upscreen MDT865-9H

User Manual: upscreens Hybrid Glass Clear Premium Screen Protector

Compatible with Topicon MDT865

1. INTRODUCTION

This manual provides essential information for the installation, use, and maintenance of your upscreens Hybrid Glass Clear Premium Screen Protector. Designed specifically for the Topicon MDT865, this screen protector offers robust protection against scratches and damage while maintaining the original touch sensitivity and clarity of your device's display. Please read these instructions carefully before installation to ensure optimal performance and longevity of the product.

2. PRODUCT FEATURES

- **Hybrid Glass Construction:** Made from an extra-thin hybrid plastic-glass material, offering greater flexibility than traditional tempered glass.
- **9H Scratch Protection:** Provides strong protection against scratches and daily wear, safeguarding your device's display.
- **Lightweight and Thin:** Designed to be unobtrusive, preserving the original design and feel of your device.
- **High Transparency:** Ensures crystal-clear visibility and maintains the vibrant colors of your screen.
- **Anti-Fingerprint Coating:** A special surface coating resists grease and smudges, making the screen easy to clean.
- **Bubble-Free Installation:** Features a special adhesive layer for simple, bubble-free application.
- **Precision Cut:** Manufactured with advanced laser technology for a perfect fit on the Topicon MDT865.

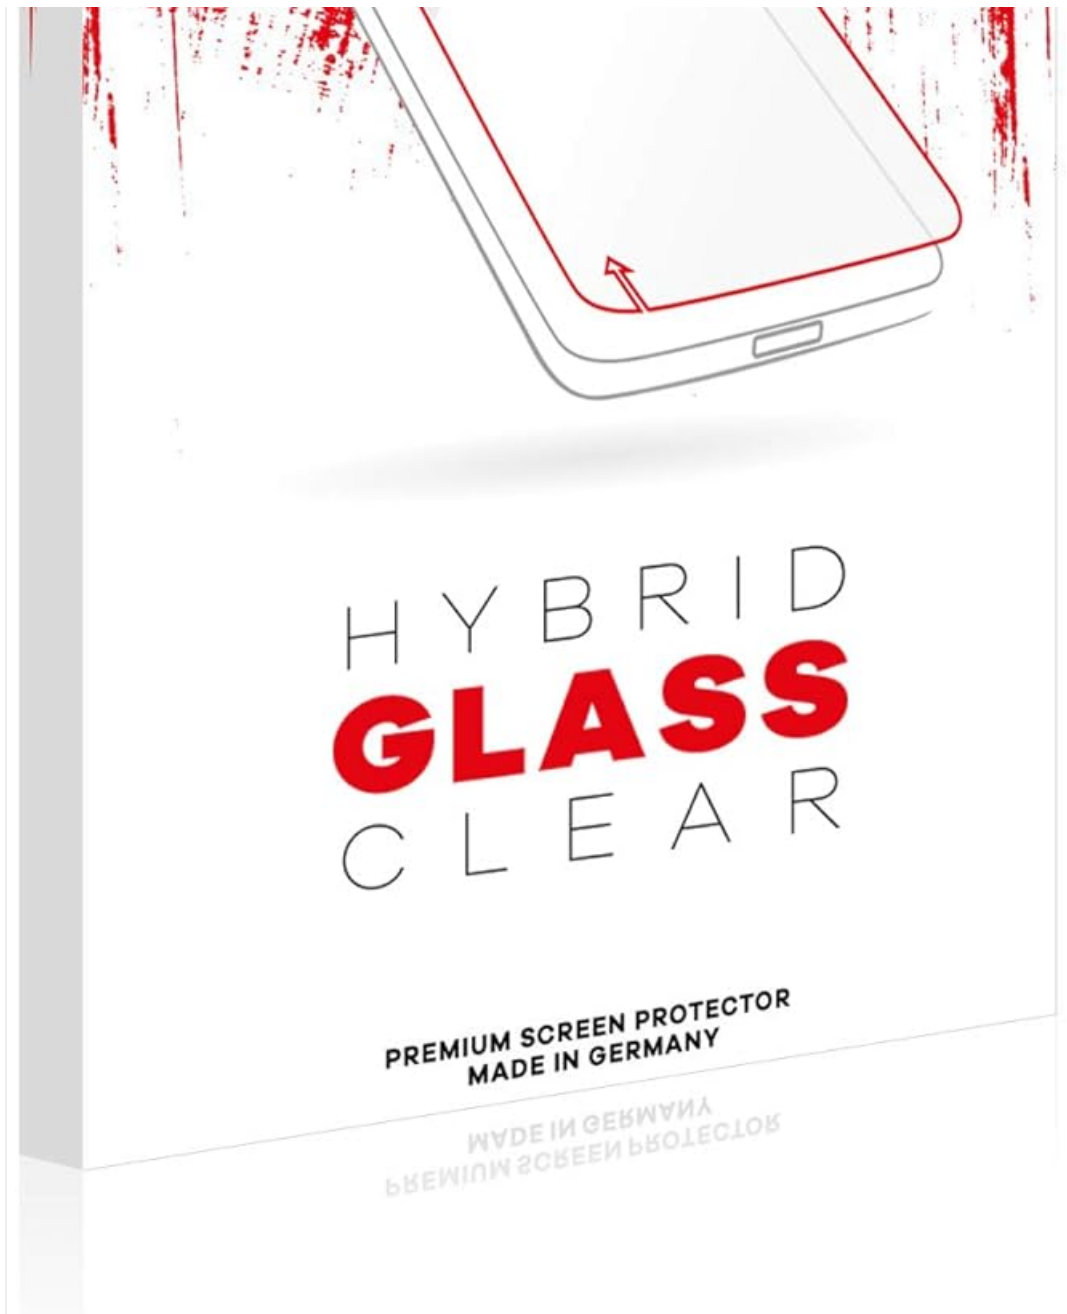

Figure 3.2: The complete mounting kit for the upsreen screen protector, including cleaning wipe, dust remover, guide stickers, and wet pad.

4. SETUP AND INSTALLATION

Proper installation is crucial for the performance and appearance of your screen protector. Follow these steps carefully:

1. **Prepare Your Workspace:** Choose a clean, dust-free environment. Wash your hands thoroughly to avoid transferring oils or dirt to the screen.
2. **Clean the Device Screen:**
 - Use the provided **Wet Pad** to thoroughly clean the entire surface of your Topicon MDT865 screen.
 - Immediately follow with the **Cleaning Wipe** to dry and polish the screen, removing any streaks or residue.
3. **Remove Dust Particles:** Use the **Dust Remover Sticker** to gently dab the screen and lift any remaining dust particles. Ensure the screen is completely free of dust before proceeding.
4. **Positioning the Protector (Optional - Using Guide Stickers):**
 - Carefully place the screen protector on your device's screen without removing the protective film, aligning it

perfectly with the edges and cutouts.

- Once aligned, use the **Guide Stickers** to tape one side of the screen protector to the device, creating a hinge. This helps maintain alignment during application.

5. Apply the Screen Protector:

- Gently lift the screen protector using the hinge.
- Slowly peel off the protective film from the adhesive side of the screen protector, being careful not to touch the adhesive surface.
- Lower the screen protector back onto the device screen, starting from the hinged side and allowing it to adhere gradually.

6. Remove Air Bubbles:

- Use the **Smoothing Card** to gently push any air bubbles towards the edges of the screen. Start from the center and work your way outwards.
- Small bubbles may disappear on their own within 24-48 hours.

7. **Final Touches:** Once the protector is fully adhered and bubbles are removed, gently peel off any remaining protective films from the top surface of the screen protector (if present).

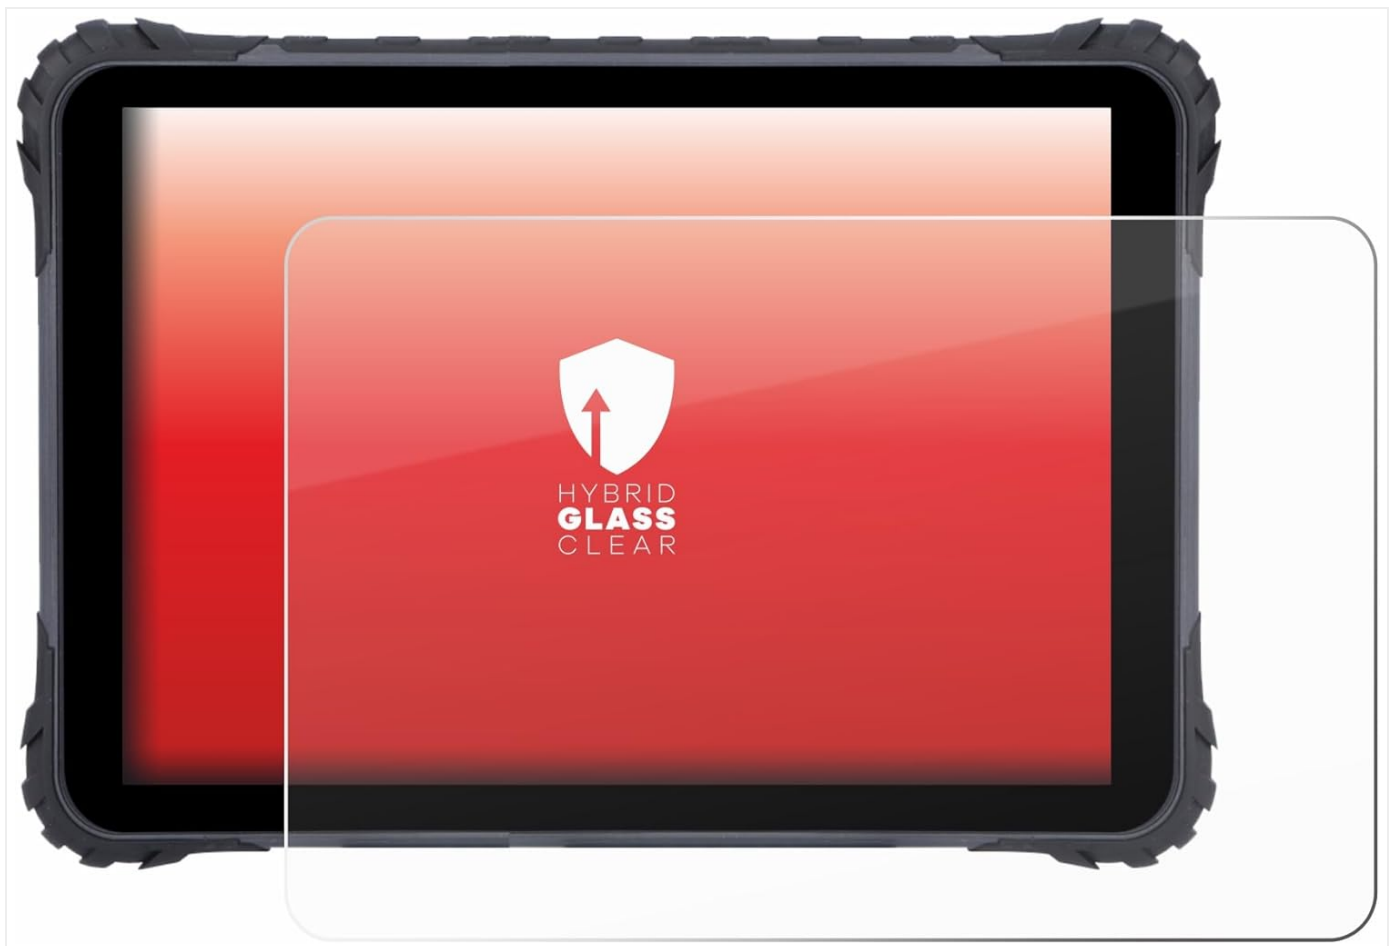

Figure 4.1: The upsreen screen protector correctly installed on a Topicon MDT865 device.

5. OPERATING AND DAILY USE

Once installed, the upsreen Hybrid Glass Clear Premium Screen Protector is designed to be virtually unnoticeable. It maintains the original touch sensitivity of your Topicon MDT865, allowing for smooth and responsive interaction with your device.

- **Touch Sensitivity:** The ultra-thin design ensures that touch response remains unaffected.
- **Clarity:** The high transparency ensures that screen brightness and color accuracy are preserved.

6. MAINTENANCE AND CARE

To keep your screen protector in optimal condition and maintain its clarity, follow these simple care instructions:

- **Cleaning:** Due to its anti-fingerprint coating, the screen protector is resistant to smudges. For cleaning, gently wipe the surface with a soft, lint-free cloth. For stubborn marks, a slightly damp cloth (water only) can be used, followed by a dry wipe.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, alcohol, or chemical solvents, as these can damage the coating and the protector itself.
- **Protection:** While the protector offers significant scratch resistance, avoid placing your device with sharp objects (keys, coins) in pockets or bags to prevent unnecessary damage.

7. TROUBLESHOOTING

If you encounter any issues during or after installation, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Bubbles after installation	Dust particles trapped underneath, or uneven application.	Use the smoothing card to push bubbles towards the nearest edge. For small dust-induced bubbles, gently lift the nearest corner of the protector, use the dust remover sticker to lift the dust, and reapply.
Protector not adhering properly at edges	Dust or oil on the screen edge, or protector misalignment.	Ensure the screen edges are perfectly clean before application. If misaligned, carefully lift and re-align, ensuring no dust gets underneath.
Reduced touch sensitivity	Rare, but could be due to improper installation or a faulty protector.	Ensure the protector is fully adhered without large air gaps. If the issue persists, contact customer support.

8. SPECIFICATIONS

Attribute	Detail
Brand	upscreen
Compatible Devices	Topicon MDT865
Material	Hybrid Glass (Plastic-Glass Composite)
Hardness	9H
Screen Surface Description	Glossy
Color	Clear
