. OPERATING INSTRUCTIONS

The WUXIYANG 360 LED String Lights feature a multi-function button located on the power plug for easy control.

### 4.1 Power On/Off

Plug the lights into a power outlet to turn them on. Unplug them to turn them off, or use the timer function.

### 4.2 Changing Lighting Modes

Press the button on the power plug repeatedly to cycle through the 8 available lighting modes:

1. Combination
2. In Waves
3. Sequential
4. Slo-Glo
5. Chasing/Flash
6. Slow Fade
7. Twinkle/Flash
8. Steady On

### 4.3 Timer Function

The lights include an automatic timer function. Once activated, the lights will stay on for 6 hours and then automatically turn off for 18 hours, repeating this cycle daily. To activate the timer, simply press the button on the plug until the desired mode is set, and the timer will begin its cycle from that moment.

#### 4.4 Memory Function

The built-in memory chip automatically saves your last selected lighting mode. When you turn the lights back on, they will resume the mode that was active before they were turned off.

### 5. MAINTENANCE

---

- **Cleaning:** Ensure the lights are unplugged before cleaning. Gently wipe the bulbs and wires with a soft, dry cloth. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** When not in use, carefully coil the string lights and store them in a cool, dry place away from direct sunlight and extreme temperatures. Keep them in their original packaging or a protective container to prevent tangling and damage.
- **Regular Inspection:** Periodically check the lights for any signs of wear, frayed wires, or damaged bulbs. Replace or repair damaged lights promptly to ensure safety and optimal performance.

## 6. TROUBLESHOOTING

---

- **Lights Not Turning On:**

- Ensure the power plug is securely inserted into a working electrical outlet.
- Check if the outlet itself is receiving power (test with another appliance).
- Verify that the power adapter is correctly connected to the string lights.

- **Lights Flickering or Dim:**

- This could indicate an unstable power supply. Try plugging into a different outlet.
- Ensure all connections are secure.

- **Some Bulbs Not Lighting:**

- LED string lights are generally designed so that if one bulb fails, the others remain lit. If a section is out, inspect the wiring for any breaks or loose connections.

- **Outdoor Use Issues:**

- While the lights are IP44 waterproof, the power plug is not. Ensure the plug is protected from rain, snow, and moisture.
- Extreme temperatures can affect performance. Ensure the lights are used within their specified operating temperature range.

## 7. SPECIFICATIONS

---

Feature	Specification
Brand	WUXYIYANG
Model Number	WX-DYLED
Color	Multicolor
Light Source Type	LED
Number of Light Sources	360
Item Length	132 Feet (40 meters)
Lead Wire Length	10 Feet (3 meters)
Power Source	Corded Electric
Voltage	29V Low Voltage
Indoor/Outdoor Usage	Outdoor (IP44 Waterproof, protect plug)
Special Features	Energy Efficient, Safer for Children & Pets, Twinkling, Timer, Memory, Water Resistant, Weather Resistant
Material	Glass (globe covers)
Item Weight	2.76 pounds

## 8. SAFETY INFORMATION

- This product is ETL certified, ensuring it meets recognized safety standards.
- Operates on a 29V low voltage, making it safer for use around children and pets.
- The globe covers are shatterproof, enhancing durability and safety.
- The string lights are IP44 waterproof for outdoor use. However, the power plug must be protected from water exposure.
- Do not connect multiple sets of lights unless explicitly stated as connectable by the manufacturer.
- Avoid placing lights near heat sources or flammable materials.
- Always unplug the lights before performing any maintenance or when not in use for extended periods.
