HEADSET OVERVIEW

Familiarize yourself with the key components and controls of your OW810 headset:

- **Adjustable Headband:** Ensures a snug and comfortable fit for various head sizes.
- **Memory Foam Earcups:** Soft, breathable mesh earcups designed for extended comfort during long gaming sessions.
- **Retractable Microphone:** Flexible microphone with noise-canceling capabilities, which can be flipped up and out of the way when not in use.
- **RGB Lighting:** Customizable LED lighting on the earcups for an enhanced aesthetic.
- **Controls:** Integrated buttons for power, volume adjustment, and mode selection (2.4G wireless, Bluetooth).
- **Ports:** USB-C port for charging and wired audio connection.

SETUP AND CONNECTIVITY

1. Charging the Headset

- Connect the USB-C end of the charging cable to the headset's USB-C port.
- Connect the USB-A end to a power source (e.g., computer USB port, USB wall adapter).
- The LED indicator will show charging status. A full charge provides approximately 40 hours of use.

2. 2.4GHz Wireless Connection (Recommended for PC, PS4, PS5, Switch)

- Insert the 2.4GHz USB wireless adapter into an available USB port on your device.
- Power on the headset by pressing and holding the Power button.
- Switch the headset to 2.4G mode using the mode switch (labeled "2.4G").
- The headset should automatically pair with the adapter. The LED indicator will confirm a successful connection.
- *Note: For Xbox consoles, the 2.4GHz wireless connection is not supported. Please use the wired connection method.*

3. Bluetooth Connection (For Phones, Tablets, Laptops)

- Power on the headset by pressing and holding the Power button.
- Switch the headset to Bluetooth mode using the mode switch (labeled "BT"). The LED indicator will flash, indicating pairing mode.
- On your device, enable Bluetooth and search for "Ozeino OW810" in the list of available devices.
- Select the headset to pair. The LED indicator will become solid when connected.

4. Wired Connection (For Xbox, PC, PS4, PS5, Switch, Mobile)

- Connect the USB-C end of the 3.5mm audio cable to the headset's USB-C port.
- Connect the 3.5mm jack to the 3.5mm audio port on your gaming controller, PC, or mobile device.
- The headset will operate in wired mode.

OPERATING INSTRUCTIONS

Power On/Off

- To power on: Press and hold the Power button until the LED indicator lights up.
- To power off: Press and hold the Power button until the LED indicator turns off.

Volume Control

- Use the Volume Up (+) and Volume Down (-) buttons located on the earcup to adjust the audio level.

Microphone Usage

- To use the microphone: Flip the microphone down towards your mouth.
- To mute/unmute: The microphone features a noise-canceling function. Specific mute controls may be integrated into the headset buttons or your connected device's settings.
- To store the microphone: Flip the microphone up and away from your face.

RGB Lighting

- The headset features dynamic RGB lighting on the earcups. The lighting typically activates when the headset is powered on.

- Refer to your device's audio settings or the headset's specific controls for any available customization options for the RGB lighting.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the headset. For earcups, a slightly damp cloth can be used, but ensure they are completely dry before use. Avoid harsh chemicals.
- **Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, avoid fully discharging the headset frequently. Charge it regularly, even if not in constant use.

TROUBLESHOOTING

Problem	Solution
No sound from headset	- Ensure the headset is powered on and charged. - Check volume levels on both the headset and your connected device. - Verify correct connection mode (2.4G, BT, or wired). - For 2.4G wireless, ensure the USB adapter is securely plugged in and recognized by the device. - For Bluetooth, ensure the headset is paired and connected in your device's Bluetooth settings. - For wired, ensure the 3.5mm cable is fully inserted into both the headset and the device.
Microphone not working	- Ensure the microphone is flipped down and not muted. - Check your device's audio input settings to ensure the headset microphone is selected. - Test the microphone with another application or device.
Wireless connection unstable	- Ensure the headset is within range of the 2.4GHz adapter or Bluetooth device. - Minimize interference from other wireless devices (e.g., Wi-Fi routers, other Bluetooth devices). - Re-pair the headset with your device.
Headset not charging	- Verify the USB-C charging cable is securely connected to both the headset and the power source. - Try a different USB port or power adapter. - Ensure the charging cable is not damaged.
