iWALK MXS006

iWALK 3-in-1 Wireless Charging Stand User Manual

Model: MXS006

Brand: iWALK

INTRODUCTION

Thank you for choosing the iWALK 3-in-1 Wireless Charging Stand. This versatile charging station is designed to simultaneously power your iPhone, Apple Watch, and AirPods, providing a convenient and clutter-free charging experience. Featuring innovative Auto Rotation technology and an adjustable viewing angle, it enhances usability for various applications.

PACKAGE CONTENTS

Please verify that all items are present in your package:

- **iWALK 3-in-1 Auto Turn Wireless Charging Station** x 1
- **20W Charging Adapter** x 1
- **5ft/1.5m USB-C to C Cable** x 1
- **User Manual** x 1

SETUP GUIDE

1. **Unpack the Device:** Carefully remove the charging stand and all accessories from the packaging.
2. **Connect Power:** Insert one end of the provided USB-C to C cable into the USB-C port on the back of the charging

stand. Connect the other end of the cable to the 20W Charging Adapter.

3. **Plug into Outlet:** Plug the 20W Charging Adapter into a wall power outlet. The charging stand is now ready for use.
4. **Prepare for Apple Watch Charging:** The Apple Watch charging module is integrated and can be flipped out from the side of the main unit.

OPERATING INSTRUCTIONS

Charging Your iPhone

The iWALK charging stand features a powerful N52 magnet for secure and efficient MagSafe-compatible charging. It delivers up to 15W high-speed wireless charging for compatible iPhone models.

1. Ensure your iPhone is MagSafe compatible (iPhone 12 series and newer).
2. Place your iPhone onto the magnetic charging pad. The magnets will automatically align your device for optimal charging.
3. A charging indicator on the stand will illuminate, confirming that your iPhone is charging.

Figure 3: Magnetic alignment and 15W wireless charging capability.

Charging Your Apple Watch

The integrated Apple Watch charging module supports all Apple Watch Series (10/9/8/7/6/5/4/3/2/SE/Ultra/Ultra 2).

1. Flip out the Apple Watch charging arm from the side of the main unit.
2. Place your Apple Watch onto the charging puck. It will magnetically snap into place and begin charging.

Charging Your AirPods

The base of the charging stand provides a dedicated wireless charging spot for your AirPods (3/2/Pro/Pro 2).

1. Place your AirPods charging case onto the designated charging area at the base of the stand.
2. Ensure the AirPods case is centered on the charging area for optimal contact.

Auto Rotation and StandBy Mode

The iWALK stand incorporates infrared (IR) Auto Turn technology, allowing your iPhone to automatically switch between landscape and portrait orientations without physical contact. This feature is particularly useful for utilizing iOS StandBy Mode.

- When your iPhone is placed on the magnetic charger, the built-in infrared sensor detects your presence and can initiate rotation.
- To activate StandBy Mode, ensure your iPhone is running iOS 17 or later and is placed horizontally on the charger.

SAFETY INFORMATION

- Do not expose the device to liquids, moisture, or extreme temperatures.
- Avoid dropping or subjecting the device to strong impacts.
- Do not disassemble, modify, or attempt to repair the device yourself.

- Ensure proper ventilation around the charging stand during use.
- The charger includes short circuit protection. If an issue occurs, disconnect from power immediately.
- Use only the provided 20W adapter and USB-C cable for optimal performance and safety.

MAINTENANCE

- To clean the charging stand, disconnect it from the power source.
- Wipe the surface with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- Keep the charging surfaces free of dust and debris to ensure efficient charging.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Device not charging.	Not properly connected to power.	Ensure the adapter is plugged into a live outlet and the USB-C cable is securely connected.
	Device not aligned correctly.	Re-position the device on the charging pad to ensure proper magnetic alignment.
	Non-compatible phone case.	Remove any non-magnetic phone cases. Only MagSafe-compatible cases are supported.
Auto Rotation not working.	Obstruction of infrared sensor.	Ensure the infrared sensors (located near the charging pad) are not blocked.
	Device not placed correctly.	Verify the iPhone is securely attached to the magnetic pad.
Slow charging.	Using a non-original adapter/cable.	Use the provided 20W Charging Adapter and USB-C to C Cable.
	Device overheating.	Remove the device from the charger and allow it to cool down. Ensure adequate ventilation.

SPECIFICATIONS
