SAFETY INFORMATION

- Ensure all components are securely fastened before use.
- Do not stand on the chair or use it as a step stool.
- Avoid placing heavy objects on the chair that exceed its weight capacity.
- Keep hands and fingers clear of moving parts during adjustment.
- Use the chair on a flat, stable surface to prevent tipping.
- Keep children and pets away from the chair during assembly.

PACKAGE CONTENTS

Before assembly, please verify that all the following components are present:

- Chair body
- Arm Pads (Interlocking armrests)
- Headrest cushion
- Lumbar support cushion
- Ottoman (Retractable footrest)
- Seat base with wheels
- Gas lift cylinder
- Assembly tools and hardware kit
- Assembly instruction manual (Japanese and English)

ASSEMBLY INSTRUCTIONS

Assembly is designed to be straightforward and can typically be completed by one person. A dedicated tool and a detailed instruction manual are included in the package.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface to prevent scratches.
2. **Attach Wheels to Base:** Insert the casters into the holes on the star base.
3. **Install Gas Lift:** Place the gas lift cylinder into the center hole of the star base.
4. **Assemble Seat Mechanism:** Attach the seat mechanism to the underside of the seat cushion using the provided screws. Ensure the front of the mechanism faces the front of the seat.
5. **Connect Backrest to Seat:** Secure the backrest to the seat cushion using the designated screws.
6. **Attach Armrests:** Fasten the interlocking armrests to both the seat and backrest.
7. **Mount Seat onto Gas Lift:** Carefully place the assembled seat and backrest onto the gas lift cylinder.
8. **Attach Headrest and Lumbar Cushions:** Secure the headrest and lumbar support cushions using their integrated straps.
9. **Install Footrest:** Slide the retractable footrest into its designated slot under the seat.

OPERATING INSTRUCTIONS

Your Dowinx LS-6650HG02 chair offers several adjustable features for personalized comfort:

- **Height Adjustment:** Use the lever located under the seat on the right side to adjust the chair's height. Pull the lever up to raise the chair (when no weight is applied) or lower it (when seated). The chair offers approximately 7.5 cm of vertical adjustment.
- **Reclining Function:** The backrest can recline up to 145 degrees. Pull the recline lever (typically on the left side under the seat) to adjust the angle. Release the lever to lock the backrest in your desired position.
- **Retractable Footrest:** Pull the footrest out from under the seat when you wish to extend your legs. Push it back in when not in use.
- **Interlocking Armrests:** The armrests are designed to move with the backrest when reclining, providing continuous support for your arms and wrists.
- **360° Swivel:** The chair's base allows for full 360-degree rotation.
- **Lumbar Support and Headrest:** The upgraded headrest and lumbar pads provide firm support. Adjust their position by sliding them along the backrest straps to find your optimal comfort.
- **Vibration Function:** (If applicable, refer to specific instructions for activating the vibration feature, usually via a USB connection or integrated control.)

MAINTENANCE

- **Cleaning:** Wipe clean the PU leather and other surfaces with a soft, damp cloth. Avoid harsh

chemicals or abrasive cleaners that may damage the material.

- **Inspection:** Periodically check all screws and bolts to ensure they are tight. Re-tighten if necessary to maintain stability and safety.
- **Lubrication:** If any moving parts (e.g., casters, gas lift) begin to squeak or operate roughly, a small amount of silicone-based lubricant can be applied.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause the PU leather to fade or crack.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Chair wobbles or feels unstable.	Loose screws or uneven floor.	Check and tighten all assembly screws. Ensure the chair is on a flat surface.
Height adjustment not working.	Gas lift cylinder malfunction or lever issue.	Ensure the lever is fully engaged. If the issue persists, contact customer support for a replacement gas lift.
Chair squeaks during movement.	Friction between components or loose connections.	Apply silicone lubricant to moving parts and joints. Check and tighten all screws.
Casters not rolling smoothly.	Debris in casters or damaged wheels.	Clean any hair or debris from the caster wheels. If damaged, consider replacing the casters.
