

UBeesize UB-XBD10BK

UBeesize 10" Key Light Instruction Manual

Model: UB-XBD10BK

PRODUCT OVERVIEW

The UBeesize 10" Key Light is designed to provide soft, bright, and even illumination for various applications such as video conferencing, streaming, gaming, podcasting, and video recording. It features advanced side-lighting technology to enhance facial contours and reduce glare, along with a stable and flexible adjustable arm for optimal positioning.

Key features include:

- **Side-Lighting Technology:** Produces soft, bright illumination, enhancing facial features and reducing glare.
- **Stable and Flexible Arm:** Multi-position rotation with a control knob for stability and optimal lighting angles.
- **Convenient Timer Functions:** Includes 2-hour, 4-hour, and 8-hour timer options.
- **Stable and Space-Saving Design:** Metal C-clamp with adjustable stand and non-slip silicone base.
- **Versatile Application:** Suitable for home office, gaming setups, live streams, and commercial photography.

WHAT'S IN THE BOX

Please check the package contents to ensure all items are present:

- 10" Light
- Articulating Arm
- Desk Clamp
- Power Adapter
- User Manual

SETUP INSTRUCTIONS

Follow these steps to set up your UBeesize Key Light:

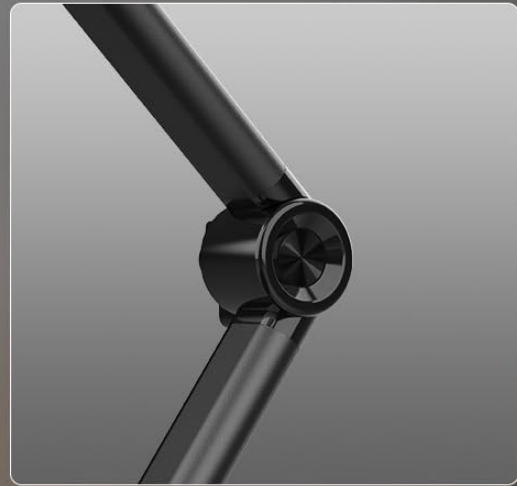

1. 1. Attach the Desk Clamp:

Unscrew the locking bolt counter-clockwise on the metal C-clamp. Position the clamp on your desk (maximum thickness 3 inches) and tighten the screws to secure it firmly. Ensure the non-slip silicone base is in contact with the desk surface to prevent scratches.

Arm Stand Performance

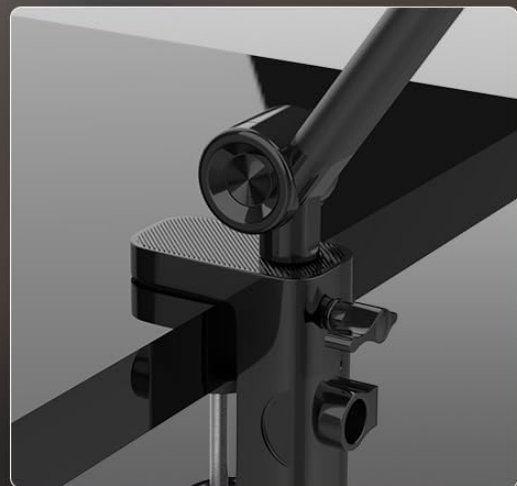

Carbon Alloy Steel

Triangular Stability

Strong Load Capacity

360° Adjustable

Image: The metal C-clamp securely attached to a desk, providing a stable base for the light.

2. 2. Insert the Articulating Arm:

Insert the tripod arm into the desk clamp. Tighten the bolt clockwise to secure the arm in place. The arm's rod length is 13.5 inches, allowing for flexible height adjustments.

Illumination Comparison

Light Emitting Area: 5 Times Larger than Ring Light

10-Inch Full-screen Light

10-Inch Ring Light

3. 3. Attach the Light Head:

Align the lamp's bottom hole to the tripod arm's thread. Tighten the locking screw clockwise to firmly attach the 10" light head to the articulating arm.

Button Control

3 Colors, 10 Brightness & Timer

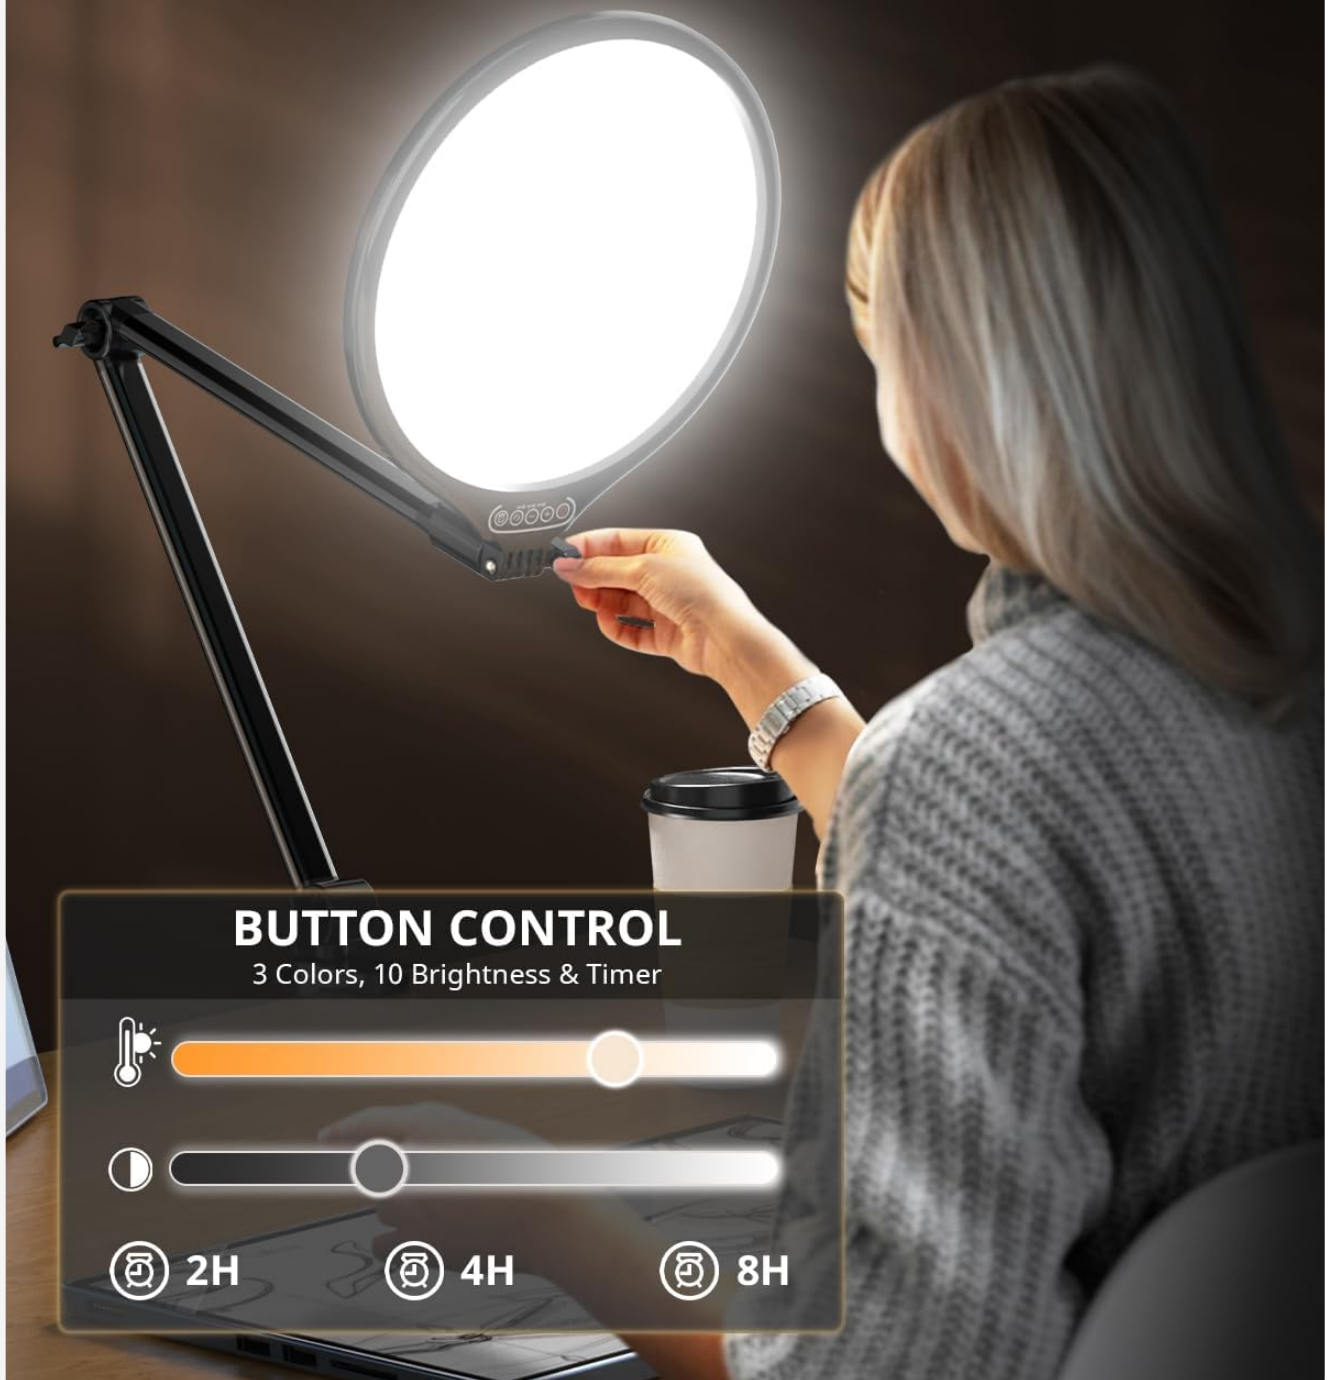

Image: The circular light head being screwed onto the top of the articulating arm.

4. 4. Adjust Light Angle and Position:

Adjust the lamp to your desired angle using the multi-axis adjustment points on the arm. Tighten the knob clockwise to secure the light head's position. The arm allows for 360° full rotation and various bends for optimal lighting effects.

360° Full Rotation

Multi-Axis Adjustment for Any Angle

Image: A diagram illustrating the various articulation points and 360-degree rotation of the light arm.

5. 5. Connect Power:

Plug the power adapter into the light and then into a standard electrical outlet. The light is now ready for operation.

Note: To detach the tripod arm, first loosen the locking bolt by turning counter-clockwise.

OPERATING INSTRUCTIONS

The UBESIZE Key Light features intuitive button controls for easy adjustment of light settings.

Soft & Even Illumination

No Shadows – Easy on the Eyes
No Glare

Skin Tone Brightening: +100%

Visual Facelift: +95%

Wrinkles & Flaws Reduction: -95%

MAINTENANCE

To ensure the longevity and optimal performance of your UBeesize Key Light, follow these simple maintenance guidelines:

- **Cleaning:** Gently wipe the light panel and arm with a soft, dry, or slightly damp cloth. Avoid using abrasive cleaners or solvents, as they may damage the surface.
- **Storage:** When not in use, especially for extended periods, store the light in a cool, dry place away from direct sunlight and extreme temperatures. The light can be folded neatly for space-saving convenience.
- **Cable Care:** Do not bend or crimp the power cable excessively. Ensure it is not placed under heavy objects or in areas where it could be tripped over.
- **Joints and Knobs:** Periodically check the tightness of all knobs and joints on the articulating arm to maintain stability. Do not overtighten.

TROUBLESHOOTING

If you encounter any issues with your UBeesize Key Light, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Light does not turn on or blinks when plugged in.	<ul style="list-style-type: none">◦ Loose power connection.◦ Faulty power adapter or cable.◦ Insufficient power supply.◦ Internal circuit issue.	<ul style="list-style-type: none">◦ Ensure the power adapter is securely plugged into both the light and the wall outlet.◦ Try plugging the light into a different power outlet to rule out outlet issues.◦ Verify that the power adapter is providing sufficient power (check specifications).◦ If the power adapter's indicator light blinks or the light does not respond to button presses after ensuring secure connections, the unit may be faulty.◦ <i>Refer to the customer video below for an example of this issue.</i>
Light is not bright enough or flickers.	<ul style="list-style-type: none">◦ Brightness setting is too low.◦ Power supply issue.	<ul style="list-style-type: none">◦ Increase brightness using the '+' button.◦ Ensure the power adapter is correctly connected and providing stable power.
Arm is not stable or sags.	<ul style="list-style-type: none">◦ Knobs are not tightened sufficiently.◦ Over-extension of the arm.	<ul style="list-style-type: none">◦ Tighten all adjustment knobs on the articulating arm and desk clamp.◦ Avoid over-extending the arm to its maximum reach, especially with the light head attached.

Troubleshooting Video Example:

Video: A customer demonstrates an issue where the light's power indicator blinks and the light does not turn on, suggesting a potential power or internal fault. (Duration: 1:06)

SPECIFICATIONS

Feature	Detail
Product Dimensions	2 x 12 x 39 inches
Item Weight	2.55 pounds
Model Number	UB-XBD10BK
Brand	UBeesize
Connectivity Technology	Bluetooth (for potential future features or accessories, not directly for light control as per current understanding)

Feature	Detail
Flash Modes Description	Constant illumination
Hardware Interface	Bluetooth 4.0
Batteries	1 Lithium Metal battery required (included)
Date First Available	October 9, 2024
