This manual provides essential information on the product's features, setup, usage, care, and specifications to ensure optimal performance and longevity.

SETUP AND USAGE

Unpacking and Expansion

Upon receiving your VOXON seat cushion, carefully remove it from its packaging. The cushion may be compressed for shipping. Allow 24-48 hours for the memory foam to fully expand and regain its original shape and firmness. This process may vary depending on ambient temperature.

Placement and Positioning

Place the cushion on your desired seat (office chair, car seat, wheelchair, etc.) with the U-shaped cutout positioned towards the back of the chair. This ensures that your tailbone is suspended over the cutout, relieving direct pressure. The non-slip base will help keep the cushion in place.

Suitable for A Variety of Scenarios

Optimal Comfort

Adjust your seating position to ensure your hips are comfortably cradled by the cushion's contours and your spine maintains a natural alignment. The memory foam will conform to your body, providing personalized support.

CARE AND MAINTENANCE

Cleaning the Cover

The outer velvet cover is removable and machine-washable. Unzip the cover and remove it from the memory foam insert. Machine wash the cover in cold water on a gentle cycle. Tumble dry on low heat or air dry. Do not bleach or iron.

Caring for the Memory Foam Insert

The memory foam insert itself is not washable. If it becomes dirty, spot clean with a damp cloth and mild detergent. Allow it to air dry completely away from direct sunlight or heat. Do not submerge

the memory foam in water.

TROUBLESHOOTING

Initial Odor

A new memory foam product may have a slight, harmless odor upon unpacking. This is normal and will dissipate within a few days of airing out the cushion in a well-ventilated area.

Firmness Adjustment

Memory foam reacts to temperature. It may feel firmer in colder environments and softer in warmer ones. Allow the cushion to adjust to room temperature for optimal performance. Your body will also adapt to the cushion over a few days of use.
