# KeepGlad Dehumidifier User Manual

Model: RX02-A

## INTRODUCTION

This user manual provides detailed instructions for the operation and maintenance of your KeepGlad Dehumidifier, model RX02-A. Designed for use in bedrooms, bathrooms, and other small to medium-sized spaces, this dehumidifier efficiently reduces humidity to create a more comfortable and healthy environment.

## KEY FEATURES

- Efficient humidity reduction for areas up to 1000 square feet.
- Large 98 fluid ounce (approx. 2.9 liter) water tank capacity.
- Continuous drainage option with included hose.
- Intuitive LCD display for humidity level monitoring.
- Quiet operation mode for undisturbed use.
- Adjustable LED backlight with 7 color options.
- Timer function with 4, 8, and 12-hour settings.
- Automatic shut-off when water tank is full.

## PACKAGE CONTENTS

Upon opening the package, ensure all the following items are present:

## SETUP

---

### 1. Unpacking

Carefully remove the dehumidifier and all accessories from the packaging. Retain the packaging for future storage or transport.

### 2. Placement

Place the dehumidifier on a flat, stable surface in the desired location (e.g., bedroom, bathroom, basement). Ensure there is at least 8 inches (20 cm) of space around all sides of the unit for proper airflow.

### 3. Water Tank Installation

The water tank is pre-installed. Ensure it is securely seated in the unit before operation. To remove, gently pull the tank out from the back of the unit.

### 4. Continuous Drainage Setup (Optional)

For continuous operation without manually emptying the tank, attach the included drainage hose. Locate the drainage port at the back of the unit, remove the rubber stopper, and firmly connect one end of the hose. Route the other end to a suitable drain (e.g., floor drain, large bucket) ensuring it is lower than the unit for gravity drainage.

### 5. Power Connection

Plug the power cord into a standard electrical outlet. The unit will enter standby mode.

## OPERATING INSTRUCTIONS

---

### 1. Power On/Off

Press the **Power button** on the control panel to turn the unit on or off. The LCD display will show the current humidity level.

### 2. Setting Humidity

The dehumidifier operates automatically to maintain a comfortable humidity level. The LCD display indicates the current humidity. The unit will adjust its operation based on the detected humidity.

### 3. Sleep Mode (Quiet Mode)

Press the **Sleep Mode button** to activate quiet operation. In this mode, the fan speed is reduced, and the display lights dim for minimal disturbance, ideal for nighttime use.

### 4. Timer Function

Press the **Timer button** repeatedly to set the desired operating time: 4 hours, 8 hours, or 12 hours. The unit will automatically shut off after the set time.

## 5. LED Light Control

Press the **Light button** to cycle through 7 adjustable LED backlight colors or turn the light off. This feature allows for customization to fit your environment.

## 6. Water Tank Full Indicator

When the water tank is full, the unit will automatically shut off, and the LCD display will indicate that the tank needs to be emptied. Empty the tank and reinsert it to resume operation.

## MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your dehumidifier.

- **Emptying the Water Tank:** When the tank is full, carefully slide it out from the back of the unit. Dispose of the collected water and slide the tank back into place until it clicks securely.
- **Cleaning the Unit:** Wipe the exterior of the dehumidifier with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Air Filter (if applicable):** While not explicitly mentioned in specifications, most dehumidifiers have an air filter. If your model includes one, refer to the product packaging or manufacturer's website for instructions on cleaning or replacing it. A clean filter ensures efficient operation.

## TROUBLESHOOTING

If you encounter issues with your dehumidifier, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Dehumidifier not turning on.	No power, tank full, or improperly seated.	Check power connection. Empty and re-seat water tank.
Unit not collecting water.	Humidity too low, room too cold, or continuous drainage active.	Ensure room temperature is above 41°F (5°C). Verify humidity is above target. Check continuous drainage hose connection.
Unusual noise during operation.	Unit not on a level surface, or internal component issue.	Place on a flat, stable surface. If noise persists, contact customer support.
Display not working correctly.	Power fluctuation or internal error.	Unplug the unit for 5 minutes, then plug it back in.
