- **Cleaning:** The inner pot, steamer, and glass lid are dishwasher safe. For the main unit, wipe the exterior with a soft, damp cloth. Do not use abrasive cleaners or scourers.
- **Descaling:** Over time, mineral deposits may accumulate, especially in hard water areas. To descale, fill the kettle with a mixture of water and white vinegar (1:1 ratio) or a commercial descaling solution. Boil the mixture, then let it sit for 30 minutes before rinsing thoroughly.
- **Storage:** Ensure the kettle is clean and dry before storing. Store in a cool, dry place.
