Maydolly 506

Maydolly Smart Baby Bassinet & Playpen Instruction Manual

Model: 506 | Brand: Maydolly

INTRODUCTION

This manual provides essential information for the safe and effective use of your Maydolly Smart Baby Bassinet and Playpen. Please read all instructions carefully before assembly and use, and retain this manual for future reference. The Maydolly Smart Baby Bassinet is designed to provide a safe and comfortable sleeping and play environment for infants and toddlers, featuring smart technology for enhanced convenience and peace of mind.

SAFETY INFORMATION

WARNING: Failure to follow these warnings and instructions could result in serious injury or death.

- Always use the bassinet on a firm, horizontal surface.
- Do not use this product if any parts are missing, damaged, or broken. Contact Maydolly for replacement parts and instructional literature if needed.
- Discontinue use of the bassinet when the infant begins to push up on hands and knees, or has reached 20 lbs (for bassinet mode) or 33 lbs (for playpen mode), or is 24 months old, whichever comes first.
- Ensure all assembly fasteners are securely tightened before use.
- Never place soft bedding, such as quilts, pillows, or extra padding, in the bassinet with an infant.
- Keep small parts away from children during assembly.
- Always use the provided mattress. Do not add a second mattress.
- When using in bedside sleeper mode, ensure the bassinet is securely attached to the adult bed using the provided straps.

PACKAGE CONTENTS

- Bassinet Frame (Base Legs, Support Bars)
- Bassinet Basket Assembly
- Mattress
- Mosquito Net with Toys
- Storage Basket
- Remote Control
- Power Adapter
- Safety Straps for Bedside Use
- Instruction Manual

SETUP

1. Assembling the Base

Connect the base legs and support bars. Ensure all components click securely into place. No tools are required for assembly.

Image: Fully assembled Maydolly Smart Baby Bassinet in a living room setting.

2. Attaching the Bassinet Basket

Align the bassinet basket with the assembled base and firmly press down until it locks into position. Ensure both sides are securely attached.

3. Installing the Storage Basket

Attach the fabric storage basket to the designated hooks or clips on the lower part of the bassinet frame. This provides convenient storage for baby essentials.

4. Power Connection

Connect the power adapter to the bassinet's power port, typically located on the underside of the main unit, and plug it into a wall outlet.

5. Mattress Placement

Place the provided mattress firmly into the bassinet basket. Ensure it fits snugly without gaps around the edges.

OPERATING INSTRUCTIONS

1. Power On/Off

Press the power button on the control panel or the remote control to turn the bassinet on or off.

2. Cry Detection and Response

The bassinet features an advanced automatic cry detection system. When a baby's cry is detected, the bassinet can automatically initiate soothing actions. Activate this feature via the control panel or remote.

Cry Sound Detector

When baby's cry is detected, our Smart Bassinet will automatically swing. Press the "Cry Detection" button to enable it, and by default it operates at the 3rd swing frequency.

Image: Illustration of the bassinet's cry sound detector, showing a crying baby being soothed by automatic swinging.

3. Rocking Modes and Speeds

Select from 5 adjustable electric rocking speeds to find the most comforting motion for your baby. The bassinet offers 3 soothing timed rocking modes.

5 Swing Speeds to Choose

Cradle mode for 0-6 months

Image: A woman sitting near the bassinet, which is gently swinging, illustrating the 5 swing speeds feature.

4. Soothing Sounds and Lullabies

Choose from a variety of built-in sounds: 5 natural sounds, 3 types of white noise, and 12 lullabies. Adjust the volume to suit your baby's preference.

20 Sound Effects to Soothe Baby

3 White Noises

5 Natural Sounds

12 Musics

6. Remote Control Usage

The included remote control allows for convenient adjustment of all features (power, rocking speed, sounds, timer) from a distance.

7. Height Adjustment

The bassinet offers 7 adjustable height levels to align with various bed heights or other surfaces. Adjust each side independently for an inclined sleeping position if recommended by a pediatrician for conditions like reflux.

7 Levels Adjustable Height

Choose the appropriate according to your bed

- ① 33.4 in
- ② 34.4 in
- ③ 35.4 in
- ④ 36.4 in
- ⑤ 37.4 in
- ⑥ 38.4 in
- ⑦ 39.4 in

Video: Shows the smart cradle's rocking feature and how it can be used as a bedside sleeper.

9. Playpen Mode

The bassinet can convert into a playpen for older infants (8-24 months, up to 33 lbs) by adjusting the mattress height to its lowest position. This provides an independent space for play.

Playard mode for 8-24 months

Independent space to play for babies

10. Mobility

The bassinet is equipped with 4 silent universal wheels, allowing for effortless movement around your home. Lock the wheels when the bassinet is in a stationary position.

11. Mosquito Net

The included mosquito net can be attached to protect your baby from insects. It also features attached toys for engagement.

MAINTENANCE

Cleaning

The mattress cover and fabric components are removable for cleaning. Follow the care instructions: Hand

Wash Only. Ensure all parts are completely dry before reassembly.

TROUBLESHOOTING

- **Bassinet not rocking:** Ensure the power adapter is securely plugged in and the power button is on. Check the remote control battery.
- **Sounds not playing:** Verify the volume settings and ensure the sound function is activated.
- **Cry detection not working:** Check that the cry detection feature is enabled and there are no obstructions to the microphone.
- **Difficulty adjusting height:** Ensure the adjustment buttons on both sides are fully pressed before attempting to change the height.
