3.2. Selecting and Fitting Eartips

For optimal sound quality and a secure fit, choose the eartips that best seal your ear canal. Three sizes (S, M, L) are included.

1. Try each size to find the most comfortable and secure fit. A good seal will enhance bass performance and noise isolation.
2. Gently insert the earbud into your ear canal, then rotate it slightly to ensure the ear hook sits comfortably and securely over your ear.

- **Cleaning:** Regularly clean the earbuds, especially the eartips and charging contacts, with a soft, dry, lint-free cloth. Do not use harsh chemicals or abrasive materials.
- **Water Resistance (IPX6):** The earbuds are IPX6 waterproof, meaning they are protected against powerful water jets. This makes them suitable for strenuous workouts and use in rain. However, they are not designed for submersion in water (e.g., swimming or showering). Do not expose the charging case to water.
- **Storage:** When not in use, store the earbuds in their charging case to protect them and keep them charged. Store in a cool, dry place away from extreme temperatures.
- **Battery Care:** Avoid fully draining the battery frequently. Charge the case and earbuds regularly to maintain battery health.
