2. **Identify Parts:** Refer to the parts list in your separate assembly guide (not included in this general manual) to identify each component.
3. **Assemble Frame:** Begin by attaching the main support bars to the desk legs using the provided screws. Ensure all connections are secure but do not fully tighten until the entire frame is assembled.
4. **Attach Desktop Panels:** Place the desktop panels onto the assembled frame. The L-shape design is reversible, allowing you to configure the longer side to either the left or right, depending on your space requirements. Align the pre-drilled holes and secure the desktop panels to the frame using the appropriate screws.
