To ensure the longevity and optimal performance of your VEVOR Claw Machine, regular maintenance is recommended.

- **Cleaning:** Wipe down exterior surfaces with a soft, damp cloth. Avoid abrasive cleaners.
- **Coin Drawer:** Periodically empty the coin collection drawer to prevent overflow and ensure smooth operation. The drawer is accessible via the column lock mechanism.
- **Claw Mechanism:** Inspect the claw for any obstructions or wear. Ensure it moves freely and grips properly.

5. TROUBLESHOOTING

If you encounter issues with your VEVOR Claw Machine, refer to the following common solutions:

- **Claw is too weak to pick up items:** The claw strength may be adjustable. Refer to the detailed instructions provided with your machine for specific adjustment procedures. Ensure the items inside are within the recommended size and weight limits.
- **Machine not responding:** Check the power connection and ensure the power switch is in the 'ON' position. If using batteries, ensure they are correctly installed and have sufficient charge.
- **Coins not registering:** Ensure coins are inserted correctly and are of an acceptable size. Check the coin mechanism for any obstructions.
- **Defective unit:** If the machine exhibits persistent malfunctions despite troubleshooting, contact VEVOR customer support for assistance.
