## TECKNET TK-GM001

# TECKNET Wireless Gaming Mouse User Manual

Model: TK-GM001

## 1. INTRODUCTION

---

Thank you for choosing the TECKNET Wireless Gaming Mouse. This manual provides detailed instructions on how to set up, operate, and maintain your new gaming mouse, ensuring optimal performance and longevity. Please read this manual thoroughly before using the product.

## 2. PRODUCT OVERVIEW

---

### 2.1 Package Contents

- TECKNET Wireless Gaming Mouse
- USB Receiver
- USB Charging Cable
- User Manual

### 2.2 Mouse Components

Familiarize yourself with the various parts of your TECKNET Wireless Gaming Mouse:

Image: The TECKNET Wireless Gaming Mouse, showcasing its ergonomic design and the included USB receiver.

1. Left Click Button
2. Right Click Button
3. Scroll Wheel / Middle Click Button
4. DPI Cycle Button
5. Forward Button (Side)
6. Backward Button (Side)
7. RGB Lighting Strip
8. USB Charging Port (Front)
9. Power Switch (Bottom)
10. USB Receiver Storage Slot (Bottom)

## **3. SETUP**

---

### **3.1 Initial Charging**

Before first use, it is recommended to fully charge the mouse. Connect the provided USB charging cable to the mouse's charging port and the other end to a USB power source (e.g., computer USB port, USB wall adapter). The RGB lighting may indicate charging status.

Image: The mouse connected via USB cable for charging, illustrating its 900mAh battery capacity and estimated battery life of 35 hours with lights on and 100 hours with lights off.

## 3.2 Connecting the Mouse

The TECKNET Wireless Gaming Mouse supports both 2.4GHz wireless and wired connections.

### 3.2.1 2.4GHz Wireless Connection

1. Remove the USB receiver from its storage slot on the bottom of the mouse.
2. Plug the USB receiver into an available USB port on your computer.
3. Turn on the mouse using the power switch located on the bottom.
4. The mouse will automatically connect to the receiver. Your computer should recognize the device without needing additional drivers.

## Dual-Mode-Verbindung mit Geringer Latenz

Stabilität für Ihr Spiel

Image: A visual representation of the mouse connected wirelessly to a laptop via its USB receiver, demonstrating a stable connection range of up to 10 meters (32.8 feet).

### 3.2.2 Wired Connection

To use the mouse in wired mode, simply connect the USB charging cable from the mouse to a USB port on your computer. The mouse will function as a wired mouse and charge simultaneously.

## 4. OPERATING INSTRUCTIONS

### 4.1 DPI Adjustment

The mouse features an adjustable DPI (Dots Per Inch) setting, allowing you to change cursor sensitivity on the fly. Press the DPI cycle button (usually located behind the scroll wheel) to cycle through different DPI levels. Each level is often indicated by a specific RGB light color.

# Hohe DPI Stufe Bis Zu 8000

6 DPI Farben Einstellbar

# 80000

DPI-stufe

800

1600

2400

3200

4800

8000

Image: The mouse highlighting its 8000 DPI capability, with six distinct DPI levels (800, 1600, 2400, 3200, 4800, 8000) each associated with a unique LED light color for easy identification.

## 4.2 RGB Lighting Control

The mouse is equipped with customizable RGB lighting. You can typically cycle through different lighting modes or turn the lighting on/off using a dedicated button or through the software.

# Cool RGB-Lichter

**Note:** The driver software for programmable buttons is compatible only with Windows operating systems.

## 5. CHARGING AND BATTERY LIFE

The mouse is equipped with a 900mAh rechargeable battery. When the battery is low, the RGB lighting may flash or change color to indicate the need for charging. Connect the mouse to a USB power source using the provided cable to recharge.

- **Battery Capacity:** 900mAh
- **Estimated Battery Life (Lights On):** Up to 35 hours
- **Estimated Battery Life (Lights Off):** Up to 100 hours

## 6. MAINTENANCE

## 6.1 Cleaning

To clean your mouse, use a soft, dry cloth. For stubborn dirt, slightly dampen the cloth with water or a mild cleaning solution. Avoid using harsh chemicals or abrasive materials, as these can damage the mouse's surface.

## 6.2 Storage

When not in use for extended periods, store the mouse in a cool, dry place. Ensure the USB receiver is securely stored in its designated slot on the mouse's bottom to prevent loss.

## 7. TROUBLESHOOTING

---

Problem	Possible Solution
Mouse not responding (Wireless)	<ul style="list-style-type: none"><li>• Ensure the mouse is turned on.</li><li>• Check if the USB receiver is securely plugged into a working USB port.</li><li>• Recharge the mouse if the battery is low.</li><li>• Try plugging the receiver into a different USB port.</li><li>• Move the mouse closer to the receiver to rule out interference.</li></ul>
Mouse cursor erratic or jumpy	<ul style="list-style-type: none"><li>• Clean the optical sensor on the bottom of the mouse.</li><li>• Use the mouse on a clean, non-reflective surface or a mouse pad.</li><li>• Adjust the DPI setting to a lower level.</li></ul>
RGB lights not working	<ul style="list-style-type: none"><li>• Ensure the RGB lights are not turned off via the mouse's switch or software.</li><li>• Recharge the mouse.</li></ul>
Programmable buttons not working	<ul style="list-style-type: none"><li>• Ensure the driver software is installed and running (Windows only).</li><li>• Check the button assignments within the software.</li></ul>
