6. TROUBLESHOOTING

6.1 AirTag Not Staying Securely in Place

Ensure the AirTag is fully pressed into the circular cutout of the holder. The design is intended to lock the AirTag in place, preventing it from slipping out. If the AirTag feels loose, double-check its seating within the holder.

6.2 Signal Interference

The silicone material of the PESTON AirTag Card Holder is designed to be thin and non-obstructive, ensuring it does not interfere with the AirTag's signal transmission. If you experience signal issues, verify that the AirTag itself is functioning correctly and is not obstructed by other dense materials in your wallet or bag.
