

## LUNINO HS827

# LUNINO HS827 Corded Vacuum Cleaner Instruction Manual

Model: HS827

## INTRODUCTION

---

Thank you for purchasing the LUNINO HS827 Corded Vacuum Cleaner. This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your new appliance. Please read this manual thoroughly before first use and keep it for future reference.

## SAFETY INSTRUCTIONS

---

- Always ensure the power supply matches the voltage specified on the vacuum cleaner.
- Do not use the vacuum cleaner on wet surfaces or to pick up liquids.
- Keep the appliance away from heat sources and open flames.
- Unplug the vacuum cleaner from the power outlet before performing any cleaning, maintenance, or assembly tasks.
- Do not pick up flammable, combustible, or hot materials such as ashes, cigarette butts, or sharp objects.
- Ensure the dust cup and filters are correctly installed before operation.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Regularly inspect the power cord for damage. If damaged, it must be replaced by the manufacturer, its service agent, or similarly qualified persons to avoid a hazard.

## SETUP

---

Follow these steps to assemble your LUNINO HS827 vacuum cleaner:

1. **Unpack Components:** Carefully remove all parts from the packaging. Verify that all components listed in the 'Package Contents' section are present.
2. **Assemble the Main Unit:** Attach the dust cup to the main motor unit. Ensure it clicks securely into place.
3. **Connect Extension Pipes:** For stick vacuum mode, connect the extension pipes to the main unit.
4. **Attach Floor Nozzle:** Connect the floor nozzle to the end of the extension pipes. For handheld mode, you can

directly attach the 2-in-1 crevice tool to the main unit.

5. **Cord Management:** When not in use, wrap the 5-meter power cord around the integrated cord storage hooks on the extension pipe for neat storage.

Video 1: This video demonstrates the assembly process of the LUNINO HS827 vacuum cleaner, showing how to connect the main unit, extension pipes, and various nozzles.

## OPERATING INSTRUCTIONS

The LUNINO HS827 offers versatile cleaning with its 2-in-1 design.

### Stick Vacuum Mode

- Ensure the extension pipes and floor nozzle are securely attached.
- Plug the power cord into a suitable electrical outlet.
- Press the power button on the main unit to start the vacuum.
- Guide the floor nozzle across the surface to be cleaned. The brush head can rotate 180° horizontally and 90° vertically, allowing easy access under furniture and into corners.
- This mode is ideal for cleaning various floor types, including hard floors, carpets, and tatami mats.

## Handheld Vacuum Mode

- Detach the extension pipes and floor nozzle from the main unit.
- Attach the 2-in-1 crevice tool directly to the main unit.
- Plug in the power cord and press the power button.
- Use this mode for cleaning upholstery, car interiors, stairs, curtains, and other hard-to-reach areas.

**40,000Pa 軽量化でも強力**

## MAINTENANCE

Regular maintenance ensures optimal performance and extends the lifespan of your vacuum cleaner.

### Emptying the Dust Cup

- Press the dust cup release button to detach the dust cup from the main unit.
- Hold the dust cup over a trash bin and open the bottom lid to empty the collected debris.
- Reattach the dust cup to the main unit, ensuring it locks securely.

### Cleaning the HEPA Filter

- Remove the HEPA filter from the dust cup.
- Tap the filter gently to remove loose dust.
- The HEPA filter is washable. Rinse it under running water until clean.
- Allow the filter to air dry completely for at least 24 hours before reinserting it into the dust cup. Do not use a dryer or direct heat.

- Replace the HEPA filter regularly (e.g., every 3-6 months, depending on usage) to maintain optimal filtration and suction power.
