SETUP AND INSTALLATION

Proper installation is crucial for optimal performance and safety. It is recommended that installation be performed by a qualified professional. Ensure the vehicle's power is disconnected before beginning installation. Refer to the provided wiring diagram for correct connections.

General Installation Steps:

1. **Disconnect Battery:** Always disconnect the negative terminal of your vehicle's battery before starting any electrical work.
2. **Remove Old Unit:** Carefully remove your existing car stereo or navigation unit from the dashboard.
3. **Connect Wiring:** Connect the provided power cable, RCA cable, USB cables, GPS antenna, and backup camera cable to the corresponding ports on the new Android stereo. Ensure all connections are secure.
4. **Mount Unit:** Securely mount the new Android stereo into the dashboard opening.
5. **Reconnect Battery:** Reconnect the vehicle's battery and test the unit's functionality.
