Spin Master PAW Patrol Basic Vehicle with Puppy Figure Instruction Manual

Model: 6071153

INTRODUCTION

This manual provides instructions for the Spin Master PAW Patrol Basic Vehicle with Puppy Figure. These toys allow children aged 3 and up to recreate adventures from the PAW Patrol TV series. Each set includes one vehicle and one matching puppy figure, designed for interactive play.

The vehicles and figures in this series are primarily made from recycled plastic, promoting sustainability. They are designed to be compatible with other standard-scale PAW Patrol playsets.

SAFETY INFORMATION

- Use only under adult supervision.
- This product is suitable for children aged 36 months to 9 years.
- Keep small parts away from younger children to prevent choking hazards.

PACKAGE CONTENTS

Each package contains the following items:

- 1 x PAW Patrol Basic Vehicle
- 1 x Matching Puppy Figure (character is subject to random selection)

Image: Chase figure and his police cruiser, an example of a vehicle and figure set.

SETUP

The Spin Master PAW Patrol Basic Vehicle and Puppy Figure are designed for immediate play with minimal setup.

1. **Unpack Components:** Carefully remove the vehicle and puppy figure from their packaging.
2. **Attach Figure to Vehicle:** Each puppy figure is designed to sit securely within its corresponding vehicle. Locate the designated seating area or attachment point on the vehicle. Gently place the puppy figure into position until it is stable.

Image: Rubble figure and his bulldozer. Figures can be attached to their vehicles for play.

OPERATING INSTRUCTIONS

These vehicles are designed for imaginative play and feature free-spinning wheels and individual action functions.

- **Movement:** Push the vehicle along a flat surface to engage its free-spinning wheels.
- **Action Functions:** Each vehicle may have unique movable parts or features. Explore the vehicle to discover its specific action functions, such as movable scoops, propellers, or other interactive elements.
- **Figure Interaction:** The puppy figure can be removed from and re-attached to the vehicle, allowing for versatile play scenarios.
- **Compatibility:** These vehicles and figures are designed to be compatible with the PAW Patrol Headquarter Playset, the Paw Patroller, and other standard-scale PAW Patrol toys.

Image: Zuma figure and his hovercraft, demonstrating a vehicle with unique features like propellers.

Image: Skye figure and her helicopter, illustrating another vehicle with an action function.

Image: Marshall figure and his fire truck, ready for rescue missions.

Image: Rocky figure and his recycling truck, featuring a movable grabber.

Image: Everest figure and her snowmobile, designed for snowy adventures.

Image: Ryder figure and his ATV, ready for any mission.

Image: Tracker figure and his jungle cruiser, suitable for off-road exploration.

MAINTENANCE

To ensure the longevity of your PAW Patrol Basic Vehicle and Puppy Figure, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the vehicle and figure with a damp cloth to remove dust and dirt. Avoid using harsh chemicals or abrasive cleaners, as these may damage the plastic or paint.
- **Storage:** Store the toys in a cool, dry place away from direct sunlight to prevent material degradation or color fading.
- **Inspection:** Periodically inspect the vehicle and figure for any signs of damage, such as cracks or loose parts.

Discontinue use if significant damage is found.

TROUBLESHOOTING

If you encounter any issues with your PAW Patrol Basic Vehicle and Puppy Figure, consider the following common solutions:

Problem	Possible Cause / Solution
Figure does not attach securely to vehicle.	Ensure the figure is correctly aligned with the seating area or attachment point. Apply gentle pressure to secure it. Verify that the figure matches the vehicle type.
Vehicle wheels do not spin freely.	Check for any debris (e.g., hair, lint) obstructing the wheels. Clean the axle area if necessary. Ensure the vehicle is on a smooth, flat surface.
Action function (e.g., propeller, scoop) is stuck.	Inspect for any obstructions. Gently try to move the part to free it. Avoid forcing the mechanism.
