

XTREME DIGITAL LIFESTYLE ACCESSORIES XLS7-1007-MCW

Xtreme Multicolored LED Strip Lights

User Manual

Brand: XTREME DIGITAL LIFESTYLE ACCESSORIES | Model: XLS7-1007-MCW

INTRODUCTION

Transform your living space or event with the Xtreme Multicolored LED Strip Lights. This extensive 100-foot strip provides a generous length of vibrant illumination, making it perfect for large areas like walls, ceilings, or furniture. With 15 distinct colors and 4 dynamic flashing modes (Flashing, Strobe, Fade, and Smooth), you can effortlessly create the perfect ambiance for any occasion, from lively parties to cozy, relaxing evenings. The LED strip is powered via a built-in plug, offering great convenience. This ensures easy installation and operation in various settings without the need for additional power converters. The strip's cut-and-reconnect feature allows for customizable length adjustments, so you can tailor the strip to fit your specific needs and space requirements. Installation is simple with the adhesive backing, which securely sticks to any clean, flat surface. Additionally, the dimmable feature lets you adjust the brightness to your liking, providing versatile lighting options for any setting. Included with the lights is a remote control that allows you to conveniently manage colors, modes, and brightness from a distance. Whether you're aiming to enhance your home decor, create a festive atmosphere, or simply add a splash of color, the Xtreme Multicolored LED Strip Lights offer a blend of flexibility, functionality, and vibrant illumination to meet all your lighting needs.

WHAT'S IN THE BOX

Please verify that all components are present before beginning installation.

- 100ft LED Strip
- 12V Power Adapter
- Flexible Connectors
- Set of Strip Mounting Clips and 2 Cable Mounting Clips
- Remote with 2 AAA Batteries (batteries may not be included, please check packaging)
- User Manual

What you get:

SETUP AND INSTALLATION

Surface Preparation

Ensure the surface where the LED strip will be installed is clean, dry, and smooth. Dust, dirt, or moisture can compromise the adhesive backing's effectiveness.

Applying the LED Strip

1. Carefully unroll the LED strip.
2. Peel off a small section of the adhesive backing from the start of the strip.
3. Press the exposed adhesive firmly onto your desired surface, working your way along the strip, peeling off more backing as you go. Apply even pressure to ensure good adhesion.

Figure 3: Example Installation in a Living Room

Cutting and Reconnecting the Strip

The LED strip can be cut to your desired length at designated cut marks, usually indicated by a scissor icon or copper pads. Use the included flexible connectors to reattach cut sections or to navigate corners.

1. Identify the cut marks on the LED strip.
2. Using sharp scissors, cut precisely along the designated line.
3. To reconnect, open the clasp of a flexible connector. Align the copper pads of the LED strip with the pins inside the connector. Close the clasp firmly to secure the connection.

Cut & Customize

Cut Strip to Your Custom Size and
Reattach with Included Connector

Power Connection

Connect the LED strip to the provided 12V power adapter. Plug the power adapter into a standard electrical outlet. The built-in plug design simplifies this process.

OPERATING INSTRUCTIONS

The Xtreme LED Strip Lights are controlled using the included remote control.

Figure 6: LED Strip Lights and Remote Control

Figure 7: Key Features of the LED Strip

Remote Control Functions

- **ON/OFF:** Power the lights on or off.
- **Color Selection:** Choose from 15 distinct colors using the color buttons.
- **Brightness Adjustment:** Use the dimmable feature to increase or decrease the light intensity.
- **Mode Selection:** Select from 4 dynamic flashing modes:
 - **Flash:** Rapidly cycles through colors.
 - **Strobe:** Flashes a single color on and off.
 - **Fade:** Smoothly transitions between colors.
 - **Smooth:** Gradually changes colors with a softer transition.
- **White Light Options:** Buttons for Cool White, Soft White, and Warm White are available for dedicated white light settings.

Ensure the remote control has working batteries (2x AAA, not always included) and is pointed towards the receiver on the LED strip for optimal performance.

MAINTENANCE

To ensure the longevity and optimal performance of your Xtreme LED Strip Lights, follow these maintenance guidelines:

- **Cleaning:** Gently wipe the LED strip with a dry, soft cloth to remove dust. Do not use liquid cleaners or abrasive materials.
- **Water Resistance:** This product is designed for indoor use only and is**Not Water Resistant**. Avoid exposure to water, high humidity, or outdoor elements.
- **Handling:** Avoid bending the LED strip sharply, especially at points other than the designated cut marks, as this can damage the internal circuitry.
- **Storage:** If storing the lights, ensure they are clean, dry, and coiled loosely to prevent damage.

TROUBLESHOOTING

If you encounter issues with your Xtreme LED Strip Lights, please refer to the following common problems and solutions:

| Problem | Possible Cause | Solution |
|---|--|---|
| Lights do not turn on. | No power, loose connection, faulty power adapter. | Ensure the power adapter is securely plugged into a working outlet and the strip. Check if the power adapter is functioning. |
| Remote control not working. | Dead batteries, remote not pointed at receiver, faulty remote. | Replace batteries (2x AAA). Ensure clear line of sight to the strip's receiver. If issues persist, contact support. |
| Sections of the strip are not lighting up or show incorrect colors. | Poor connection at cut/reconnect points, damaged section of the strip. | Check all flexible connectors to ensure they are properly secured and making good contact with the copper pads. Ensure cuts were made precisely at designated marks. If a section is damaged, it may need to be isolated or replaced. |
| Adhesive backing not sticking. | Surface not clean/dry, improper application. | Ensure the surface is thoroughly cleaned and dry before application. Apply firm, even pressure during installation. For difficult surfaces, consider using additional mounting clips (if not already used). |
