INIU P51

INIU 20000mAh 22.5W Fast Charging Power Bank (Model P51) Instruction Manual

Your reliable companion for portable power.

1. OVERVIEW

The INIU 20000mAh 22.5W Fast Charging Power Bank (Model P51) is designed to provide portable and efficient power for a wide range of electronic devices. Its compact size and high capacity make it ideal for travel and daily use.

This power bank features multiple charging ports, including USB-C for both input and output, and a USB-A output port, ensuring broad compatibility. The integrated LED display provides real-time battery status, and advanced safety features protect your devices during charging.

2. WHAT'S IN THE Box

- INIU 20000mAh Portable Charger (Model P51) x 1
- 0.3M/1ft USB-C to USB-C Cable x 1
- Travel Pouch x 1
- User Manual x 1

3. PRODUCT FEATURES

- **High Capacity & Compact Design:** The tiniest 20,000mAh power bank, measuring just 1.94" diagonally, capable of charging an iPhone 15 four times and a Galaxy S23 three times.
- **Travel-Friendly:** Easily fits into pockets, bags, and is TSA-compliant for air travel.
- **22.5W Fast Charging:** Achieve 75% power in approximately 25 minutes for compatible devices.
- **Versatile Connectivity:** Equipped with 2 USB-C input/output ports and 1 USB-A output port.
- **Low-Current Device Charging:** Supports charging for small devices like smartwatches and earbuds.
- **Digital Display:** Clear LED screen shows the remaining battery percentage.
- **Built-in Flashlight:** Provides convenient illumination when needed.
- **Advanced Safety:** Features 18-Layer SmartProtect technology, passing ETL Safety Certification.

4. SETUP

1. **Initial Charge:** Before first use, fully charge the power bank using the provided USB-C to USB-C cable

and a compatible wall adapter (not included). The LED display will show the charging progress.

2. **Check Battery Level:** Press the power button once to view the current battery percentage on the LED display.

5. OPERATING INSTRUCTIONS

5.1 Charging the Power Bank

To recharge the INIU P51 Power Bank:

1. Connect the provided USB-C to USB-C cable to one of the USB-C ports on the power bank.
2. Connect the other end of the cable to a compatible USB wall charger (e.g., 22.5W or higher for fast charging, sold separately).
3. The LED display will show the battery percentage increasing as it charges.

5.2 Charging Your Devices

The power bank can charge up to three devices simultaneously.

1. Connect your device's charging cable to an available output port on the power bank (USB-C or USB-A).
2. Connect the other end of the cable to your device.
3. The power bank will automatically begin charging. The LED display will show the power bank's remaining charge.

Fast Charging Compatibility:

For 22.5W fast charging, ensure your device and cable support PD 3.0 or QC 4.0 protocols. The power bank will automatically detect and deliver the optimal charging speed.

5.3 Low-Current Device Charging Mode

For devices requiring lower charging currents (e.g., smartwatches, Bluetooth earbuds):

1. Press and hold the power button for approximately 3 seconds to activate low-current mode.
2. Connect your low-current device.
3. To exit low-current mode, press and hold the power button again for 3 seconds, or it will automatically exit after 2 hours.

5.4 Flashlight Function

To use the built-in flashlight:

- Double-press the power button to turn the flashlight ON.
- Double-press the power button again to turn the flashlight OFF.

6. MAINTENANCE

- Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures.
- Clean the device with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.
- If not used for extended periods, charge the power bank at least once every three months to maintain battery health.
- Avoid dropping or subjecting the power bank to strong impacts.

7. TROUBLESHOOTING

- **Device not charging:** Ensure the power bank is charged. Check the charging cable and connections. Try a different cable or port.
- **Slow charging:** Verify that your device and cable support fast charging. Ensure the power bank is not in low-current mode for standard devices.
- **Power bank not charging:** Use the provided USB-C to USB-C cable and a compatible wall adapter. Check connections.
- **LED display not working:** Press the power button once to activate the display. If it remains off, the battery might be completely depleted or there could be a fault.

8. SPECIFICATIONS

Feature	Detail
Model Number	P51
Battery Capacity	20000mAh
Product Dimensions	4.09 x 2.76 x 1.14 inches
Item Weight	12.7 ounces
Input (USB-C)	Up to 22.5W (PD)
Output (USB-C)	Up to 22.5W (PD/QC)
Output (USB-A)	Up to 22.5W (QC)
Special Features	Digital Display, Fast Charging, Flashlight, Slim, Pocket Size, Lightweight, Compact Design, USB-C In&Out
