XUNFOX RGB 94-Key Keyboard and Mouse Combo

XUNFOX RGB 94-Key Keyboard and Mouse Combo User Manual

Model: RGB 94-Key Keyboard and Mouse Combo

1. INTRODUCTION

This manual provides instructions for the XUNFOX RGB 94-Key Keyboard and Mouse Combo. This product is designed for both work and gaming, offering a customizable RGB backlight keyboard with a volume control knob and a mouse with adjustable DPI and additional buttons. Please read this manual thoroughly before use to ensure proper operation and maintenance.

Image 1.1: The XUNFOX RGB 94-Key Keyboard and Mouse Combo, featuring a cream-colored keyboard with RGB backlighting and a matching mouse.

2. PACKAGE CONTENTS

Verify that all items are present in the package:

- XUNFOX RGB 94-Key Keyboard
- XUNFOX Mouse with DPI Control
- User Manual (this document)

3. SETUP INSTRUCTIONS

The XUNFOX Keyboard and Mouse Combo is designed for plug-and-play functionality, requiring no additional driver installation for basic operation.

3.1 Connecting the Keyboard and Mouse

1. Locate an available USB port on your computer or compatible device.
2. Plug the USB connector of the keyboard into the USB port.
3. Plug the USB connector of the mouse into another available USB port.
4. The operating system should automatically detect and configure the devices.

Compatibility: This combo is compatible with Linux, Mac OS, Windows XP, Vista, 7, 8, 10, and 11. It can also be used with game consoles, personal computers, laptops, and smartphones that support USB input devices.

4. OPERATING INSTRUCTIONS

4.1 Keyboard Functions

The 94-key layout provides a comprehensive set of keys for various tasks. The keyboard features an ergonomic design with a high and low key layout for comfortable typing.

Ergonomic Layout

High and Low key layout

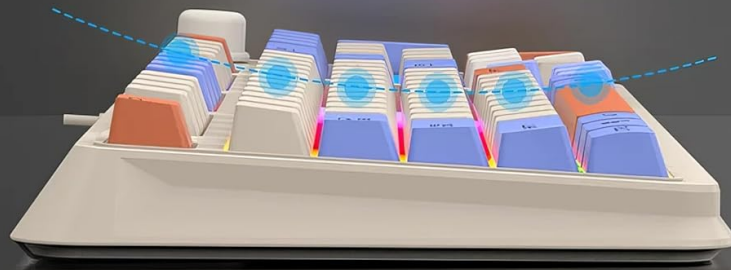

Image 4.1: Side view of the keyboard illustrating the ergonomic high and low key layout for improved comfort.

RGB Backlighting: The keyboard features full RGB backlighting. Specific controls for customizing the RGB effects may be available via key combinations (e.g., Fn + specific keys) or software (if provided by the manufacturer). Refer to the manufacturer's website for advanced customization options.

Volume Control Knob: A dedicated knob is located on the keyboard for convenient audio control.

- Rotate the knob clockwise to increase volume.
- Rotate the knob counter-clockwise to decrease volume.
- Press the knob to mute or unmute the audio.

Independent Volume Control

Adjust or mute your volume with ease

Volume Up

Volume Down

Mute/Unmute

Image 4.2: Close-up of the independent volume control knob on the keyboard, showing its functions for volume adjustment and muting.

Media Controls: The keyboard includes integrated media controls, typically accessible via function keys (F-keys) in combination with the 'Fn' key. These allow for playback control, track skipping, and other media-related functions.

Media Controls

Easy to use media controls

Image 4.3: The keyboard layout highlighting the media control functions integrated into the F-keys.

Stable Keycap Structure: The keycaps are designed with an embedded structure to ensure stability and prevent accidental detachment during use.

Stable keycap structure

The embedded key cap structure make the key cap stable and not easy to fall off.

Image 4.4: An exploded view of a keycap, demonstrating the embedded structure that provides stability.

4.2 Mouse Functions

The mouse features optical tracking technology for precise movement.

- **DPI Control:** A dedicated button allows you to adjust the mouse's DPI (Dots Per Inch) sensitivity. Press this button to cycle through different DPI settings, altering cursor speed to suit your preference for various tasks or games.
- **Additional Buttons:** The mouse is equipped with extra buttons, typically located on the side, which can be programmed for specific functions or used for navigation (e.g., forward/back in web browsers). Refer to your operating system's mouse settings for customization options.

5. MAINTENANCE

To ensure the longevity and optimal performance of your XUNFOX Keyboard and Mouse Combo, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe down the surfaces of the keyboard and mouse. For stubborn dirt, slightly dampen the cloth with water or a mild cleaning solution. Avoid harsh chemicals or abrasive materials.

- **Dust Removal:** Use compressed air to remove dust and debris from between the keycaps and around the mouse sensor.
- **Avoid Liquids:** Do not expose the devices to excessive moisture or immerse them in liquids.
- **Storage:** Store the devices in a cool, dry place away from direct sunlight and extreme temperatures when not in use.

6. TROUBLESHOOTING

If you encounter issues with your XUNFOX Keyboard and Mouse Combo, refer to the following troubleshooting steps:

Problem	Possible Cause	Solution
Keyboard/Mouse not responding	Loose USB connection, faulty USB port, driver issue.	Ensure USB cables are securely plugged in. Try a different USB port. Restart your computer.
Keys not working	Debris under keycap, software conflict.	Clean the keyboard with compressed air. Test on another computer.
Mouse cursor erratic or not moving	Dirty sensor, unsuitable surface, DPI setting too low.	Clean the mouse sensor. Use a mouse pad or a non-reflective surface. Adjust DPI setting.
RGB backlight not working	Backlight turned off, software issue.	Check if backlight is enabled via keyboard shortcuts. Restart computer.
