Bestbase Christmas Tree Building Blocks Kit

Bestbase Advent Calendar 2025 Christmas Tree Building Blocks Kit

Model: Christmas Tree Building Blocks Kit

INTRODUCTION

This instruction manual provides detailed guidance for assembling and enjoying your Bestbase Advent Calendar 2025 Christmas Tree Building Blocks Kit. This kit allows you to build a festive Christmas tree over 24 days, revealing new components daily. The completed model includes LED string lights for enhanced display.

SAFETY INFORMATION

- Keep all building block components away from naked flames or high heat sources.
- Small parts may present a choking hazard for young children. Adult supervision is recommended during assembly, especially for users under 8 years of age.
- Ensure all electrical components, such as LED lights, are handled with care and kept dry.

PACKAGE CONTENTS

Your Bestbase Advent Calendar 2025 Christmas Tree Building Blocks Kit includes:

- 24 individually numbered boxes containing a total of 572 building block pieces.
- Detailed colored instruction manual.
- LED string lights for decoration.

SETUP AND ASSEMBLY

The assembly process for this kit is designed as a 24-day countdown experience. Follow the steps below starting from December 1st:

1. **Unboxing:** Each day, open the corresponding numbered box (e.g., Box 1 on December 1st, Box 2 on December 2nd, and so on).
2. **Follow Instructions:** Refer to the colored instruction manual provided with the kit. Each day's box contains specific parts for a section of the Christmas tree or its decorations.
3. **Daily Building:** Assemble the pieces from the opened box according to the manual. The tree will gradually take shape over the 24 days.
4. **LED Light Integration:** Once the main structure of the tree is complete (typically towards the end of the countdown), integrate the provided LED string lights as instructed in the manual to illuminate your Christmas tree.

Image 3: An illustration detailing the number of building blocks included in each of the 24 daily boxes, contributing to the final Christmas tree model.

Image 4: Close-up view of the LED string lights, which are included to enhance the festive appearance of the assembled Christmas tree.

OPERATING THE LED LIGHTS

Once your Christmas tree is fully assembled and the LED string lights are integrated:

- Locate the battery compartment or power connector for the LED lights.
- Insert the required batteries (not included, check packaging for type) or connect to a suitable power source as indicated in the instruction manual.
- Activate the lights using the designated switch.

MAINTENANCE

- **Cleaning:** To clean the building blocks, gently wipe them with a dry, soft cloth. Avoid using harsh chemicals or abrasive materials.

- **Storage:** When not in use, store the assembled Christmas tree or disassembled blocks in a cool, dry place away from direct sunlight to prevent material degradation.
- **Battery Care:** If the LED lights are battery-operated, remove batteries during extended periods of non-use to prevent leakage.

TROUBLESHOOTING

Missing Pieces:

Carefully check all packaging and the interior of other daily boxes. Occasionally, small pieces may shift during packaging. If pieces are still missing, contact Bestbase customer support.

Blocks Not Connecting Properly:

Ensure that the blocks are aligned correctly and sufficient pressure is applied. Some connections may require a firm push. Refer to the instruction manual for specific assembly steps.

LED Lights Not Working:

Check that batteries are correctly inserted and are not depleted. Ensure all connections are secure. If issues persist, verify the integrity of the wiring as per the instruction manual.

SPECIFICATIONS

Brand	Bestbase
Model	Christmas Tree Building Blocks Kit
Material	Plastic (ABS)
Number of Pieces	572
Assembled Dimensions (Approx.)	5.67 x 5.67 x 10.35 inches (14.4 x 14.4 x 26.3 cm)
