### 4.1. Chess

Chess is a two-player strategy board game played on a checkered board with 64 squares arranged in an 8×8 grid. Each player begins with 16 pieces: one king, one queen, two rooks, two knights, two bishops, and eight pawns. The objective is to checkmate the opponent's king.

### 4.2. Checkers

Checkers (also known as Draughts) is a group of strategy board games for two players which involve diagonal moves of uniform game pieces and mandatory captures by jumping over opponent pieces. The objective is to capture all of the opponent's pieces or block them from making any further moves.

## 4.4. Chinese Checkers

Chinese Checkers is a strategy board game of German origin that can be played by two, three, four, or six people. The objective is to be the first to race all of one's pieces across the board into the 'home' triangle opposite the starting corner, using single-step moves or moves that jump over other pieces.
