SOULION R100

SOULION R100 Bluetooth Computer Speakers User Manual

Model: R100

1. Introduction

Thank you for choosing the SOULION R100 Bluetooth Computer Speakers. This manual provides essential information for setting up, operating, and maintaining your new speaker system. The SOULION R100 is a versatile soundbar designed for desktop, laptop, and monitor use, featuring dynamic LED lighting, USB plug & play functionality, and Bluetooth connectivity.

2. Package Contents

Please verify that all items are present in your package:

- SOULION R100 Speaker Unit
- USB-C to USB Adapter
- User Manual (this document)

3. Setup Instructions

3.1 Physical Connection

The SOULION R100 speaker is powered and receives audio via a single USB cable. It supports both USB-A and USB-C connections using the included adapter.

1. Connect the USB cable from the speaker to an available USB port on your computer (desktop, laptop, or monitor with a USB port).
2. If your device only has USB-C ports (e.g., newer MacBooks), use the provided USB-C to USB adapter to connect the speaker.

Image 3.2: USB Mode connection to a laptop using the USB-C to USB adapter.

3.2 Audio Output Configuration (Windows)

After connecting the speaker, you may need to select it as the default audio output device in your operating system settings.

1. Plug the USB connector into a USB port on your computer.
2. Access your sound settings:
    - Click the speaker icon in your system tray and choose "R100" as the audio output.
    - Alternatively, navigate to Control Panel / System Preferences > Sound Settings, then select "R100" as the audio output and save changes.

3.3 Audio Output Configuration (Mac)

1. Plug the USB connector into a USB port on your computer. (Note: If your device is a recent MacBook, use the included USB-C to USB adapter.)
2. Access your sound settings: Navigate to System Preferences > Sound Settings, then select "R100" as the audio output and save changes.

4. Operating Instructions

The SOULION R100 features four independent buttons for easy control:

Image 4.1: SOULION R100 button layout and functions.

4.1 Power On/Off

- **Long press the 'M' button:** To power the speaker on or off.

4.2 Mode Switching (USB / Bluetooth)

- **Short click the 'M' button:** To switch between USB (PC) mode and Bluetooth mode.

4.3 Bluetooth Pairing

To connect your smartphone or tablet via Bluetooth:

1. Ensure the speaker is powered on and the USB connector is plugged in (Bluetooth mode requires USB power).
2. Short click the 'M' button to switch to Bluetooth mode.
3. On your smartphone or tablet, search for Bluetooth devices and select "R100" to connect.
4. To clear the Bluetooth memory (e.g., to pair with a new device),**long press the '☀' button for 3 seconds**.

4.4 Volume Control

- **Short click '+' button:** Volume up.
- **Long press '+' button:** Volume up quickly.
- **Short click '-' button:** Volume down.
- **Long press '-' button:** Volume down quickly.

4.5 LED Lighting Effects

The speaker features dynamic LED rainbow lights at the bottom, offering four distinct lighting modes:

- Breathing Mode
- Gradient Mode
- Rhythm Mode
- Monochrome Fixed

- **Short click the '☀' button:** To cycle through the different LED lighting effects.
- **Click the '☀' button:** To turn the LED lights on or off.

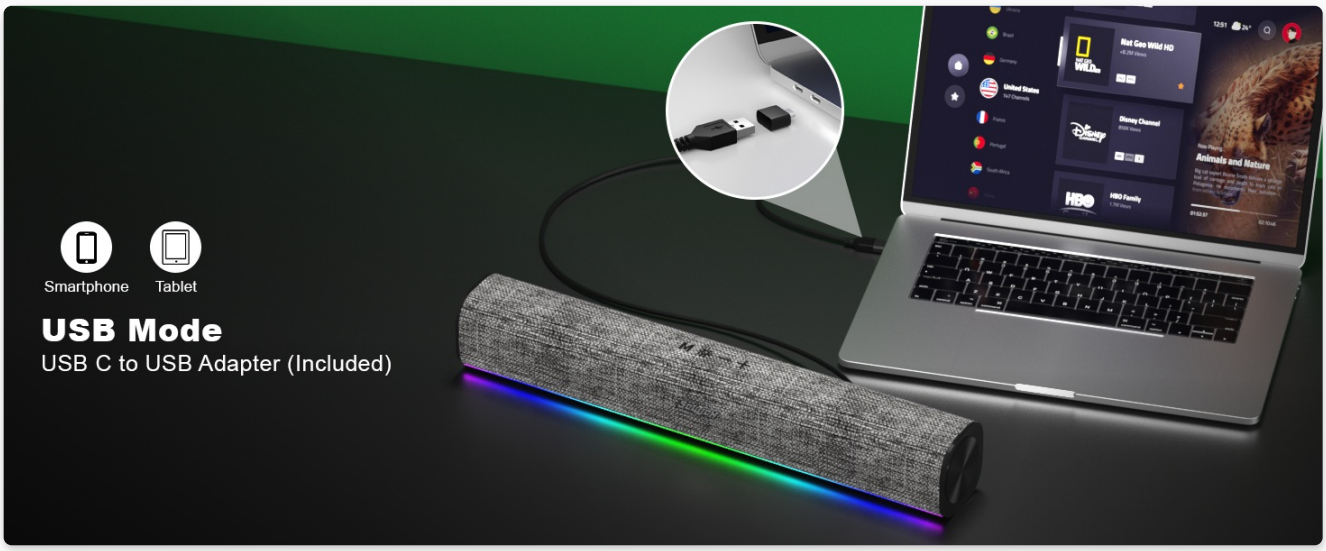

Image 4.3: Available LED lighting modes.

5. Maintenance

To ensure the longevity and optimal performance of your SOULION R100 speakers, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe the speaker's surface. Avoid using harsh chemicals, solvents, or abrasive cleaners.
- **Environment:** Keep the speaker in a dry environment, away from direct sunlight, extreme temperatures, and high humidity.
- **Handling:** Avoid dropping the speaker or subjecting it to strong impacts. Do not attempt to disassemble the unit, as this will void the warranty.

6. Troubleshooting

If you encounter issues with your SOULION R100 speaker, please refer to the following troubleshooting steps:

6.1 No Sound / Speaker Not Working

1. **Avoid Dual Connections:** Ensure you are not attempting to use two audio outputs on your computer simultaneously.
2. **Select Correct Output:** Verify that "R100" is selected as the audio output device in your computer's sound settings (refer to Section 3.2 and 3.3).
3. **Check Volume Levels:** Confirm that both the computer's volume and the R100 speaker's volume are turned up, ideally to maximum for testing.
4. **Try Different USB Port:** Plug the USB or Type-C adapter into a different USB port on your computer's host port.
5. **Test with Another Device:** Connect the speaker to another device (e.g., a different computer, smartphone in Bluetooth mode) to determine if the issue is with the speaker or the original device.
6. **Switch Modes:** If in USB mode, try switching to Bluetooth mode and vice-versa to see if the issue persists.
