PRODUCT OVERVIEW

The Spyder Rails luggage set is designed for durability, convenience, and security, featuring a lightweight hardside shell, smooth-rolling spinner wheels, and an integrated TSA-approved lock.

Key Features:

- **Durable Construction:** Crafted from lightweight and resilient 100% ABS/PC material, designed to resist cracking and breaking.
- **Spacious Interior:** Features two main packing compartments, compression straps to secure contents, a mesh divider, and multiple accessory pockets for organized packing.
- **Expandable Design:** Offers up to 2.5 inches of additional packing capacity when needed.
- **Smooth Mobility:** Equipped with dual 360-degree Shark Wheels for effortless and quiet navigation.
- **Enhanced Security:** Includes a built-in TSA-approved combination lock to protect your belongings while allowing airport security access.

- **Telescopic Handle:** A multi-stage locking telescopic handle provides comfortable maneuverability.

SETUP

Setting the TSA Combination Lock:

Your Spyder Rails suitcase is equipped with a TSA-approved combination lock. The initial combination is set to 0-0-0. To set your personal combination:

1. Ensure the lock is set to the factory default combination (0-0-0).
2. Locate the small reset button (usually a small hole) on the side or bottom of the lock. Use a pen or a pointed object to press and hold this button until you hear a click.
3. While holding the reset button, set your desired 3-digit combination by turning the dials.
4. Release the reset button. Your new combination is now set.

5. Test your new combination by scrambling the dials and then entering your set combination to open the lock.

Important: Remember your combination. There is no master key for personal combinations, and the manufacturer cannot assist in resetting it if forgotten.

OPERATING INSTRUCTIONS

Using the Telescopic Handle:

To extend the handle, press the button located on the top of the handle grip and pull upwards. The handle will lock into multiple positions. To retract, press the button again and push the handle downwards until it is fully nested.

Utilizing 360-Degree Spinner Wheels:

The Shark Wheels are designed for multi-directional movement. To move your suitcase, simply push or pull it in any direction. For optimal maneuverability, keep the suitcase upright and allow the wheels to pivot freely.

Expanding Your Suitcase:

To access the additional packing capacity, locate the secondary zipper running along the perimeter of the suitcase. Unzip this section to expand the suitcase by approximately 2.5 inches.

Packing and Organization:

Utilize the internal compression straps to secure your clothing and prevent shifting during transit. Place smaller items in the zippered mesh pockets for easy access and organization.

MAINTENANCE

Cleaning the Hardside Shell:

Wipe the exterior with a soft cloth dampened with mild soap and water. Avoid abrasive cleaners or solvents, as these can damage the finish. Dry thoroughly with a clean cloth.

Wheel and Zipper Care:

- Periodically check wheels for debris and clean as necessary.
- For smooth zipper operation, occasionally apply a silicone-based lubricant or zipper wax.

Storage:

Store your luggage in a cool, dry place away from direct sunlight. For the 3-piece set, the smaller suitcases can be nested inside the larger ones for compact storage.

TROUBLESHOOTING

Lock Issues:

If the combination lock is not working, ensure you are entering the correct 3-digit code. If you have forgotten your code, the lock cannot be reset without the original combination. TSA agents have a universal key for inspection purposes, but this does not reset your personal code.

Sticking Wheels:

Check the wheels for any trapped debris such as hair, lint, or dirt. Clean them thoroughly. If the issue persists, ensure the suitcase is not overloaded beyond its capacity.

Zipper Problems:

If a zipper is stuck, avoid forcing it. Try to gently move the slider back and forth. Ensure no fabric is caught in the zipper teeth. A small amount of lubricant can help.

SPECIFICATIONS

Product Dimensions	23 x 14.5 x 11.5 inches (for Carry-On, dimensions vary by piece)
Item Weight	27 pounds (total for 3-piece set)
Department	Unisex Adult
Model Number	210
