

Gtech AirRAM 3 Red Threading

Gtech AirRAM 3 Cordless Vacuum Cleaner User Manual

Model: AirRAM 3 Red Threading

Brand: Gtech

1. INTRODUCTION

The Gtech AirRAM 3 Cordless Vacuum Cleaner is designed for efficient and convenient cleaning across various floor types. Its lightweight and cordless design offers enhanced maneuverability, while advanced features ensure thorough dirt and debris collection.

Key Features:

- **CORDLESS VACUUM CLEANER:** Tackle a range of jobs with the AirRAM 3. Weighing only 8 lbs., this high-powered cordless vacuum easily cleans hardwood and carpet floors. The low-profile handle helps to reach underneath sofas, beds and tables.
- **UNIQUE DESIGN:** The AirRAM 3's powered brush head reaches awkward corners and cleans up to the edge of baseboards. The included hair removal tool picks up embedded pet hair and the anti-wrap bar prevents hair from catching.
- **RECHARGEABLE BATTERY:** Powered by a 22V lithium-ion battery, the AirRAM 3 provides up to 30 minutes of runtime after a 3-hour charge. The 4-stage LED indicator on the back of the vacuum gauges how much charge remains.
- **BAGLESS DESIGN:** This vacuum's waste disposal system is easy to empty on a regular basis. With a simple flip of a latch, the collected dirt and debris empties into your trash can.
- **GTECH:** From its humble beginnings in a small garage, Gtech has grown into a premier home and garden company. Their goal of making everyday jobs like vacuuming easier has expanded into multiple products.

2. SETUP

2.1 Unboxing and Assembly

Carefully remove all components from the packaging. The Gtech AirRAM 3 is designed for simple assembly, typically involving connecting a few main parts. Ensure all packaging materials are removed before use.

Figure 1: Gtech AirRAM 3 main components.

2.2 Charging the Battery

The AirRAM 3 is powered by a 22V lithium-ion battery. Before first use, fully charge the battery. The charging dock allows for convenient charging. A full charge typically takes 3 hours and provides up to 30 minutes of runtime. The 4-stage LED indicator on the vacuum's base shows the remaining charge level.

Video 1: Demonstrates the charging process and battery indicator of the Gtech AirRAM 3.

Description: This video shows the Gtech AirRAM 3 being placed on its compact charging dock. The battery indicator lights up, showing the charging status. The video highlights the ease of charging the removable battery.

3. OPERATING INSTRUCTIONS

3.1 Powering On/Off

To power on the AirRAM 3, simply press the power button located on the base of the unit with your foot. To turn it off, press the button again.

3.2 Cleaning Performance

The AirRAM 3 is designed for optimal performance on both carpet and hard floors without needing to change settings. Its powerful suction and unique design ensure effective cleaning.

**Why choose the...
AirRAM 3 ?**

Patented AirLOC technology for power cleaning vs other brands that leave dirt behind. Powered edge brushes.

Upright vacuum for effective dirt to bin pick up, no tubes to block vs cyclone bins that get blocked.

Unique self cleaning filter!

Single max power setting for full power all the time vs changing setting reducing power runtime.

Poor suction dependant on floor surface.

Blockage risk caused by long tubes.

Change settings reduces power and runtime.

Gtech

Engineered (to) perfection in the UK.

Figure 2: The AirRAM 3 features patented AirLOC technology and powered edge brushes for superior cleaning.

SELF PROPULSION

Innovative Forward Inertia drive, propels itself forwards

Figure 3: The extra wide clean path allows for efficient cleaning of large areas.

3.3 Maneuverability

The vacuum's lightweight design (8 lbs) and self-propulsion feature make it easy to push and maneuver. The low-profile handle allows it to reach under furniture, while edge-cleaning brushes ensure no dirt is left behind.

LUXURIOUS COMFORT

Leather-bound handles, comfort where you need it most

Figure 4: Innovative Forward Inertia drive propels the vacuum forwards for effortless cleaning.

NO TUBES TO BLOCK

Picks up dirt no other vacuum can handle

Figure 5: Edge cleaning brushes ensure thorough cleaning right up to baseboards.

Video 2: A user demonstrates the Gtech AirRAM 3's maneuverability and cleaning on various surfaces, including carpet and hard floors. It highlights the self-propulsion and ease of use.

Description: This video showcases the Gtech AirRAM 3 in action, moving smoothly across different floor types. It emphasizes the vacuum's ability to self-propel, making cleaning less strenuous, and its effectiveness on both low-pile carpets and hard surfaces.

4. MAINTENANCE

4.1 Emptying the Dustbin

The AirRAM 3 features a bagless design for easy waste disposal. Simply flip a latch to empty collected dirt and debris directly into your trash can. Regular emptying is recommended to maintain optimal suction.

Video 3: Shows how to easily empty the dustbin of the Gtech AirRAM 3.

Description: This video demonstrates the quick and hygienic process of emptying the vacuum's dustbin. The user detaches the

bin and releases the collected debris into a trash can, highlighting the bagless design.

4.2 Cleaning the Filter

The AirRAM 3 is equipped with a self-cleaning filter. For deeper cleaning, the filter can be removed and washed with hot water. Ensure the filter is completely dry before reinserting it into the vacuum.

4.3 Brush Bar Maintenance

The anti-hair wrap bar helps prevent hair from tangling around the brush. If necessary, use the included hair removal tool to clear any stubborn hair or debris from the brush bar to maintain effective cleaning.

**20
YEAR
DESIGN LIFE**

MADE TO LAST

Gtech engineer our products to run for 20 years use

Figure 6: The design minimizes blockages, allowing it to pick up larger debris.

5. TROUBLESHOOTING

If you encounter any issues with your Gtech AirRAM 3, please refer to the following common troubleshooting

tips:

- **Reduced Suction:** Check if the dustbin is full and empty it. Inspect the filter for clogs and clean it as per maintenance instructions. Ensure the brush bar is free from tangled hair or debris.
- **Battery Not Charging:** Verify that the charging dock is properly connected to a power outlet and that the vacuum is correctly seated on the dock. Check the battery indicator lights for charging status.
- **Vacuum Not Turning On:** Ensure the battery is charged. Press the power button firmly. If the issue persists, contact Gtech customer support.

For more detailed troubleshooting or persistent issues, please visit the official Gtech support website or contact their customer service.

6. SPECIFICATIONS

Feature	Specification
Brand	Gtech
Model Name	AirRam 3 Red Threading
Special Feature	Cordless
Battery	22V Lithium-Ion
Runtime	Up to 30 minutes
Charge Time	3 hours
Capacity	0.8 Liters
Item Weight	8.38 pounds
Product Dimensions	11.8"L x 9.8"W x 44.1"H
Recommended Uses	Floor, Carpet

7. WARRANTY AND SUPPORT

Gtech products are engineered for durability, with a design life intended to last for at least 20 years.
