› Hodozzy Android Car Stereo User Manual for Fiat Punto (2010-2016) and Fiat Linea (2012-2015) with CarPlay and Android Auto

**Hodozzy 06b76dc0-f6ab-4453-a664-45087c4aef14**

# Hodozzy Android Car Stereo User Manual

Model: 06b76dc0-f6ab-4453-a664-45087c4aef14

## 1. INTRODUCTION

---

This manual provides comprehensive instructions for the installation, operation, and maintenance of your Hodozzy Android Car Stereo. Please read this manual thoroughly before using the product to ensure proper functionality and safety.

### 1.1 Compatible Vehicle Models

- Fiat Punto: 2010-2016
- Fiat Linea: 2012-2015

Ensure your vehicle's dashboard matches the product's design for proper fitment.

# Applicable Models

For Fiat Punto 2010-2016/Linea 2012-2015

## 3. PACKAGE CONTENTS

Before installation, please verify that all items listed below are included in your package:

- 1 x Car Player Unit
- 1 x Power Cable
- 1 x RCA Cable
- 1 x Rear Camera Input Cable
- 2 x USB Cables
- 1 x Original USB Cable
- 1 x Radio Antenna
- 1 x GPS Antenna
- 1 x Canbus Decoder
- 1 x Camera
- 1 x Microphone

- 1 x Antenna Adapter

## 4. SETUP AND INSTALLATION

Professional installation is highly recommended for this product. Incorrect wiring can damage the unit or your vehicle's electrical system. Always disconnect the vehicle's battery before starting installation.

### 4.1 Wiring Connections

- **Power Cable:** Connect the main power harness to your vehicle's wiring. Ensure correct connections for constant power (B+), accessory power (ACC), and ground (GND).
- **RCA Cables:** Connect for audio output (e.g., external amplifier) and video output (e.g., headrest monitors).
- **Rear Camera Input:** Connect the provided rear camera cable. The unit automatically switches to the camera view when reverse gear is engaged.
- **USB Cables:** Connect the dual USB interfaces for media playback, phone charging, and wired CarPlay/Android Auto.
- **Antennas:** Connect the Radio Antenna and GPS Antenna to their respective ports on the unit. Position the GPS

antenna in a location with a clear view of the sky for optimal signal reception.

- **Canbus Decoder:** Connect the Canbus decoder as per your vehicle's specific wiring diagram. This enables features like steering wheel control and vehicle information display.
- **Microphone:** Connect the external microphone for improved call quality during hands-free operation.

## 4.2 Mounting the Unit

Securely mount the car stereo into your vehicle's dashboard using the appropriate mounting brackets. Ensure all cables are routed safely and do not interfere with vehicle operation.

# 5. OPERATING INSTRUCTIONS

---

## 5.1 Basic Operations

- **Power On/Off:** Press the power button (PWR) to turn the unit on or off.
- **Volume Control:** Use the volume knob or steering wheel controls to adjust the audio level.
- **Touchscreen:** Navigate the interface by tapping, swiping, and pinching on the 6.2-inch touchscreen.

## 5.2 Wireless CarPlay & Android Auto

Connect your smartphone wirelessly or via USB to access CarPlay (for iOS) or Android Auto (for Android) features directly on the car stereo display.

- **Wireless Connection:** Enable Bluetooth and Wi-Fi on your phone. Pair your phone with the car stereo via Bluetooth. Follow the on-screen prompts to initiate CarPlay or Android Auto.
- **Wired Connection:** Connect your phone to one of the USB ports using a high-quality USB cable. The system should automatically detect and launch CarPlay or Android Auto.
- **Functions:** Access navigation, music, messages, and other compatible apps. Use voice commands for hands-free operation.

## 5.3 Bluetooth Functionality

The integrated Bluetooth module allows for hands-free calling and wireless audio streaming.

- **Pairing:** Go to the Bluetooth settings on the car stereo and enable Bluetooth. Search for available devices on your phone and select the car stereo's Bluetooth name. Confirm the pairing code if prompted.
- **Hands-Free Calling:** Once paired, you can make and receive calls directly through the car stereo.
- **Music Streaming:** Play audio from your phone through the car stereo speakers.

## 5.4 GPS Navigation

The unit comes with pre-installed offline maps. Connect to Wi-Fi for online navigation and real-time traffic updates.

- **Offline Maps:** Access the pre-loaded maps without an internet connection.
- **Online Navigation:** Connect the unit to a Wi-Fi hotspot (e.g., from your smartphone) to use online navigation apps and download additional map data.

## 5.5 FM/RDS Radio

Tune into your favorite radio stations with FM and RDS (Radio Data System) support.

- **Tuning:** Use the touchscreen to scan for stations or manually tune to a specific frequency.
- **RDS:** Display station information, song titles, and traffic updates where available.
- **Presets:** Save your preferred stations for quick access.

## 5.6 Steering Wheel Control

The unit supports your vehicle's original steering wheel controls for convenience and safety.

- **Learning Function:** For initial setup, access the steering wheel control settings in the system menu. Follow the instructions to assign functions (e.g., volume up/down, track skip, mode) to your steering wheel buttons.

Figure 5.1: Rear camera display with AHD quality and an example of the steering wheel control learning interface.

## 6. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your car stereo.

- **Screen Cleaning:** Use a soft, lint-free cloth to gently wipe the touchscreen. For stubborn smudges, slightly dampen the cloth with water or a screen-safe cleaner. Avoid harsh chemicals or abrasive materials.
- **Software Updates:** Periodically check the manufacturer's website or the unit's system settings for available software updates. Keeping the software updated can improve performance and add new features.
- **Temperature:** Avoid exposing the unit to extreme temperatures. The operating temperature range is -20°C to 75°C.

## 7. TROUBLESHOOTING

If you encounter issues with your car stereo, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No Power	Incorrect wiring, blown fuse, vehicle battery issue.	Check power cable connections (B+, ACC, GND). Inspect vehicle fuses. Ensure battery is charged.
No Sound	Volume too low, speaker wiring issue, incorrect audio output settings.	Increase volume. Check speaker connections. Verify audio output settings in the system menu.
GPS Signal Lost/Weak	GPS antenna placement, interference.	Ensure GPS antenna has a clear view of the sky. Relocate antenna if necessary.
Bluetooth Connection Issues	Phone not paired, Bluetooth disabled.	Ensure Bluetooth is enabled on both devices. Re-pair the phone with the car stereo.
Steering Wheel Controls Not Working	Not configured, Canbus issue.	Perform the steering wheel control learning process in settings. Check Canbus connection.
Rear Camera Not Displaying	Camera wiring, reverse trigger signal.	Check camera input cable connection. Ensure reverse trigger wire is correctly connected.

If problems persist, contact customer support or consult a professional installer.

### 7.1 Factory Settings Keyword

The factory settings keyword for this unit is: **1234**. Use this code with caution as resetting to factory settings will erase all user data and configurations.

## 8. SPECIFICATIONS

Feature	Specification
System	Android 13
Chipset	8227L
Screen Size	6.2 inches
Memory	2GB (RAM) + 64GB (ROM)
Screen Resolution	1024*600
