

INIU P41L

INIU 45W Portable Charger, 10000mAh Power Bank

Model: P41L

Brand: INIU

INTRODUCTION

The INIU 45W Portable Charger is a compact and powerful 10000mAh power bank designed for fast and convenient charging of your mobile devices. Featuring a built-in USB-C cable, multiple output ports, and a unique Paw Power indicator, it's an ideal companion for daily use and travel.

Experience safe and efficient charging with its 45W full-speed output, capable of rapidly charging modern smartphones and tablets.

WHAT'S IN THE BOX

- INIU 10000mAh Portable Power Bank x 1
- USB C Cable x 1
- User Manual x 1

SETUP AND INITIAL USE

Charging the Power Bank

Before first use, fully charge your INIU Power Bank. You can use the built-in USB-C cable or an external USB-C cable with a compatible wall adapter (not included). Connect the USB-C end to the power bank's USB-C port or use the built-in cable, and the other end to a power source.

The Paw Power indicator will illuminate to show charging progress. A full charge typically takes approximately 2 hours with a 27W charger.

Connecting Devices for Charging

The power bank offers multiple ways to charge your devices:

- **Built-in USB-C Cable:** Simply pull out the integrated USB-C cable and plug it directly into your compatible device. This cable also doubles as a convenient lanyard.

- **USB-C Port (Input/Output):** Use your own USB-C to USB-C cable to connect your device to the power bank's dedicated USB-C port. This port supports both charging the power bank and charging external devices.
- **USB-A Port (Output Only):** Use a standard USB-A to your device's cable to connect to the USB-A port for charging.

OPERATING INSTRUCTIONS

Checking Battery Level

To check the remaining battery level of your power bank, simply press the power button located on the side. The unique Paw Power indicator will light up, with each illuminated paw pad representing approximately 20% of the battery capacity.

1 Paw: 0-20% remaining

2 Paws: 21-40% remaining

3 Paws: 41-60% remaining

4 Paws: 61-80% remaining

5 Paws: 81-100% remaining

MAINTENANCE AND CARE

- Keep the power bank dry and away from moisture.
- Avoid exposing the device to extreme temperatures (hot or cold).

- Clean the power bank with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.
- If storing the power bank for an extended period, recharge it every 3-6 months to maintain battery health.
- Do not attempt to disassemble or repair the device yourself.

TROUBLESHOOTING

Device Not Charging

- Ensure the power bank itself is sufficiently charged (check Paw Power indicator).
- Verify that the charging cable is securely connected to both the power bank and your device.
- Try using a different charging cable or a different port on the power bank.
- Confirm your device is compatible with the power bank's output specifications.

Slow Charging

- Check if your device supports fast charging and if the cable used is rated for fast charging.
- Ensure only one device is connected if you require maximum charging speed, as charging multiple devices simultaneously may distribute power.
- Verify the power bank's charge level; lower charge levels might result in slower output.

SPECIFICATIONS

Brand	INIU
