## SETUP AND ASSEMBLY

Assembly is designed to be straightforward. It is recommended to have a clear, open space for assembly. The bed's slats feature a unique snap-fit design for quick installation.

2. **Assemble Headboard:** Follow the included installation manual to assemble the headboard section first.
3. **Connect Frame Pieces:** Attach the side rails and footboard to the headboard. *Important: Do not fully tighten bolts until all frame pieces are connected to allow for minor alignment adjustments.*
4. **Install Slats:** Insert the metal slats into the designated slots. The snap-fit design allows for easy, tool-free installation of the slats.
5. **Assemble Storage Drawer:** Assemble the storage drawer according to the instructions. The drawer is designed to slide freely under the bed.
