Horavie K1100

Horavie Mini Single Serve Coffee Maker Instruction Manual

Model: K1100

Brand: Horavie

1. INTRODUCTION AND OVERVIEW

The Horavie Mini Single Serve Coffee Maker is designed for convenience and efficiency, allowing you to brew a fresh cup of coffee quickly. This compact machine supports both K-cup pods and ground coffee, offering flexibility for your brewing preferences. Its user-friendly design and integrated features make it an ideal choice for various settings, from home kitchens to offices and RVs.

2. PRODUCT FEATURES

- **Multi-Functional Brewing:** Supports both K-pod and ground coffee, with flexible brew sizes from 6 to 12 oz.
- **Safe and High-Quality Materials:** Constructed from BPA-free and heat-resistant materials for durability and safety. Features a built-in water tank with a view window for easy monitoring of water levels.
- **User-Friendly Design:** Fast brewing technology with simple one-button operation. Enjoy hot coffee in approximately 120 seconds.
- **Compact and Portable:** Ideal for small kitchens, offices, or RVs due to its compact design and light weight.
- **Descaling Reminder & Self-Cleaning Function:** An automatic descaling reminder illuminates in red when cleaning is needed. A self-cleaning process can be initiated by adding a descaling solution and pressing the button for 2 seconds.

3. SETUP

Before using your Horavie coffee maker for the first time, please follow these steps:

- 1. Unpack:** Carefully unpack your coffee maker and remove all packaging materials. Ensure all accessories are present and the appliance is not damaged.
- 2. Initial Clean Water Cycle:**
 - Fill the water reservoir to the MAX level with clean water. Do not add any liquid other than water.
 - Close the lid and place your mug on the drip tray.
 - Plug the appliance into a grounded outlet.
 - Press the ON/OFF button once to start brewing. The button will flash 3 times.
 - Once the cycle is complete, discard the water. This step helps clean the internal components and ensures optimal coffee taste for your first brew.
- 3. Prepare for Brewing:** Ensure the capsule holder or ground coffee filter is empty before proceeding to brew coffee.

6-12oz Brewing Size Mini Coffee Maker

Water Tank with View Window Provides 4 Cup Sizes: 6, 8, 10, 12oz

Note: Please do not add water beyond the maximum scale line

Figure 6: Filling the water tank. Note the clear view window for monitoring water levels and the maximum fill line.

4. OPERATING INSTRUCTIONS

Follow these steps to brew your coffee:

- 1. Add Water:** Fill the water reservoir with your desired amount of water (6, 8, 10, or 12 oz). Do not exceed the MAX fill line.
- 2. Insert Coffee:**
 - For K-Cup Pods: Lift the release lever to unlock the top cover. Insert a K-cup capsule into the capsule holder. Ensure the capsule is level with the edge of the holder and pushed down with enough force for the exit needle to puncture it.
 - For Ground Coffee: Fill the reusable ground coffee filter with your desired amount of ground coffee. Insert the filled filter into the brewing chamber.
- 3. Close Lid:** Close the top lid firmly. Ensure the capsule holder or ground coffee filter is placed horizontally in the slot, otherwise the top cover will not close properly.
- 4. Place Mug:** Place your mug on the drip tray.
- 5. Start Brewing:** Press the ON/OFF button once to begin brewing. The button will flash during brewing

and turn solid when complete.

6. **Enjoy:** Your coffee will be ready in approximately 120 seconds.

Important Note:

- Do not remove or puncture the foil lid before inserting a K-cup capsule into the holder.
- If the top cover is not properly closed, the capsule puncturing mechanism will not lower and latch.
- After brewing, do not open the top cover to remove the holder or filter immediately to avoid burns from hot steam or coffee.

Note:

The handle of K-Pod holder and filter should be placed horizontally in the coffee machine slot, otherwise the top cover will not close properly.

After brewing, please do not open the top cover to remove the holder or filter immediately to avoid burns.

Figure 7: Correct horizontal placement of the K-Pod holder or ground coffee filter for proper lid closure.

5. MAINTENANCE

Descaling

The coffee maker features an automatic descaling reminder. When the descaling light illuminates in red, it indicates that cleaning is needed to prevent clogging and ensure optimal performance.

1. **Prepare Solution:** Add a descaling solution (e.g., vinegar and water mixture) to the water reservoir.
2. **Initiate Self-Cleaning:** Press and hold the ON/OFF button for 2 seconds to initiate the self-cleaning

process.

3. **Rinse:** Repeat the rinsing process with clean water until the descaling light goes out. This ensures all descaling solution is flushed from the system.

General Cleaning

- Always clean and dry all detachable parts thoroughly after each use.
- Wipe the exterior of the coffee maker with a damp cloth. Do not immerse the unit in water.

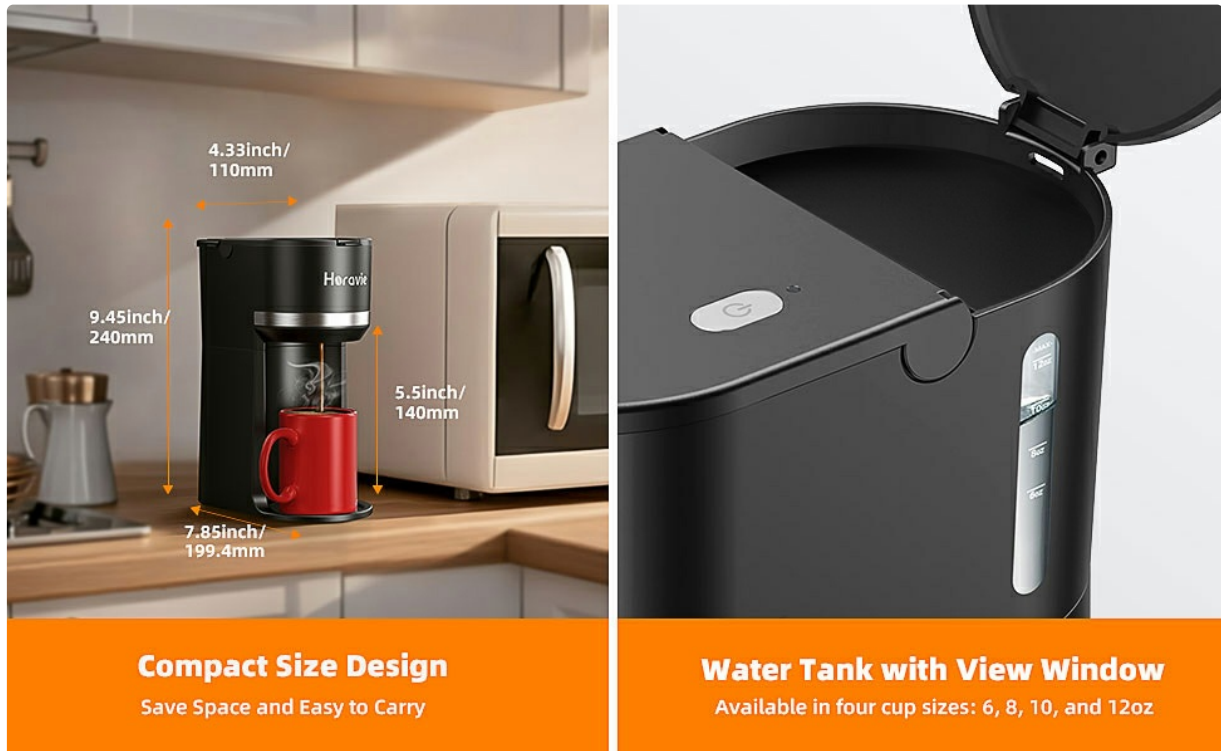

Figure 8: Visual guide for the descaling process, including adding solution and pressing the button.

6. TROUBLESHOOTING

If you encounter any issues with your Horavie Mini Single Serve Coffee Maker, please refer to the following common solutions:

- **Coffee Not Brewing / No Water Dispensed:**
 - Ensure the water reservoir is filled above the minimum level and below the maximum fill line.
 - Check that the appliance is properly plugged into a grounded outlet.
 - Verify that the K-cup holder or ground coffee filter is correctly seated and the top lid is fully closed and latched. The handle of the K-Pod holder and filter should be placed horizontally in the coffee machine slot.
 - The descaling light may be on, indicating a need for descaling. Follow the maintenance instructions to descale the machine.
- **Weak Coffee:**
 - Ensure you are using the appropriate amount of ground coffee for your desired strength, or select a stronger K-cup pod.
 - Check that the brew size selected (water level) matches your preference for coffee strength. Less water results in stronger coffee.
- **Coffee Not Hot Enough:**

- Ensure the machine has completed its heating cycle before brewing.
- Pre-heat your mug with hot water before brewing.
- **Lid Not Closing Properly:**
 - Ensure the K-Pod holder or ground coffee filter is inserted correctly and horizontally.
 - Check for any obstructions preventing the lid from closing fully.

7. SPECIFICATIONS

Brand	Horavie
Model Name	K1100
