Alliget smartwatch-T97

Alliget Smart Watch with Earbuds

Model: smartwatch-T97

INTRODUCTION

This document provides comprehensive instructions for the setup, operation, maintenance, and troubleshooting of your Alliget Smart Watch with Earbuds, Model smartwatch-T97. Please read this manual carefully before using the product to ensure proper function and longevity.

WHAT'S IN THE BOX

Verify that all items are present in the package:

- Smart watch
- TWS earphone
- Manual

SETUP

1. Charging the Device

Before initial use, fully charge the smart watch. The device features a built-in 300mAh Lithium Polymer battery. Connect the provided charging cable to the watch and a compatible USB power source.

Smart Watch with Earbuds

Image: The Alliget Smart Watch with Earbuds, showcasing both the pink and black color variants. The earbuds are stored within the watch casing.

2. App Installation and Pairing

To utilize all features, download the companion application to your smartphone. The smart watch is compatible with Android 4.4 and above, and iOS 9.0 and above. Enable Bluetooth on your smartphone and follow the app's instructions to pair the watch.

3. Earbuds Pairing

The earbuds are designed for seamless integration. Once removed from the watch, they should automatically enter pairing mode. Refer to your smartphone's Bluetooth settings to connect the earbuds if they do not connect automatically.

OPERATING INSTRUCTIONS

1. Basic Watch Functions

The 1.39-inch HD IPS screen displays time, notifications, and health metrics. Navigate the watch interface using touch gestures. Customize watch faces to suit your preference.

Health Monitoring

2. Earbuds Operation

The earbuds feature touch controls for various functions:

- **Play/Pause Music:** Tap the earbud.
- **Next/Previous Track:** Swipe or tap multiple times (refer to app for specific gestures).
- **Voice Assistant:** Long press the earbud.

3. Health Monitoring

The smart watch continuously monitors several health metrics:

- **Heart Rate:** 24-hour continuous monitoring.
- **Sleep:** Tracks sleep patterns and duration.
- **Blood Oxygen:** Measures blood oxygen levels.
- **Pedometer:** Counts steps taken throughout the day.
- **Calorie Counter:** Estimates calories burned based on activity.

Image: The smart watch screen showing various health monitoring icons and data, including heart rate, sleep duration, and blood oxygen levels.

4. Sports Modes

The watch supports over 100 sports modes, allowing you to track specific activities. It records distance, speed, and time for your workouts.

5. Phone Features & Notifications

Manage calls and receive notifications directly on your watch:

- **Call Management:** Answer or hang up calls from your wrist.
- **Remote Camera:** Control your phone's camera remotely.

- **Message Notifications:** Receive alerts for SMS, Facebook, Twitter, WhatsApp, Instagram, and other apps.
- **Find Mobile Phone:** Use the watch to locate your paired smartphone.

MAINTENANCE

1. Water Resistance

The smart watch is IP67 waterproof and dustproof, meaning it can withstand immersion in water up to 1 meter for 30 minutes. It is suitable for daily use and light water exposure, but not recommended for swimming or diving.

Image: Multiple Alliget Smart Watches shown with water splashing, illustrating their IP67 waterproof rating.

2. Battery Care

The device contains a non-removable Lithium Polymer battery. Avoid exposing the watch to extreme temperatures. Charge the device regularly to maintain battery health. Do not attempt to replace the battery yourself.

TROUBLESHOOTING

If you encounter issues with your smart watch, consider the following common solutions:

- **Device Not Turning On:** Ensure the watch is fully charged. Connect it to the charger for at least 30 minutes.
- **Pairing Issues:** Confirm Bluetooth is enabled on your phone and the watch is in pairing mode. Restart both devices and try pairing again.
- **Notifications Not Appearing:** Check app permissions on your smartphone to ensure the companion app has access to notifications. Verify that notifications are enabled within the watch's settings.
- **Earbuds Disconnecting:** Ensure the earbuds are fully charged. Re-pair them with your phone if disconnections persist.
- **Inaccurate Health Data:** Ensure the watch is worn snugly on your wrist. Clean the sensor area regularly.

For persistent issues, refer to the companion app's help section or contact customer support.
