Key Features

- **Crystal-Clear Calls & Advanced Noise Reduction:** The unibody microphone and advanced noise reduction technology block background noise for professional calls and virtual meetings, even in busy environments.

- **All-Day Comfort:** Premium memory foam ear cushions relieve ear pressure, providing comfort for extended use during long meetings or calls.

- **Universal Compatibility:** Includes both 3.5mm jack and USB adapter for seamless switching between laptops, phones, and tablets.

- **Instant Call Control:** An in-line control panel allows for volume adjustment, microphone muting, and call answering without interrupting your workflow.

- **180° Rotating Ear Cup:** The ear cup can rotate 180 degrees, allowing you to comfortably rest the headset around your neck during breaks.

SETUP INSTRUCTIONS

1. **Identify Connection Type:** Determine if your device (PC, laptop, phone, IP phone) uses a USB port or a 3.5mm audio jack.

2. **Connect the Headset:**

- For USB connection: Plug the USB connector of the headset directly into an available USB port on your computer or IP phone.
- For 3.5mm connection: Plug the 3.5mm audio jack into the corresponding port on your device. If your device only has a USB port, use the provided USB adapter.

3. **System Recognition:** Your operating system should automatically detect and install the necessary drivers for the headset. This may take a few moments.

4. **Audio Settings (if needed):** If the headset is not automatically set as the default audio device, navigate to your device's sound settings (e.g., Windows Sound Settings, macOS System Preferences > Sound) and select the Rownfusny R06S as your input (microphone) and output (speaker) device.

5. **Test Audio:** Make a test call or play some audio to ensure the headset is functioning correctly.

OPERATING INSTRUCTIONS

The Rownfusny R06S features a convenient in-line control panel for easy management of calls and audio.

- **Volume Up (+):** Press the '+' button to increase the listening volume.
- **Volume Down (-):** Press the '-' button to decrease the listening volume.
- **Microphone Mute:** Press the microphone icon button to mute or unmute your microphone. An indicator light on the control panel will show the microphone status.
- **Call Answer/End:** Press the phone icon button to answer an incoming call or end an active call. This function is specifically designed for MS Teams and IP Phones.
- **Wearing the Headset:** Adjust the headband for a comfortable fit. The microphone boom is flexible and can be positioned optimally for voice pickup. The 180° rotatable ear cup allows for comfortable resting around the neck when not in active use.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the headset. Do not use liquid cleaners or aerosols.
- **Storage:** When not in use, store the headset in the provided storage bag to protect it from dust and damage.
- **Cable Care:** Avoid sharp bends or excessive pulling on the cable to prevent internal damage.
- **Temperature:** Do not expose the headset to extreme temperatures or humidity.

TROUBLESHOOTING

Problem	Possible Solution
No sound from headset / Microphone not working	○ Ensure the headset is securely plugged into the correct port (USB or 3.5mm). ○ Check your device's sound settings to ensure the Rownfusny R06S is selected as the default input/output device. ○ Verify the microphone is not muted via the in-line control or your software settings. ○ Try plugging the headset into a different USB port or 3.5mm jack.
Sound is distorted or unclear	○ Adjust the volume using the in-line controls or your device's volume settings. ○ Ensure the cable is not damaged or kinked. ○ Test the headset on another device to rule out a device-specific issue.
Call Answer/End button not working	○ This feature is primarily designed for MS Teams and IP Phones. Ensure you are using a compatible application. ○ Check for any software updates for your communication platform.

SPECIFICATIONS
