3. PRODUCT FEATURES

- **4K Recording with LCD Screen:** Capture high-resolution video and replay footage instantly on the integrated high-quality LED screen. The screen supports inverted display mode and allows for quick settings adjustments.

- **Ultra 4K Pixel Sensor:** Equipped with a 4K sensor and high-quality optical glass, ensuring clear and accurate video recording. H.264 format optimizes storage efficiency.
- **180° Rotatable Lens & 120° Wide Angle:** Adjust the lens direction to capture the desired angle, preventing missed evidence.
- **Motion Detection:** Conserves battery and memory space by recording only when movement is detected.
- **Auto Night Vision:** Features 6 IR lenses and IR-Cut technology for automatic night vision recording in low-light environments.
- **Extended Battery Life & Storage:** Built-in 1600mAh rechargeable battery provides 6-7 hours of continuous recording. Supports 24/7 recording when connected to a power bank. Includes a built-in 128GB card for extensive storage.
- **Multiple Playback Options:** View recordings directly on the camera screen, via computer with the provided Type-C cable/card reader, or through a mobile phone using a Type-C cable/adaptor.

4. SETUP

1. **Charging the Device:** Connect the provided Type-C cable to the camera's USB port and to a power source. The battery indicator on the screen will show charging status.
2. **Power On/Off:** Locate the power button on the side of the device. Press and hold to power on or off.
3. **Attaching Accessories:** The removable clip can be attached to the back of the camera for various mounting options. The lanyard can be attached for neck-wearing.
4. **Initial Settings:** Upon first use, navigate the menu to set the correct date and time for accurate timestamps on recordings.

5. OPERATING INSTRUCTIONS

1. **Video Recording:** Press the dedicated video recording button to start/stop 4K or 1080P video capture.
2. **Audio Recording:** Press the dedicated audio recording button to start/stop audio-only capture.
3. **Photo Capture:** Press the dedicated photo button to take still images.
4. **Night Vision:** The camera automatically activates night vision in low-light conditions using its IR-Cut technology. This can also be manually adjusted in the settings.
5. **Motion Detection:** Enable motion detection in the menu settings to automatically start recording when movement is detected within the camera's field of view.
6. **Lens Rotation:** Manually rotate the lens up to 180 degrees to adjust the recording angle as needed.
7. **Menu Navigation:** Use the navigation buttons below the screen to access settings such as resolution, photo size, video length, date stamp, and stealth mode.
8. **Playback:** Access recorded files through the camera's menu for on-device playback. For larger viewing, connect the camera to a computer or compatible mobile phone.
