Panasonic ES-PV6B-W803

Panasonic ES-PV6B-W803 Series 900s Electric Shaver User Manual

Model: ES-PV6B-W803 | Brand: Panasonic

INTRODUCTION

The Panasonic ES-PV6B-W803 Series 900s Electric Shaver is designed for a precise and comfortable shaving experience. This compact, 5-blade shaver features an ultra-fast linear motor and a reactive beard sensor, adapting to your facial contours and beard density. It supports both wet and dry shaving and is equipped with USB-C charging for convenience.

IMPORTANT SAFETY INFORMATION

Please read all safety warnings before using the shaver to ensure safe operation and prevent injury.

- Use with caution to avoid cuts or skin irritation.
 - Clean the shaver regularly to prevent bacterial growth.
 - Do not use the shaver while it is charging.
 - Do not immerse the shaver in water if it is not fully charged or if the charging port cover is not securely closed.
 - Keep the shaver away from excessive water and humid environments when not in use or charging.
 - Do not attempt to open or disassemble the device.
-

SETUP AND FIRST USE

Unpacking and Components

Carefully unpack your Panasonic ES-PV6B-W803 shaver. Ensure all components are present:

- Panasonic ES-PV6B-W803 Electric Shaver
- USB-C Charging Cable
- AC Adapter
- Cleaning Brush
- Lubricating Oil
- Premium Travel Case

Image: Contents of the product package, including the shaver, charging accessories, cleaning tools, and travel case.

Initial Charging

Before the first use, fully charge the shaver. Connect the USB-C charging cable to the shaver and then to the AC adapter, plugging it into a power outlet. A full charge takes approximately 2 hours and provides up to 50 minutes of shaving time. Do not use the shaver while it is charging.

OPERATING INSTRUCTIONS

Shaving Modes: Wet and Dry

The ES-PV6B-W803 shaver is designed for both wet and dry use. Choose the method that best suits your preference and skin type.

- **Dry Shaving:** For a quick and convenient shave, use the shaver on dry skin.
- **Wet Shaving:** For a smoother and more comfortable shave, especially for sensitive skin, use the shaver with shaving gel or foam. It is also suitable for use in the shower.

*IPX7 Waterproofing, based on immersion test (30 minutes in water up to 1m depth)

Image: Demonstrates the shaver's wet/dry capability and its waterproof design for easy rinsing.

Shaving Technique

Turn on the shaver. Gently press the shaver head against your skin and move it in short, circular motions or straight strokes against the direction of hair growth. The shaver features a responsive beard sensor that automatically adjusts motor power based on your beard's density, ensuring an efficient and gentle shave without irritation.

Responsive beard sensor+
technology

MAINTENANCE AND CLEANING

Regular cleaning and maintenance will ensure optimal performance and extend the lifespan of your shaver.

Daily Cleaning

After each use, turn off the shaver and remove the outer foil frame. Rinse the shaver head and the inner blades thoroughly under running water. The shaver is IPX7 waterproof, allowing for easy and safe rinsing. Shake off excess water and allow the shaver to air dry completely before reattaching the protective cap.

Lubrication

To maintain blade sharpness and smooth operation, apply a drop of lubricating oil (included) to each outer foil and inner blade once a week or as needed. Turn on the shaver for a few seconds to distribute the oil evenly.

Storage

Store the shaver in its premium travel case when not in use or when traveling to protect it from

damage. Ensure the shaver is clean and dry before storing.

TROUBLESHOOTING

If you encounter any issues with your Panasonic ES-PV6B-W803 shaver, please refer to the following common solutions:

Problem	Possible Cause	Solution
Shaver does not turn on.	Battery is depleted.	Charge the shaver fully using the USB-C cable and AC adapter.
Reduced shaving performance.	Blades are dull or clogged with hair/debris.	Clean the shaver head thoroughly. Apply lubricating oil to the blades. Consider replacing the outer foil and inner blades if they are old.
Skin irritation after shaving.	Improper shaving technique or dry shaving on sensitive skin.	Ensure you are shaving correctly. Try wet shaving with gel or foam. Clean the shaver head to ensure hygiene.

If the problem persists, please consult the full product manual or contact Panasonic customer support for further assistance.
