CSNRHG 8853

CSNRHG Eiffel Tower Micro Building Blocks Set 8853 Instruction Manual

Model: 8853

Introduction

This manual provides detailed instructions for assembling and maintaining your CSNRHG Eiffel Tower Micro Building Blocks Set, Model 8853. This set allows you to construct a detailed replica of the Eiffel Tower using 3350 micro building blocks. Please read all instructions carefully before beginning assembly.

Safety Information

WARNING: CHOKING HAZARD – Small parts. Not for children under 3 years.

- Keep all small parts away from young children to prevent accidental ingestion.
- Adult supervision is recommended during assembly, especially for younger builders.
- Dispose of packaging materials responsibly.

Package Contents

Upon opening the package, please verify that all components are present:

- Micro Building Blocks (approximately 3350 pieces)
- Instruction Manual (this document)
- Spare parts (included for convenience)

If any parts are missing or damaged, please refer to the "Support" section for assistance.

Setup and Assembly

The assembly process requires patience and attention to detail due to the micro size of the building blocks. Follow the included pictorial instructions step-by-step.

1. **Preparation:** Unpack all building blocks and sort them by color and shape. This will significantly aid the assembly process.
2. **Base Construction:** Begin by assembling the base structure of the Eiffel Tower. Ensure the foundation is stable and level.

Image: Detailed views of the model, showing the base with inclined pillars, the top platform with an antenna, and the transformation of columns.

3. **First Level Pillars:** Construct the four magnificent giant inclined pillars that form the base of the tower. Pay close attention to their angle and connection points.
4. **Mid-Section Assembly:** Continue building upwards, connecting the various sections of the tower. The design incorporates a buckle connection method for structural stability.
5. **Upper Structure:** As you progress, the four columns will gradually transform into almost vertical, highly rigid obelisks, forming the iconic tapering shape of the Eiffel Tower.
6. **Top Platform and Antenna:** Assemble the top platform and arrange the TV antenna as indicated in the instructions.
7. **Decorative Elements:** Attach any decorative elements, such as the surrounding greenery, to the base of the model.

Image: Close-up details highlighting the architectural features, including the base pillars, top antenna, and column transitions.

8. **Final Check:** Once assembly is complete, gently inspect the entire model to ensure all connections are secure and the structure is stable.

Operating and Display

This building block set is designed as a display model. Once assembled, it can be placed on a flat, stable surface in your home or office.

- Choose a prominent location to showcase the intricate details of the Eiffel Tower replica.
- Avoid placing the model in direct sunlight or near heat sources to prevent material degradation.
- Keep the model away from areas with high humidity.

Maintenance

To keep your Eiffel Tower model in excellent condition:

- **Cleaning:** Gently dust the model regularly with a soft, dry cloth or a soft brush to remove accumulated dust.
- **Avoid Liquids:** Do not use water, cleaning solutions, or abrasive materials, as these can damage the blocks or cause discoloration.
- **Handling:** Handle the model with care to avoid dislodging any blocks.

Troubleshooting

Here are solutions to common issues you might encounter:

- **Missing Parts:** If you discover any missing blocks during assembly, please contact customer support immediately.

Refer to the "Support" section for contact information.

- **Difficulty with Assembly:**
  - Ensure you are following the instruction manual step-by-step.
  - Double-check the orientation and connection points of each block.
  - Micro blocks require precise placement; use gentle but firm pressure to connect them.
- **Model Instability:** If the assembled model feels unstable, re-examine the connections, especially at the base and major structural points. The buckle connection method is designed for stability, so ensure all buckles are properly engaged.

Specifications

Feature	Detail
Product Dimensions	7.8 x 7.8 x 15.7 inches (19.8 x 19.8 x 39.9 cm)
Item Weight	1.62 pounds (0.73 kg)
Model Number	8853
Recommended Age	3 years and up (with adult supervision due to small parts)
Material	High-quality ABS material
Number of Pieces	Approximately 3350
Brand	CSNRHG

Warranty

CSNRHG is committed to providing high-quality products. While specific warranty details are not provided in this manual, we ensure our products are made from durable materials and undergo precise testing. For any issues related to product quality or defects, please contact our customer support.

Support

For assistance with missing parts, assembly issues, or any other product-related inquiries, please contact CSNRHG customer service. We are dedicated to ensuring a satisfactory building experience.
Please refer to the contact information provided on the product packaging or the retailer's website where you purchased the item.
