PRODUCT OVERVIEW

Sound System

The HUABAO A105 features a powerful 100W Bluetooth speaker with six speakers and dual diaphragms, delivering a total of eight sound units for deep bass and crisp, high-definition audio. This configuration ensures a rich and immersive sound experience.

9000mAh Large Battery Capacity for Long Standby

This karaoke speaker comes equipped with a built-in 9000mAh high-capacity lithium battery, delivering powerful and long-lasting performance. Whether you're hosting a karaoke session or playing music outdoors, it handles extended use with ease —no need for frequent recharging.

Wireless Microphones

Two rechargeable wireless microphones are included, designed for clear vocal delivery. These microphones feature independent controls for echo, treble, and bass directly on the microphone unit, allowing for personalized sound adjustments during performances.

100W Booming Bass Speaker

2 + 4 Stereo Sound

This Bluetooth speaker features six professional-grade audio drivers and a powerful **100W** output, delivering a rich, live-concert-level sound experience. The soundstage is well-balanced with strong clarity and deep bass, making it ideal for house parties, outdoor events, and larger venues.

Connectivity Options

The system supports multiple input methods including Bluetooth 5.0 for stable wireless connections to smartphones, tablets, laptops, desktops, and smart TVs. It also features AUX, USB, and TF card inputs. For wired connections, there are two 6.5mm jacks for microphones or musical instruments, and three 3.5mm jacks for headphones, live cables, or additional AUX input. An OTG jack provides further versatility.

TWS Pairing

The True Wireless Stereo (TWS) pairing function allows two HUABAO A105 speakers to be synced for an expanded, full surround sound experience, ideal for larger gatherings.

SETUP

1. Initial Charging

Before first use, fully charge the karaoke machine and both wireless microphones. Connect the power adapter to the DC 15V input port on the speaker. Use the provided Type-C charging cable to charge the microphones.

2. Powering On/Off

To power on the speaker, press and hold the power button on the control panel until the display illuminates. To power off, press and hold the same button. For microphones, press and hold the power button on each microphone until the indicator light turns green.

3. Bluetooth Pairing

1. Turn on the HUABAO A105 speaker.
2. Press the 'Mode' button on the control panel until 'BLUE' appears on the display, indicating Bluetooth pairing mode.
3. On your mobile device (smartphone, tablet, etc.), go to Bluetooth settings and select 'HUABAO A105' from the list of available devices.
4. Once connected, the speaker will emit a confirmation sound.

4. Wired Connections

For non-Bluetooth devices, use the appropriate cables:

- **AUX Input:** Connect your device using the provided 3.5mm AUX cable to the AUX port.
- **USB/TF Card:** Insert a USB flash drive or TF card into the respective ports to play audio files directly.
- **Microphones/Instruments:** Use 6.5mm cables to connect wired microphones or musical instruments to the MIC1 or MIC2 jacks.

OPERATING INSTRUCTIONS

1. Adjusting Audio Levels

Use the dedicated knobs on the control panel to fine-tune your sound:

- **Main Volume:** Controls the overall output volume of the speaker.
- **Mic Volume:** Adjusts the volume of the wireless microphones.
- **Echo:** Controls the echo effect applied to microphone vocals.
- **Treble/Bass:** Adjusts the high and low frequencies of the music and microphone output.
- **Instrument Volume:** Controls the volume of any connected musical instruments.

2 Wireless Rechargeable Mics for Karaoke Fun

Comes with two rechargeable wireless microphones—no need to replace batteries. Simply charge via USB for a more convenient and eco-friendly experience. The microphone housings are made of durable metal, offering a more solid and premium feel compared to plastic ones. They're built to last—impact-resistant and wear-resistant, ideal for a variety of settings.

Image: Close-up of the control panel with clearly labeled knobs for precise audio adjustments.

2. Microphone Functions

- **Vocal Removal:** Press the 'Vocal Removal' button on the control panel to minimize or remove lead vocals from tracks, allowing you to sing along.
- **Mic Priority:** Activate 'Mic Priority' to automatically lower music volume when the microphone is in use, ensuring your voice stands out.

3. Sound Modes (EQ)

Press the 'EQ' button on the control panel to switch between different sound equalization modes, such as Indoor and Outdoor, optimizing audio for your environment.

4. TWS Pairing (True Wireless Stereo)

To pair two HUABAO A105 speakers for stereo sound:

1. Ensure both speakers are powered on and in Bluetooth mode, but not yet connected to a mobile device.

2. On one speaker, press and hold the 'TWS' button. It will search for the other speaker.
3. Once connected, the speakers will indicate successful pairing. You can then connect your mobile device to the primary speaker via Bluetooth.

5. LED Light Modes

Press the 'Mode/LED' button to cycle through various dynamic LED light modes, creating different ambiance for your event.

6. Remote Control

The included remote control allows for convenient operation from a distance, including power, volume, track selection, and mode changes.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the exterior of the speaker and microphones. Avoid using abrasive cleaners or solvents.
- **Storage:** Store the device in a cool, dry place away from direct sunlight and extreme temperatures when not in use.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Charge the device regularly, even if not in active use.

TROUBLESHOOTING

- **No Power:** Ensure the device is fully charged or connected to the power adapter. Check the power button for proper activation.
- **No Sound:** Verify that the volume levels on both the speaker and your connected device are turned up. Check all cable connections for wired inputs. Ensure the correct input mode is selected.
- **Microphone Not Working:** Make sure the microphones are charged and powered on. Check microphone volume levels. Ensure they are within range of the speaker.
- **Bluetooth Disconnection:** Ensure your device is within the Bluetooth range (typically 10 meters). Disconnect and re-pair the device if issues persist.
- **TWS Pairing Failure:** Ensure both speakers are in Bluetooth pairing mode and not connected to any other device before attempting TWS pairing.
