let'me HQ-JS2325BK

let'me Warm & Cool Mist Humidifier User Manual

Model: HQ-JS2325BK

Brand: let'me

1. INTRODUCTION

This manual provides essential information for the safe operation, maintenance, and troubleshooting of your let'me Warm & Cool Mist Humidifier, Model HQ-JS2325BK. This humidifier is designed to enhance indoor air quality by maintaining optimal humidity levels, offering both warm and cool mist options, a large 2.64-gallon capacity, and smart features like humidity control and an aroma tray.

Please read this manual thoroughly before using the product and retain it for future reference.

2. IMPORTANT SAFETY INSTRUCTIONS

- Always place the humidifier on a firm, flat, waterproof surface at least 12 inches (30 cm) away from walls and appliances.
- Do not place the humidifier directly on carpet, wood floors, or near heat sources.
- Ensure the power cord is not pinched or placed under heavy objects.
- Unplug the humidifier before filling, cleaning, or moving it.
- Do not add essential oils directly into the water tank. Use the designated aroma tray only.
- Keep out of reach of children and pets.
- Do not block the mist outlet or air intake vents.
- Use only clean, cool tap water. Distilled or demineralized water is recommended to prevent white dust.
- Do not immerse the base unit in water or other liquids.
- If the unit emits unusual sounds, smells, or smoke, unplug it immediately and contact customer support.

3. PACKAGE CONTENTS

Upon unpacking, please ensure all items listed below are present and in good condition:

- let'me Warm & Cool Mist Humidifier (1 unit)
- Remote Control (1 unit)
- User Manual (1 copy)

4. PRODUCT OVERVIEW

Familiarize yourself with the components of your humidifier and its remote control.

4.1 Humidifier Unit and Remote Control

Image: The let'me Warm & Cool Mist Humidifier in black, featuring a digital display panel and a separate remote control. The humidifier has a tall, rectangular design with a visible water level indicator on the side.

- **Mist Outlet:** Located at the top, where mist is dispersed.
- **Water Tank:** The main reservoir for water, accessible via a top-fill lid.
- **Control Panel/Display:** An integrated LED screen and touch buttons for operating the unit.
- **Water Level Window:** A transparent strip on the side to monitor the water level.
- **Aroma Tray:** A small, pull-out compartment for adding essential oils.
- **Base Unit:** Houses the ultrasonic atomizer, heating element, and electronic components.
- **Remote Control:** A handheld device for convenient adjustment of settings from a distance.

5. SETUP AND FIRST USE

1. **Unpack:** Carefully remove all packaging materials and place the humidifier on a flat, stable, waterproof surface.
2. **Positioning:** Ensure the unit is at least 12 inches (30 cm) from walls, furniture, and electronic devices. Do not place it directly on carpet or near heat sources.
3. **Fill Water Tank:**
 - Open the top-fill lid.
 - Pour clean, cool tap water directly into the water tank. Distilled or demineralized water is recommended to minimize mineral buildup and white dust.
 - Fill up to the "MAX" line indicated on the water level window. Do not overfill.
 - Close the top-fill lid securely.
4. **Connect Power:** Plug the power cord into a standard electrical outlet. The unit will beep once, and the display will light up briefly.
5. **Power On:** Press the Power button on the control panel or remote control. The humidifier will start operating in cool mist mode by default.

6. OPERATING INSTRUCTIONS

6.1 Control Panel and Remote Control

All functions can be controlled via the touch-sensitive control panel on the unit or the included remote control.

6.2 Mist Mode (Warm/Cool)

- Press the **WARM/COOL** button to switch between warm mist and cool mist.
- In warm mist mode, the unit will heat the water to approximately 120°F (49°C) within 5 minutes. The mood light will glow amber.
- In cool mist mode, the mood light will shine blue.

6.3 Mist Volume Adjustment

- Press the **MIST VOLUME** button repeatedly to cycle through Low, Medium, and High mist output settings.
- The display will indicate the current mist level.

6.4 Smart Humidity Control (Humidistat)

- Press the **HUMIDITY** button to set your desired relative humidity (RH) level, ranging from 45% to 95% in 5% increments.
- Once the target humidity is set, the humidifier will automatically turn on or off to maintain that level.
- If no target humidity is set, the unit will operate continuously until the water tank is empty or the timer expires.

6.5 Timer Function

- Press the **TIMER** button to set an auto-off timer from 1 to 24 hours.
- Each press increases the timer by 1 hour. The display will show the remaining time.
- The unit will automatically shut off when the set time expires.

6.6 Sleep Mode and Quiet Operation

Comfort beyond quiet

Image: The let'me Warm & Cool Mist Humidifier positioned in a bedroom, emitting mist. The image highlights the unit's quiet operation, making it suitable for use in sleeping environments.

- Press the **SLEEP** button to activate sleep mode.
- In sleep mode, the display lights will dim, and the unit will operate at a lower noise level for undisturbed rest.
- Press any button to exit sleep mode.

6.7 Aroma Tray

- Locate the aroma tray on the side or back of the base unit.
- Pull out the tray and add a few drops of essential oil onto the aroma pad (not directly into the water tank).
- Slide the tray back into place. The mist will carry the fragrance into the air.

6.8 UV Lamp

- Press the **UV LAMP** button to turn on or off the built-in UV sterilization lamp.
- The UV lamp helps to purify the water and reduce bacteria growth within the tank.

6.9 Low Water Indicator & Auto Shut-off

When the water level is too low, the humidifier will automatically shut off, and an indicator light or message will appear on the display. Refill the water tank to resume operation.

7. CARE AND MAINTENANCE

Regular cleaning is crucial for optimal performance and hygiene. Always unplug the unit before cleaning.

7.1 Daily Maintenance

- Empty any remaining water from the tank.
- Wipe the inside of the water tank and the base with a clean, dry cloth.
- Refill with fresh water before each use.

7.2 Weekly Cleaning (or every 3-5 days)

1. **Unplug and Empty:** Ensure the humidifier is unplugged and empty the water tank.
2. **Clean Water Tank:**
 - Pour 1 cup (240ml) of white vinegar into the water tank.
 - Swish the vinegar around to coat all interior surfaces.
 - Let it soak for 30 minutes.
 - Use a soft brush or cloth to gently scrub away any mineral buildup.
 - Rinse thoroughly with clean water until the vinegar smell is gone.
3. **Clean Base Unit:**
 - Pour 1/2 cup (120ml) of white vinegar into the base reservoir, covering the ultrasonic atomizer.
 - Let it soak for 30 minutes.
 - Use a soft brush to clean the atomizer and surrounding areas.
 - Carefully pour out the vinegar. Do not let water enter the air outlet.
 - Rinse the base reservoir with clean water.
4. **Clean Aroma Tray:** Remove the aroma pad and wash the tray with warm, soapy water. Rinse and dry. Replace the aroma pad or use a new one if needed.
5. **Dry:** Allow all parts to air dry completely before reassembling or storing.

7.3 Storage

If the humidifier will not be used for an extended period:

- Perform a thorough cleaning as described in "Weekly Cleaning".
- Ensure all parts are completely dry.
- Store the unit in its original packaging or a cool, dry place away from direct sunlight.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
No mist or low mist output	Low water level	Refill water tank.
	Mineral buildup on atomizer	Clean the ultrasonic atomizer with vinegar solution.
	Mist outlet blocked	Ensure mist outlet is clear.
	Unit not powered on	Press the Power button.
White dust around humidifier	Hard water with high mineral content.	Use distilled or demineralized water. Clean the unit regularly.
Unusual odor from mist	Stagnant water	Empty and refill water daily.
	Dirty water tank/base	Perform weekly cleaning with vinegar.
Water leaking from unit	Overfilling the water tank	Do not fill past the MAX line.
	Unit not on a level surface	Ensure unit is on a flat, stable surface.
	Damage to water tank or seals	Inspect for cracks or damage. Contact support if damaged.
Unit makes loud noises	Low water level	Refill water tank.
	Unit not on a level surface	Place on a flat, stable surface.
	Foreign object in base	Unplug and inspect base for obstructions.
